Mexico Opposes Policies on Cuba

Mexico City (UPI)—President Adolfo Lopez Mateos praised U.S.-Mexican relations Sunday but indicated his government would continue to oppose some of Washington's policies on Cuba.

In a state-of-the-nation speech, Lopez Mateos served notice that Mexico plans no change in its "fully independent policy" of non-intervention in Cuba and landing privileges for Cuban airplanes.

The Mexican route is Cuba's only direct air link with Latin America. The Organization of American States consultative committee on security has charged it is used by subversive Cuban agents.

Lopez Mateos paid tribute to President Kennedy for the peaceful ceding of the disputed Chamizal area to Mexico.
