

### Furniture Care Hints Given for Various Surfaces

Your furniture is one of the major investments in living pleasure that you make. And it is the reflection of your taste and your way of life. Proper care can mean the difference between a long and beautiful life for your furniture — or a short and marred one that also means expensive replacements.

According to one of the leading manufacturers of polishes and waxes for the home, you need both cleaner and wax for most furniture finishes. If your furniture is finished with a high gloss and luster, your dusting should be done with a spray wax that cleans as well as polishes. And high gloss furniture should be periodically cleaned with a liquid wax cleaner.

With oil-rubbed or sealed finishes, such as is given most of the new modern furniture, in either light or dark woods, this manufacturer makes a liquid cream polish. It thoroughly cleans and enriches the wood grain without making the finish shiny — it leaves that beautiful soft hand-rubbed glow enriched and subtle.

Some furniture is finished with a medium luster. If this finish is on the slightly shiny side, the spray wax is best for your regular dusting and the liquid wax should be used for periodic cleaning.

If the finish is more dull than shiny, you will need a

#### ONCE IS TOO OFTEN

Clisco Grove, Calif. — Two construction men made a slight error in setting off dynamite for a highway job. The blast showered tons of rock down on eight drills valued at more than \$100,000. The men were freed.

#### EYES ON THE BATTER

Nottingham, England — Five prison inmates taking part in a cricket game escaped Tuesday night by slipping through the outfield fence. Prison guards were watching the batter at the time.

cream polish for best care. To protect the patina of an antique finish, or to help restore a worn finish, this manufacturer recommends the use of a paste wax, applied three or four times yearly. Paste wax will highlight the color and grain of the wood, as well as clean and protect it. For all the plastic, metal and enamel surfaces in your

home, as well as your kitchen equipment such as stoves, refrigerators and freezer, the use of a liquid, concentrated wax cleaner is advised. There is no danger of scratching or dulling these gleaming surfaces with such a cleanser and when used as directed on the bottle, it leaves nothing behind but a hard, dirt-resisting waxen shine.

### New Styles Merit A Slim, Trim Figure

As important as any item in your new wardrobe is your own silhouette. Fall styles follow the figure. Extra weight and stray bulges can spoil a chic appearance. Being able to wear the new fashions with a glamorous air may mean watching your diet and cutting down on fattening foods. If you're overweight, substituting a dietary, such as

### BIGGER BEDS

Bigger beds are due to arrive in many homes this fall. With over-sized bedding easy to come by, more and more people are taking advantage of the comfort offered by the larger king and queen beds.

Metrecal, for weight control, as one or two meals a day, will help pare off unwanted pounds.

### Gloves Add to Coordinated Look

With the coordinated look from head to toe so important to fall's fashion ways, gloves emerge as a vital part of the picture.

Now they not only keep your hands warm and protected, but they add the last touch that unifies the over-all costume. Newest with the tweeds and Sportive costumes that

are so fresh on the scene are the sporty pigskins. They're most right in the neutrals from beige to brown tones, with handstitching and often metallic tabs or buttons to add an even more Sportive look.

More and more, too, one finds discreetly tailored gloves being worn for daytime, gloves stemming from the plain and lady-like classics

but newly spiked with imagination in their tailoring.

These well-bred gloves can borrow many touches from the gentlemen — saddle-stitching, brass or gold-toned cufflinks — even stretch leathers for the ultimate in comfort.

New leathers including the stretch suedes are appearing to add new interest. There are stretch suedes in elegant lengths, there is Saffian, once exclusively the book-binders' leather, there are new leathers

and new treatments of the old stand-by favorites.

No longer will the little "white glove" be an adequate wardrobe for the fashion-conscious woman.

### MORE PLANTERS

Plant stands were once a "must" in every home, but gradually they began to fade from the scene. This fall, plant stands return as a very decorative touch for homes in all styles.
