Agreement Reached On Sewer Project
TALENT—The city of Talent and the South Talent Sanitary district last night agreed to participate jointly in a \$60,000 construction project to expand the facilities of the city's sewage treatment plant.

The agreement is contingent, however, on approval of a bond issue by the voters in the South Talent district, which proposes to construct a sewer system to serve the district.

The South Talent system would use the city's disposal facilities. A contractual agreement between the city and the district will now be drawn up. It was agreed tentatively last night that the city would retain control over the operation of the disposal plant.

A federal grant is expected to cover 30 per cent of the cost involved. The two parties would split the remaining cost.
