The Mystery of Capistrano Still Baffles Ornithologists

There are some bird species that are surprisingly accurate in the regularity of their migratory habits. An outstanding variety is the swallow. The yearly movement of these birds is seemingly always on schedule and has caused much conjecture, amazement, and of course some contradiction.

These birds, usually in huge flocks, leave their northern nesting grounds in the fall for winter vacations. There is visible proof of this every year, but some deny the coming and going is according to plan or at any predictable time.

The arrival and departure of the swallows at the old mission known as Capistrano has intrigued the imagination of nearly all people that read newspapers for many years. In the beginning, it was more of a legend, but careful records kept over a long period of time seems to prove these birds left on a certain date each fall and arrived on a prescribed day the following spring.

They accomplish this without the aid of a calendar or a clock. These swift flying creatures left and returned with disconcerting regularity.

Carefully Observed

The swallows of this old mission have been carefully observed, and the watchers readily admit that here is an example of animal behavior that is confusingly cluttered up with loose ends. Many of these loose ends have an obvious and well known attachment to the main body of the migratory mystery. Students of bird actions have felt pretty sure that migration is triggered by a falling food supply, weather conditions, prevailing winds that might cause them to move away from such a disturbance, falling light, or any of several other theories. But the departure of a group of birds on a certain day each year throws a "feathered monkey wrench" into the machinery and we come up with more questions.

DEMONSTRATOR REMOVED—A girl demonstrator is removed from the House Office building in Washington, D.C., Friday after a disturbance during a hearing of the House Un-American Activities committee investigating the students who visited Cuba illegally. The policeman is trying to prevent the girl from biting him. (UPI)

Reclamation Plans Will Be Discussed

Bureau of reclamation plans involving the proposed Rogue basin project and specifically the Sams Valley Irrigation district will be discussed by bureau officials at a special meeting in the Sams Valley Grange hall at 8 p.m. Wednesday, Sept. 18.

Robert Butte, chief of the engineering division, Vernon Lawrence, chief of the land classification division, and John F. Mangan, area engineer from the bureau's Salem office, will talk to future irrigation district water users.

"Bureau data on plans of development are yet preliminary," Mangan wrote George Lofan, route 2, Central Point. Lofan is one of the irrigation district directors.

"Final cost figures will not be available for some time, but we will, I am sure, be able to outline our plans for irrigating some 12,000 acres in the Sams Valley area from storage on Rogue river in the U.S. Army Corps of Engineers proposed Elk creek reservoir," he wrote.

"We will be prepared to explain the steps to complete our report and the steps ahead of the district before this project becomes an operating reality," he said.

Court Records

Norman LeRoy Hepper, no chauffeur's license, \$5.

CIRCUIT COURT

Shari Annette Malone vs. James Larry Malone, divorce complaint.

LEGAL NOTICES

NATIONAL FOREST TIMBER FOR SALE

Minnehaha Blowdown

Oral auction bids will be received by the Forest Supervisor or his authorized representative at the office of the Forest Supervisor, Post Office Building, Medford, Oregon, beginning at 10:00 A.M. P.D.T. September 26, 1963, for all merchantable timber marked or designated for cutting on an area embracing 1185 acres, more or less, within Section 21, T. 28 S., R. 4 E., Sections 35 and 36, T. 28 S., R. 4 E., W.M., unreserved Section 8, T. 29 S., R. 4 E., Sections 2, 3, 10, and 11, T. 29 S., R. 4 E., W.M., surveyed in the Rogue River National Forest, Douglas County, Oregon. The estimated volumes are: 150 M board feet of Douglas-fir; 250 M board feet of western white pine, ponderosa pine and sugar pine; 160 M board feet of Shasta red fir; 430 M board feet of white fir and other species. The minimum acceptable bid per M board feet is as follows: Douglas-fir, \$22.00; western white pine, ponderosa pine, and sugar pine, \$11.35; Shasta red fir, \$10.00; white fir and other species \$7.65. This includes the following rates, per M board feet for stumpage including dependent area betterment: \$23.60 base rate plus an additional \$1.35 for Douglas-fir; \$12.00 base rate plus an additional \$3.85 for western white pine, ponderosa pine and sugar pine; \$5.40 base rate plus an additional \$1.20 for white fir and other species and \$1.00 for slash disposal for all species. In addition there is within the sale an unestimated volume of Douglas-fir logs and peeler blocks, unmerchantable because of defect, which the bidder may agree to remove at \$0.30 per board foot, gross scale. The prices bid for stumpage shall be considered as tentative rates subject to quarterly calendar adjustment upward or downward by 0.5% of the difference between the average of the monthly Douglas-fir Region Index as calculated by the Forest Service or the Western Pine Association Lumber Price Index, whichever is higher, for three consecutive months and the following base indices: Douglas-fir \$3.09(A); western white pine, ponderosa pine and sugar pine \$1.98(B); Shasta red fir \$8.76(B); white fir and other species \$5.09(A). Such adjustments in the price for stumpage shall be applicable to timber scaled during the three-month period following the quarter for which the adjustment is computed. In no event, however, shall the payment rates for each quarter be less than the base rates as stated above. When the adjusted rates by species are lower than the base rates, the difference between the total dollar value of the timber cut at adjusted rates and at base rates will be recorded for each species. The stumpage rates for any species will not be increased above the base rate until the subsequent adjusted rates above the base rates develop an accumulated total dollar value in excess of the recorded accumulated difference for all species. Sealed bids will be publicly opened and posted, at the office of the Forest Supervisor, Medford, Oregon, at 10:00 A.M. P.D.T., on September 26, 1963. All those who submitted a satisfactory scaled bid will be permitted immediately to continue auction bidding. A money order, bank draft, cashier's or certified check in the sum of \$1,400.00 must accompany each bid, to be applied to the purchase price, refunded, or retained for application to any claim for damages, according to the conditions of sale. If requested by the purchaser, contract terms will permit felling of timber in advance of payment up to the value of the performance bond. If an oral bid is declared to be high at the closing of the auction, the bidder must immediately confirm the oral bid by submitting it in writing on a Forest Service bid form. The right to reject any and all bids is reserved. Forest Service bid forms for use in submitting sealed bids and full information concerning the timber, the conditions of sale and the submission of bids should be obtained from the District Ranger, Union Creek Ranger Station, Prospect, Oregon, or the Forest Supervisor, Medford, Oregon, before bids are submitted.

Newspaper Advertising Hits the Mark with a Large and Constant Audience

There's nothing hit-or-miss about the newspaper audience—it's a constant audience that varies little throughout the year. That's because newspaper circulation remains constant with little variation from month to month. There is no summer slump in newspaper reading habits. Furthermore, readers can pick their own time—day or night—to enjoy the paper. And they do—over 107,000,000 of them every day in the U. S. For sure-fire results, advertise consistently in the daily newspaper.
