McPHERSON WAS driving his girl past a popcorn center one hot summer night when they passed a shopping stand. "Yummy," said the girl. "That popcorn sure smells good."
"Wait a minute," said McPherSON generously, "and I'll drive up closer so you can get a better whiff of it."
Gene Raeburn wonders if you've heard the one about the lady who had water on the knee. She got rid of it by wearing pumps.
And it must have been her father who suffered water on the brain. One blizzard night he fell asleep and the water froze.
When he woke up, he couldn't remember a thing. Everything had slipped his mind.
A Missouri editor divides America today into three groups: the small group who make things change; the larger group who watch things change; and the frightening multitude who don't know that anything is changing at all.

National Forest Timber Cut Sets Record in 1963

WASHINGTON (UPI) — Secretary of Agriculture Orville L. Freeman says a record 10 billion board feet of timber was cut in the national forests during fiscal 1963.
Freeman said the timber harvested had a total value of \$134.4 million. The harvest was one billion board feet over the preceding year, and 600 million board feet over the previous record harvest of 9.4 billion in 1960.
The volume of timber sold in fiscal 1963 came to 12.2 billion board feet. This was 1.9 billion board feet over the 1962 sales. It included, in addition to the 1963 production, sales also included some timber on hand.
"This record surpasses the goals we set for fiscal year 1963 to harvest 9.7 billion and sell 11.8 billion board feet of timber, for which Congress last year appropriated funds," Freeman said. "Last year when I met with representatives of the Western Timber Industry, I assured them that high priority would be given to bringing timber sale offerings up to an acceptable level. I consider this an accomplished fact."

Boy Hospitalized After Accident

Monty Lynn Price, 13, of 4671 Table Rock rd., was hospitalized at Rogue Valley hospital Sunday afternoon suffering from a broken left arm following an automobile accident at the intersection of Hamrick and Head rds.

According to Oregon state police, Price was a passenger in a car operated by his father, Morton Elyven Price, 32, which was hit by a pump truck owned by the Central Point Rural Fire district. The fired truck, en route from the White City station to a fire on Old Stage rd., skidded as it turned from Hamrick rd. onto Head rd., hitting the east-bound Price vehicle. Operator of the truck was Maynard Winfred Hadley, 32, of 587 Beall lane.

The accident occurred about 1 p.m. Both vehicles were extensively damaged, according to officers.
Rural firemen said that, so far as can be determined, something mechanically went wrong with the truck, causing the wheels to lock.

About 57 per cent of approximately 914 billion board feet of saw lumber in the U.S. is privately owned.
