

Kennedy Defends CIA on Pursuing Independent Policies

Stocks Respond Favorably To Tax Reduction Approval

NEW YORK (UPI) — Stocks raced higher today spurred by the House Ways and Means committee approval of an \$11 billion tax cut and what brokers termed favorable technical conditions.

Wall Street observers got their long awaited "confirmation" of the industrial average in the first hour of trading today when rail averages took to the up-track while the remainder of the market eased. However, the other sections soon joined in the upswing and outpaced the rail gain in a short time.

Steels showed a number of better than average gains. Motors featured Chrysler, Ford and General Motors, all with sizable advances. Pfizer, Spence Chemical and Allied Chemical started in the chemicals, but Virginia-Carolina backed.

Disclosure of Payroll Brings Forth Statement

WASHINGTON (UPI) — President Kennedy said Monday the Central Intelligence Agency coordinates its activities with the Defense and State departments.

The President said it was not true that CIA pursues independent policies which sometimes conflict with other U.S. agencies.

Kennedy said CIA Director John McCone is a member of the National Security Council and attended all of its recent sessions on U.S. policy in South Viet Nam.

Johnson Leaves For Norway Visit

HELSINKI, Finland (UPI) — Vice President Lyndon B. Johnson ended a noisy, hand-shaking tour of Finland today and flew off to arctic Norway, the next stop on his 15,000-mile tour of northern Europe.

The President's statement followed disclosure Sunday that the CIA still has on its payroll South Vietnamese forces which raided Buddhist pagodas. The disclosure prompted fresh demands in the House for tighter congressional control over the CIA.

Johnson's Boeing 707 jetliner left Helsinki for Bodoe, site of a major North Atlantic Treaty Organization base north of the Arctic Circle in Norway. He was to go on to Oslo later today.

A Helsinki airport crowd of more than 1,000 persons — typical of the crowds that cheered Johnson wherever he went during his four days in Finland — waved goodbye to the vice president, his wife Lady Bird and their 19-year-old daughter Lynda Bird.

Pakistan's Association With Communist China Said Harming Efforts To Ease Tensions in Asia

LONDON (UPI) — Pakistan's growing association with Communist China was reported today to be harming British and United States efforts to ease tensions in Asia.

Diplomatic sources said Indian Prime Minister Jawaharlal Nehru has warned British Prime Minister Harold Macmillan that Western efforts to settle the bitter Indo-Pakistani Kashmir dispute are doomed because of Pakistan's attitude toward Red China.

The Indian leader was said to have sent Macmillan and President Kennedy similar letters aimed at discouraging attempted mediation between India and Pakistan on Kashmir.

Sources said the situation tends to increase tension in the already troubled area and complicate plans to help Nehru against Peking.

But despite disappointment at Nehru's stand, the sources said, Britain will "keep trying" to ease the 16-year-old dispute over the former princely state of Kashmir.

Pakistan is a member of two western defense pacts — the Southeast Asia Treaty Organization and the Central Treaty Organization — and in May, 1954, signed a mutual defense assistance treaty with the United States.

But it has registered heavy criticism of British and U.S. military aid to India to help Nehru battle Communist Chinese border attacks.

The Pakistanis claim this will upset the military balance of power and that India will use the arms in defense of the part of Kashmir it now controls.

The Pakistan government recently signed a border demarcation treaty with Communist China covering part of areas it controls on Kashmir, and an airline service agreement.

Some diplomats here believe Nehru's warnings, which apparently came in response to a new Macmillan overture for settlement, were designed to have the West put pressure on Pakistan to halt any further involvement with Peking. The Red Chinese now are India's No. 1 enemy, although Pakistan considers India more of a threat to its security than Red China.

A Fresno, Calif., truck lost its load of cucumbers as it went over a bank when the brakes of the truck failed on Highway 99 in the Siskiyou yesterday, state police said.

The driver, Arthur George VanDermeer, 29, is being treated for cuts and bruises as Ashland Community hospital, and is in fair condition, attendants reported.

The truck, registered to Five Palms Trucking company, Fresno, rounded a curve when the driver observed construction equipment in the road. The brakes failed and the driver headed the truck for a bank to miss the construction crew.

JFK Opposed To Aid Reduction in South Viet Nam

WASHINGTON (UPI)—President Kennedy is opposed to any reduction in U.S. aid to strife-torn South Viet Nam despite United States differences with the Diem government. He says such action would only aid the Communists.

But the Chief Executive admitted Monday night he was concerned about a "deterioration" in the war against the Communist-backed Viet Cong guerrillas in Viet Nam, particularly in the Saigon area. He made it clear the "deterioration" he referred to was caused by the Ngo Dinh Diem government's conflict with the Buddhists.

The President was interviewed by newscasters David Brinkley and Chet Huntley for the first of their expanded 30-minute nightly news shows on the National Broadcasting Co. network.

It was Kennedy's second major policy statement by television within a week. Last Monday he said on a Columbia Broadcasting System program that the Vietnamese government should try to win back popular support, and maybe some changes were needed.

Kennedy said he also was concerned that Americans would get impatient and demand U.S. withdrawal from the area because they do not like events in Southeast Asia or the Saigon government. Any such action would only help the Communists, he said, adding that "we must be patient, we must persist."

Venezuela Quints Growing Stronger
MARACAIBO, Venezuela (UPI) — The quintuplets born here Saturday were reported growing stronger by the hour today, although they all have lost some weight.

Robinson, Fernando, Otto, Juan Jose and Mario Prieto, born two months prematurely to a 34-year-old grandmother, were being fed with eyedroppers by nurses using sterile rubber gloves built into the babies' incubators.

Today, the babies get their first bath — a gentle once-over with alcohol — soaked cotton.

Dr. Regulo Pachans Anez, the pediatrician attending the 3-day-old quint, said each of them has lost at least 3½ ounces in weight since birth.

College Tuition Fees May Be Upped

SALEM (UPI) — The Board of Higher Education today voted to increase entrance requirements and tuition fees if the 1963 legislature's tax increase measure is defeated Oct. 15.

Under the new requirements, students would have to have better than a "C" average to get into state supported colleges and universities next fall if the tax measure fails.

The board also increased resident tuition from \$330 to \$445 and out-of-state tuition from \$900 to \$1,215 in case the tax is rejected.

The board also announced it would cut back on planned building projects, repair programs and other special services.

Rogers called this "another indication of the need for a joint committee to oversee CIA and its intelligence activities." He said there is rising support in Congress for such a move. Anderson said he agreed.
