

Tablets

By R. E. NEALON

Mail Tribune Table Rock Correspondent

Henry and Betty Shahnis were here Tuesday from their hillside home where the coyotes roam in the Sams Valley area. The way Henry talks we believe he is about ready to join the club of retired husbands with industrious wives.

The following from Senator Maurine Neuberger's recent newsletter has some bearing on the race question, and reminds some Oregonians of what the Oregon law says about discrimination:

"A dignified, well-dressed gentleman stood quietly next to the cash register in an Oregon roadside restaurant. When the waitress noticed him she asked if he could do something for him.

"Do you serve colored people here?" The waitress retorted. "Why not? Will you serve me and my family here, please?" came the low voice. "Why sure," was the surprised answer. The man went to his car which bore Texas plates and returned with a Negro woman and a child. They sat in a booth and ate their dinner quietly.

"Did the waitress know that Oregon law prevents discrimination? Probably not. We would rather think that she just believed that all people get hungry on the road and it is her job to serve them."—From the Eugene Register-Guard.

The criticism of the M.T. editorials we hear over the air reminds us of something similar sometime ago when Bob Ruhl wrote the editorials. We asked him one day if these attacks got under his skin. He chuckled and said "No, that shows they read the paper and that's what we publish it for." He came out for common sense and law and order and kept at it when it looked as if radicals, and crooks were about to cause the county to go into a tail spin. That is how he won the Pulitzer award. We have been connected with the M.T. for nearly 50 years, and the story that correspondents are not allowed to express their own opinions is pure hogwash.

Frank Myers is nursing a sore right hand with the trigger finger missing, owing to an accident last Saturday morning while setting his gopher gun in a rat hole. The gun which is loaded with a 16 gauge shotgun shell came into contact with some object that jarred the trigger, causing the gun to fire, blowing off one finger and injuring another.

Mrs. Maude Boswell, whose picture appeared in Wednesday's M.T. taught the Table Rock School back in the ninties. At that time she was Miss Maude Downing, and the family lived in Central Point.

Since taxes seem to be the main order of the day, we submit the following clipping. We understand it was written by a person who left Oregon because it had no sales tax, and thought since California had a sales tax, taxes would be lower.

"To the Editor: You lucky, lucky people who live in Oregon. You certainly are fortunate you don't live in California or Washington, where they really have high taxes. In Los Angeles city and county, and in San Francisco, you pay 6 per cent to 8 per cent sales tax on everything you buy, including food, clothing and shelter. In case some misinformed soul says it is only 3 per cent I'll tell you that you pay a penny on 15 cents spent and 2 cents on every quarter spent. Figure it out for yourself. Also, they have a very high property and income tax. An organization known as CCH or Commerce Clearing House makes a study of and reports on all phases of all taxes in the United States. There is no higher authority on matters of taxation.

"Now CCH says Washington state collects more per capita tax than any other state in the Union, with California not far behind. Oregon collects about half as much as Washington and California.

"I have just returned from a trip to Oakland and Los Angeles, and find that their prices are 25 per cent to 30 per cent higher than prices for most things in Oregon."

Thought for the day—

An ounce of prevention is worth more than a pound of cure.

Friday The 13th Was Unlucky For Some In Prospect

PROSPECT—Friday, Sept. 13 was an unlucky day for a number of residents of the Prospect area.

Some blamed the weather, because Prospect had a deluge of rain that day and the pavement on highways was slick.

Mrs. Harry Huntsley was driving along in her small foreign car when it went into a slide, hit an embankment and overturned. There was extensive damage.

Bud Maxwell, distributor for Standard Oil in the Prospect area, recently purchased a new truck. As he was approaching the bridge across the Rogue river near here he touched his brakes, which caused the truck to slip and go into an embankment. The truck, full of gasoline, turned over but fortunately did not catch fire. Maxwell escaped with a few bruises.

Another unlucky driver was Louis Lacy of Shady Cove, who was driving a logging truck when the steering apparatus went out. As a result he could not control the truck, and it went into some trees. The truck was completely demolished. Lacy received a few cuts and bruises.

Informal Reception Held By Tiller PTA For School Teachers

TILLER-DREW — A potluck dinner served as an informal reception for the Tiller school teachers last week preceding the business meeting of the PTA.

Two major projects for the coming year were discussed. They were buying either a back-drop for the stage or suits for the basketball boys. After much discussion, a final decision was tabled until the next meeting.

The next meeting will be Tuesday, Oct. 1, at the Tiller school auditorium.

Regional Calendar

SHADY COVE — Saturday, 8 p.m., regular meeting of Shady Cove grange, at school auditorium.

EAGLE POINT — Monday, 7 p.m., organizational meeting for the junior drum and bugle corps, sponsored by Eagle Point Jayceettes. All interested persons invited. Musical background not necessary as there will also be a marching unit.

LIFELONG HOBBY—S. Sgt. Harry Lowe, ret., of Talent, displays the "Gool" model airplane, part of his large collection of model planes and trophies he has won in connection with his hobby.

Building Large Model Planes Is Talent Man's Hobby

By ALICE BURNETTE

Mail Tribune Correspondent
TALENT—How many parents realize when they watch a son fly small model airplanes that he may some day grow up to have a hobby that involves building a plane 68 inches long with a wing span of nine feet?

And how many realize that such a hobby could bring the builder of such models national and international trophies and honors?

Such is the case with S. Sgt. Harry Lowe, ret., of 105 South Second st., who began with a childhood hobby and developed it into an adulthood interest.

Prized Possession
One of Lowe's prized possessions today is a plane called the "Gool," built from plans for the largest model plane ever marketed.

It flies beautifully but very slowly, like an old army transport, according to Lowe. The model cost \$75 to build not including the cost of the engine to lift it.

Lowe also has several small streamlined models, which practically shoot up into the air. These are motor jobs. He also specializes in model gliders, which depend on thermals to keep them aloft.

Enters Meet
Lowe received many trophies while in the service, including three at the TAC Model Airplane meet held at Langley AFB June 28 through July 2, 1960. He took first place in the A-1 and A-2 combined glider classes, second place in class "A" free flight and also a second in class "B" free flight, which assured him a berth on the six-member squad selected to represent TAC in the Air Force world-wide meet at James Connally AFB, Texas on July 15-19, 1960.

He entered his first tough competition in 1955 when he won third place in the United States Air Force Model airplane meet while stationed in England.

In 1956, he came in first in both the class "A" and class "B" United Kingdom competition. In the same year, he entered the USAFE in Germany meet to take first place honors in the class "B" contest.

More Honors
After his reassignment in the states, at Biggs AFB, Texas, the model enthusiast won first in the Air Defense Command class "A" meet at Ft. Bliss, Texas.

In 1958, Lowe continued to win as he again captured first place honors in the Nordic A-1 and A-2 combination at Biggs, AFB, and took first place honors in the class "A" free flight at the 15th Air Force meet.

Shortly afterward, Lowe came out first in the Nordic A-1 and A-2 combination and won another first place in the class "B" free flight of the SAC elimination meet. This qualified him to compete in the United States Air Force World Wide meet at Norton AFB, Calif. In this contest he won the top honors in the Nordic A-1 and A-2 combination and fifth place in the class "B" free flight match.

The next year, he again entered the SAC tournament at Biggs AFB to take second place among the contestants in the A-1 and A-2 competition.

Longest Flight
His longest flight recorded was one hour and 15 minutes while at Biggs. He lost one Nordic Glider in the clouds after it had been up 34 minutes.

Lowe adopted model airplane building as a hobby in 1925, when models were practically a mystery and very few of them actually flew.

He has since built many models from plans. This is a complicated job and takes hours and sometimes weeks of his spare time. He has a large collection of model airplane motors, which he tears down and rebuilds.

Exploratory Work At Box Canyon Starts This Week

YREKA — Senator Randolph Collier announced today that exploratory drilling to check the geological suitability of Box Canyon on the Sacramento River as a dam site will be begun this week by the State Department of Water Resources.

The work in Box Canyon in Siskiyou county, downstream from Mount Shasta City, is part of a feasibility study authorized by the legislature at the recent session.

Senator Collier said he has been informed by William E. Warne, State Director of Water Resources, that the drilling will be done at the proposed dam site about 1,000 feet downstream from the mouth of Box Canyon.

"The operations will extend about a quarter mile along the canyon in an area where there are precipitous walls," Senator Collier said. "The work may cause falling rocks and generally hazardous conditions for anyone entering the canyon at streambed level."

"Warning signs will be posted and we ask that unauthorized persons stay out of the danger area until the work has been completed by the end of the year."

Committees Named By Board Of Eagle Point Scout Building

EAGLE POINT—The governing board of the Eagle Point Scout Community building held its semi-annual meeting Wednesday with Chairman Harry Hanscom presiding.

A committee was appointed to set permanent rates based on expenses of the past fiscal year. This committee is composed of the members of the executive committee, the governing board chairman and secretary, and appointees Ed Kimmel and Mrs. Dave Kahl.

Mrs. Dave Kahl resigned her position as calendar custodian, which she has held since completion of the building. Mrs. Elmer Harnish was elected in her place and has requested that all organizations using the building regularly verify their meeting times with her to insure against conflicts.

The Garden club has funds available for landscaping around the building. The Lions club and FFA have offered to help with labor on this project. Since the park project has been temporarily abandoned, a portion of the park fund will be used for surfacing the driveway just outside the building.

Mrs. Ed Kimmel was appointed chairman of the park committee which will include Ted Hoffman and Mrs. Laura McFall of the city park commission, Keith Krambeal, and a Lions club representative.

Following a recommendation of the executive committee, the

chairman and secretary of the governing board will attend all executive committee meetings, acting in an advisory capacity.

Harry Hanscom was reelected as chairman of the governing board. Mrs. Dave Hannaford was elected secretary, and Harold Hanscom was elected as vice chairman.

Executive committee members elected were Mayor S. W. Callaghan, chairman; Ted Hoffman, City of Eagle Point; Doris Jackson, Garden club; Mrs. Elmer Harnish, Home Extension; Harry Hanscom, Boy Scouts; W. E. Davies, Grange; Addis Short, Camp Fire Girls; and Keith Krambeal, Desert Pegasus 4-H horse club.

Events for the day will be Clover Leaf Barrel for intermediates and seniors, Texas Barrel for novice and juniors, Pole Bending, Figure 8 Stake, Scurry, and Keyhole. Vic Stewart will judge.

The annual game day in association with the 4-H horse program will be held Sunday, Sept. 22 at the Jackson County Fairgrounds at 1 p.m. Judges will be available for those members who wish to take their 3rd step in 4-H horsemanship.

Events for the day will be Clover Leaf Barrel for intermediates and seniors, Texas Barrel for novice and juniors, Pole Bending, Figure 8 Stake, Scurry, and Keyhole. Vic Stewart will judge.
