Status of Congressional Bills

WASHINGTON (UPI)—Status of major legislation:

Income Taxes — The administration recommended net reductions of \$10.6 billion in income taxes on individual and corporations with cuts fully effective on 1965 incomes and partly effective on 1964 income. House—Ways and Means committee has approved this time-table and approved cuts of \$11.1 billion. Senate—awaiting House action.

Stocks and Bond Taxes—To retard flow of American capital abroad, Kennedy has proposed taxes to be levied on Americans who buy foreign stocks and bonds from foreigners. House—Ways and Means committee concluded hearings. Senate—awaiting House action.

Military pay — Administration asked \$1.2 billion annual pay and benefit boost for servicemen, reservists and retirees. House and Senate have passed modified and differing versions. Compromise between the two measures expected to be worked out in House-Senate conference.

House — Judiciary subcommittee resumes closed-door consideration today. Senate — Judiciary subcommittee approved four-year extension of Civil Rights commission.

Public accommodations — Kennedy's main request in his second rights message was for legislation outlawing segregation in use of hotels, stores, restaurants, theaters and other public accommodations and interstate commerce. He also asked for new authority to initiate school desegregation suits and optional authority to withhold federal aid to states that practice racial discrimination. House — Judiciary subcommittee resumes closed-door consideration today. Senate — Commerce committee hearings under way on full civil rights package.

Employment — Kennedy endorsed Fair Employment Practices commission legislation to bar job discrimination by private businesses and labor unions. House — Labor committee has approved FEPC. Senate — Labor subcommittee hearings completed.

Cotton — Administration backed subsidy plan would provide cheaper cotton for U.S. textile mills; includes lower support prices for large-scale growers and potential relaxation of planting restrictions. House — bill approved by agriculture committee, cleared by rules committee, but not scheduled for floor action. Senate — hearings completed.

Mexican Farm Hands — 12-year-old law permitting importation of Mexicans for temporary work on American farms expires Dec. 31; administration requested one-year extension with new safeguards to protect domestic workers. Senate — passed one-year extension with safeguards. House — bill to extend program two years defeated on House floor, agriculture committee has approved simple one-year extension without safeguard amendments.

Depressed Areas — Kennedy asked Congress to expand sharply program of federal re-development aid to local industries designed to create jobs in areas of chronically high unemployment. Senate — approved additional \$455 million authorization. House — rejected, but banking committee has approved a "second-try" \$355 million bill.

Price-cutting — Administration-opposed bill backed by drug-giants and some other retail groups is designed to stop retail price-cutting of brand-name merchandise. House — commerce committee approved, pending in rules committee. Senate — commerce subcommittee resumes hearings this week. Laws Enacted:

Draft — Congress granted Kennedy's request for four-year extension of Selective Service and draft.

Feed Grains — Congress extended for two years temporary program of paying farmers to hold down surplus production of corn and other feed grains.

Silver — To combat shortage of silver for coins, Congress gave administration authority it requested to replace existing silver-backed \$1 bills with gold-backed \$1 bills.

Women Workers — Starting next June employers must provide equal pay for women workers who do the same work as men; new law applies to jobs covered by minimum wage-hour law.

Taxes — Congress in response to administration request extended for another year present temporary tax rates on corporation profits, liquor, cigarettes, automobiles, telephone calls and airline tickets which had been scheduled to drop to lower levels July 1. (Corporation tax rates would be permanently revised downward, if Kennedy's tax-reduction program is enacted.)

National Debt Limit — Congress granted President's request to extend through Nov. 30 temporary ceiling of \$309 billion on national debt. Ceiling would have reverted to \$235 billion Sept. 1 without the new legislation. Current debt about \$20 billion above that figure.

Rail Dispute — Congress authorized creation of seven-man board to arbitrate two key work rules issues, thus averting nationwide strike. Award to remain in effect for two years, other issues not subject to arbitration but strike over them barred for at least 180 days.
