

ECTORAL (ronnel) Tablets, given regularly to your dog or cat, can rid your pet of fleas, lice, and even ticks. Tested two years by veterinarians for safety and effectiveness, and now used by thousands of pet owners, these tablets work by releasing small amounts of insecticide into the blood for continuing protection. They are as economical as weekly applications of potent sprays or powders—and far more convenient. In some animals, this medication may temporarily produce nausea or other undesirable effects. Your veterinarian has complete information about this new way of controlling fleas, ticks and lice. Ask him about **ECTORAL** brand of **RONNEL**.
