

**Does a boot have to be heavy to be strong? Not any more.**

It's easy enough to show you how light these brand-new Wolverine boots are. All you have to do is try a pair on. But it's going to take a whole lot of wearing to show you how long they last, no matter how you use them.

You see, the cushion crepe soles are a specially compounded Rhino-skin neoprene—wear-resistant, oil-resistant and non-slip. And the uppers are triple-tanned leathers that dry soft even after soaking, while the stitching is rip-proof nylon.

You can get Wolverines in a variety of styles and colors, including oxfords, Wellingtons and 6- or 8-inch boots. And you should.
