Oakland, Calif.—UPI—The American Negro will not get far in his battle for equal rights until he acquires racial pride, the chairman of the Afro-American association said today.

Sale of Paper Firm Negotiated

San Francisco—UPI—R. V. Hansberger, president of Boise Cascade Corp., Boise, Idaho, disclosed Tuesday that terms have been negotiated with Crown Zellerbach Corp. for the purchase of St. Helens Pulp & Paper Co. in Oregon.

Hansberger said the proposal now is before the Federal Trade commission and his company will pay \$30 million for the "package," which excludes some timber lands and equipment.

Hansberger said his firm would finance the deal through long term borrowings from two insurance companies.

The Federal Trade commission had ordered Crown Zellerbach to divest itself of St. Helens in 1957 on grounds of monopoly and the order since has been sustained by the courts.

Boise Cascade was formed by the 1957 merger of Boise Payette Lumber Co. and Cascade Lumber Co. The Columbia River Paper Co. was acquired last year.

Hansberger said return on investment is a prime goal. He said the rate of return has been increased from 6.2 per cent in 1956 to 9.6 per cent in 1962 and the objective is now 15 per cent.

He added it was only a matter of time until the stock will be listed on the New York Stock Exchange.

Suspect Questioned In Homicide Case

Portland—UPI—Portland Police detective William Taylor was in Fremont, Neb., today to question the man believed to be the last person seen in the company of Idaho cattle heiress Irene Davis, who was found dead in the Hilton hotel here Aug. 6.

Robert Joseph Evans, 27, was arrested in Fremont Monday on a charge of larceny by bailee. Taylor arrived late Monday night to question him.

Evans, also sought in Honolulu for violation of probation, was one of three men last seen with Miss Davis, of Payette, Idaho. She was later found in the bathtub of her room with a stocking knotted around her neck.

The Multnomah County coroner ruled her death "homicide until proven otherwise." Evans was picked up on a Clackamas County warrant charging him with the removal of an auto from a Milwaukie firm where he had been employed.

Warden told United Press International.

Warden urged his followers to "throw away your beating creams, throw away your hair straightener, quit dropping out of school, quit flunking out—and get off welfare."

"If you won't accept the challenge to improve yourself, then admit that you are inferior," he said.

The 27-year-old attorney also was critical of the National Association for the Advancement of Colored People (NAACP) and similar civil rights groups. He called the NAACP a "middleclass organization" which leaves the Negro without a sense of purpose.

He charged that during the Birmingham demonstrations "over \$2 million was wasted—and only three Negroes got jobs out of it."

"It may cost a million dollars to desegregate a lunch counter—and if successful, this will create maybe a dozen jobs," he says.

"The Negro would be smarter to spend that million on a factory which might employ 1,000 Negroes."

This philosophy and Warden's criticism of "moderate" civil rights groups has resulted in strong criticism by some Negro leaders.

Terry Francois, former head of the San Francisco chapter of the NAACP, has blasted the young attorney as "a modern Uncle Tom who should be tarred and feathered."

Warden stressed the need for the majority of Negroes to improve their lot through education and self respect—a void which he said the NAACP and CORE have neglected.

Hearing Under Way On Teacher's Suit

Oregon City—UPI—A hearing was being conducted here today on whether a 64-year-old Oregon City school teacher would be able to teach her final year before retirement.

Mrs. Jewell Joy has been charged with insubordination by the Oregon City school board.

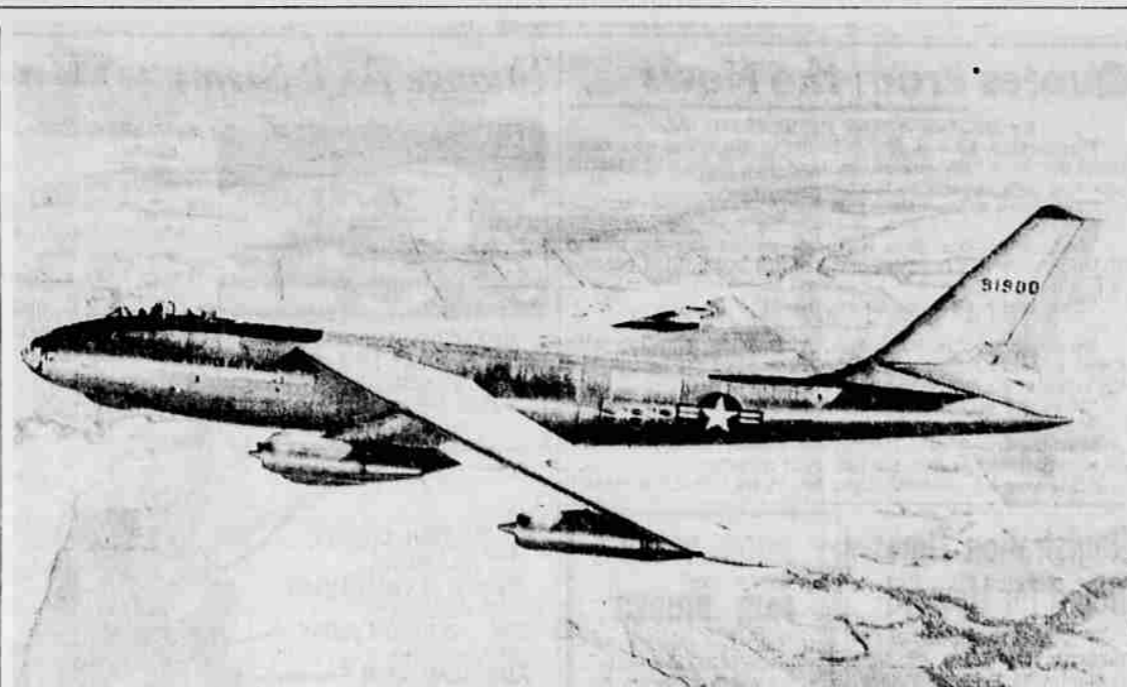

She has taught at the Eastham elementary school for 19 years and has been a teacher since 1923.

Mrs. Joy was charged by attorney Lowell Njust, counsel for the school board, with criticizing Supt. Edwin Ditto, principals and teachers.

Mrs. Joy, through her attorney, James O. Goodwin, denied the 25 charges brought against her in the hearing which started Tuesday.

Goodwin said the board's charges against her, with indications she might not be rehired, were made known to her July 20. He said that if the board were going to fire her she should have been notified March 15, at the end of her three-year contract.

She said teaching the additional year before retirement would increase her teaching retirement benefits from \$100 to \$110 per month.

BOMBERS COLLIDE—Two B-47 jet bombers (similar to type shown here), each with three men aboard, collided Monday and were reported downed near Irwin, Iowa. The two planes were based at Schilling Air Force base at Salina, Kansas. (UPI)

English Peer Wins Back Old Seat in British Commons

London—UPI—Anthony Wedgwood Benn, the first British peer ever to renounce his title, won back his old seat in the House of Commons Tuesday night by swamping three opponents in a by-election at Bristol.

The victory by the 38-year-old "Persistent commoner" had been expected. He will take his seat when Parliament reconvenes in October.

It set the stage for the resumption of a political career in the opposition Labor party that many observers believe holds a brilliant future.

Benn was forced out of the House of Commons after representing Bristol for a decade when his father, Viscount Stansgate, died in November, 1960. By assuming the hereditary title, Benn was forced into the House of Lords which he once termed the "outer Mongolia" of British politics.

Lords is virtually powerless. Led Campaign

But Benn led a campaign for a peerages reform act to permit those who wanted to renounce their titles and run for Commons. Titled persons are forbidden to sit in Commons under British law and tradition.

The reform act passed last month and Benn went on to win election from Bristol by polling 20,313 votes.

Three Independents opposed Benn, but neither the Conservative nor the Liberal parties entered candidates.

Edward Martell, 54, a newspaper publisher, got 4,834 votes; Mrs. Marguerite Lloyd, 49, received 287 ballots and Geoffrey Pearl, 44, registered 44 votes.

Invasion Force Launched at Sea

Seaside—UPI—A 4,000-man "invasion" force launched an amphibious assault against Camp Rilea four miles north of here Tuesday in Operation Cascade Columbia.

Only 12 Navy frogmen made it to shore.

The other troops who left Navy attack transports circled offshore in landing craft for three hours and then returned to the fleet, where fresh troops took their place.

The official communique explained: "Offshore bottom conditions at this location are too dangerous for an actual landing in a peacetime training operation."

District 549C to Use Fairgrounds Field for Baseball

Reports on various meetings were presented to the school board of District 549C last night.

Dr. Leonard B. Mayfield, superintendent, told the board the district plans to use the Jackson county fairgrounds athletic field for baseball and junior varsity football games.

The Jackson county court had asked the district whether it would use the facilities.

The field will be converted for football use, the court reported to Dr. Mayfield. The field is lighted, providing facilities for night games.

Dr. Mayfield noted that the district has been interested in scheduling night baseball games.

The games will be played on the fairgrounds field in order to keep use of the new field at Medford High school to a minimum. Varsity football games will continue to be played at the high school site.

It took two tow trucks to rip Horn's car apart to get his body out, police said.

Springfield Boxer Killed in Accident

Eugene—UPI—Bobby Lee Horn, a fast-rising middleweight boxer from Springfield, was killed when his car slammed into the side of a heavy truck on State Highway 126 near here late Tuesday night.

The accident occurred only four days before the 22-year-old fighter was to have his 19th professional bout.

Horn, who compiled a sparkling 16-1 record in his short career as a pro, was killed instantly. He was alone in his car.

State police said the fighter's vehicle collided with a Northwest Natural Gas Co. service truck at about 11:05 p.m. at an intersection about 500 feet east of the Eugene city limits. Three men in the truck were injured, one critically. The car was demolished and the truck heavily damaged.

It took two tow trucks to rip Horn's car apart to get his body out, police said.

Student in Germany Writes About Activities

James Rowan, son of Mr. and Mrs. James P. Rowan, 828 Minnesota ave., is spending the summer in Gottingen, Germany, under the Americans Abroad program.

In letters he has written to his parents, James commented on the difficulties of the language barrier.

He is living with the Von Buttlar family. Members of family were described by the local student, the father is an avid hunter; Wolf, the son is about six feet tall and Angela, 13, is one of the daughters. The other daughter is Karen-Uta, who recently returned from the U.S.A. and the family drove to Rotterdam, The Netherlands, to meet her.

The home is described by James as being very beautiful. The family owns a forest to the south of Gottingen which has been in the family for more than 400 years. From the house there is a view of the city.

American Breakfast One morning James cooked an American breakfast for the family.

Wolf and James went on a week's bicycle excursion around Gottingen. The two rode about 150 miles visiting castles and eating at youth hostels. James explained that they could sleep at one of the hostels for about 23 cents a night and eat well on \$1.25 a day.

During the trip to Rotterdam James visited with Jens Hasfeldt of Denmark, who lived in Medford with the Rowans as an American Field Service exchange student this last school year.

James described the food as quite good—not much meat—but very fattening.

At Family Estate Following the trip to Rotterdam the family spent the rest of the holidays in Eberberg near Kassel. It is a little village near the forests and Von Buttlar family estate, a meeting place of all the relatives, James explained.

Wolf said that Eberberg "is a mixture of feudalism and youth-hostel."

In July James accompanied Wolf to school, finding their "gymnasium" much like high school in the United States.

Gottingen has a population of about 90,000 and is one of the oldest university-cities in Germany.

James and other students in the Americans Abroad program will return home in time for the opening of school.
