Election Machinery Thrown Into Gear

Salem -UPB- Machinery for a special election Oct. 15 was thrown into gear Wednesday by Jack Thompson, elections supervisor of the Secretary of State's office.

With the apparent success of the drive to refer the 1963 legislature's tax bill to the people, Thompson began drafting plans for the state-wide election.

He said a voters' pamphlet would have to be prepared and sample ballots mailed out.

A briefing of county clerks is being planned to outline election procedures, and to explain what expenses will be paid by the state. The legislature set aside \$300,000 in anticipation that the referral would succeed and a special election would be called.

like looking for someone who doesn't read newspapers

Very hard to find. 99 million people in almost 9 out of every 10 homes read newspapers. It's the most sought after, often bought, eagerly consumed, intensely depended upon product in the world. The reason is obvious. We can't do without it. The need to know about the news and events that touch and shape our lives is deep, intense, unending. And the need to know is now. Today. So it's not very hard to figure out why more advertising dollars are spent in daily newspapers than in TV, magazines, radio, and outdoor combined.
