Golo presents a new kind of boot, the rain boot. Choose the height to flatter you most in a "raincoat" beige poplin. New developments in fashion, the light weight, smart new boots are designed especially for fall comfort in the rain. The boot shown left above features natural waxed leather with the poplin, while the other with the one-inch heel combines black patent and poplin.

Boots No Longer Novelty, Now Considered Necessity

Last year boots were a style novelty; this year they are a necessity. The reason is not hard to find, according to the National Shoe Institute. Women quickly discovered that boots can be fashionable as well as functional for every hour of the day and evening.

A cherished town-wear boot shape is slim, close to the leg and knee-high, made of glove-soft, crushy leather. In the country and equally cherished, the boot may be of antiqued saddle leather with a natural color canvas top. The toplines of all boots, high, half-high or ankle, are most often angled, notched or curved. If straight, they will likely have collars, folds or bands, plain or furred.

Even for snowy or rainy days there is a wide selection: strapped jodhpur boots; high Newmarket boots of rubber and canvas; calf-hugging boots of water repellent leather, decorated with shawl tongues or heavy lacings. Linings are plushy, soft and warm.

For Day or Night

As for the un-lined or lightly lined boots, this fall they are meant to be worn wherever shoes are worn. For day-

time they appear in richly colored suede, with side buttons and deeply notched at the throat. Instead of suede they may be fashioned of lizard, tweed, twill or a sleek fur such as pony or zebra. After sundown, boots sally forth in brocade, silk, lace, cut velvet or sequined, seductive mesh.

Boots belong with stretch pants for sport or with hostess pajamas for elegance at home. They add a touch of sophistication to a tweed country suit or a velvet costume for the theatre. In any fabric, in every heel height, in show business parlance, boots are "boffo."

Club Resumes Program Series

Ashland - Soroptimists resumed their series of "This Is My Life" programs at the Friday luncheon meeting in the Mark Antony hotel when Mrs. Frances Worth gave her autobiographical resume. The impromptu talks have proved most interesting to the members.

Mrs. Worth, daughter of Charles B. Howard, was born in Oceanside, Calif., but came to Ashland as a child and has lived much of her life here. She spent a year attending school in France and later was hostess for her brother in Washington, D.C., and Riverside, Calif.

Her husband, Charles Worth, an aviator, died in 1950. Since that time she has served in the Ashland public library, with vacations spent in Mexico, Hawaii and other distant lands. Her seven years' residence in San Francisco made her a confirmed Bay Area enthusiast, says the Soroptimist club past president.

Mrs. Worth was introduced by Mrs. Waunita Herndobler, program chairman.

Plans were also made for the annual holiday bazaar to be held at the auditorium on December 7 with a luncheon to precede it.

New Plant Food

St. Paul, Minn. - A new method for fertilizing puts the plant's meal on a stick.

The stick is impregnated with soluble plant foods in an even mix of nitrogen, phosphorus and potassium salts. Each stick retains the active ingredients until released by watering or rain. Merely insert one stick into the soil adjacent to the plant to provide nourishment for a month. The sticks are colored to blend with foliage.
