Faber Attends Plant Dedication

Jackson County Commissioner Don Faber attended the dedication of the Hanford Atomic Energy Reactor at Hanford, Wash., Friday, stopping off there en route to Canada, at the invitation of Charles S. Collins, director of the California-Oregon Recreational and Development association. Collins was unable to attend the ceremonies which President Kennedy included in his western trip.

Faber also carried a letter of introduction to Eric Noe, superintendent of Manufacturers Concern of Oxford, Ohio, supplier of atomic solid fuels for the reactor. The letter was given him by Maj. M. J. Hopkins, retired, of Rogue Valley Manor. Major Hopkins is the father-in-law of Noe.

Major Hopkins is known in the west as the one remaining member of the U. S. Corps of Engineers responsible for the location of Grand Coulee dam.

Recalling his four years spent on the project, Major Hopkins said his chief role was as geologist with the exploration and survey made on the feasibility of locating the high dam on the Columbia river.

The 30th anniversary celebration of Grand Coulee dam, originally scheduled for Sept. 30, has been postponed until Oct. 12 and 13, according to Elmer Tombrey, chairman of the coordinating committee.

Local Committee Named to Assist Selecting School

Appointment of a committee to assist in the selection of the recipient of $3,000 worth of visual communications equipment being awarded a Medford area school was announced today by Charles W. Hill, Modern Office Systems company, 1309 Court st., Medford.

Named to the committee were Alf B. Mekvold, superintendent of Jackson county schools; Tom W. Calkins, superintendent of Josephine county schools; Dr. William A. Sampson, professor of education, Southern Oregon college, and State Representative Edward Branchfield.

The school will receive an individual "package" worth $3,000 as part of a nationwide Assistance Grant to Education Program sponsored by the 3M company, St. Paul, Minn.

To Encourage Teaching

Five hundred schools in the nation will receive similar equipment packages under the $1.5 million program designed to encourage creative teaching.

Modern Office Systems company, local 3M distributor, is administering the program locally.

Each $3,000 award consists of two transparency makers, 11 overhead projectors, and transparency film and copy paper for use in the classroom.

The committee will screen proposals for the grants submitted by local principals and administrators describing their techniques for employing visual aids in the classroom. The proposals they select will be submitted no later than Nov. 15 to a National Selection committee of prominent educators which will decide on final selections in December. All public, private and parochial schools of all levels are eligible for a 3M grant.

Check Seminar Planned in City

A two-day seminar on how to avoid accepting bad checks has been arranged for Medford merchants and their employees. It will be held Nov. 20 and 21 in the Jackson county courthouse auditorium.

The seminar has been scheduled by law enforcement agencies of Jackson county in cooperation with the district attorney's office, the Federal Bureau of Investigation and the Oregon State Bureau of Identification and Investigation.

Medford employers and managers will be invited to attend the Nov. 20 session, which is scheduled for 1:30 to 4:30 p.m. Their employees will be urged to attend the Nov. 21 session, which is slated for 9 a.m. to noon and from 7 to 10 p.m.

Seminar members will suggest precautions that should be taken in cashing checks for customers and police procedures in handling bad check cases.

A two-day school on sex deviate cases has been scheduled for members of the city police department Oct. 22 and 23.

Topics to be dicussed include sex crime definition, laboratory techniques in sex crimes and investigative techniques in sex crimes. The class will be held at the Hubert Santo Reserve Center, 701 North Columbus ave.

Ashland Man Hurt In One-Car Mishap

Gary Richardson Smith, 28, of 457 Fordyce st., Ashland, was slightly injured when his car left a curve at Clover lane and the Green Springs highway early this morning.

The Smith car crossed the intersection, went into a deep ditch and rolled over. The driver was thrown out of the car, and suffered facial and head cuts, police said. He was treated and released at the Ashland Community hospital.

Pickup trucks driven by Raymond Sears Fish, 66, of 1396 Old Stage rd., Medford, and Lowell James Thompson, 45, of 452 Table Rock rd., Central Point, collided on Table Rock rd. near Orr dr.

The Fish pickup truck was overtaking, and passing the Thompson vehicle when the Thompson truck made a left turn into a private driveway, police reported.

Light Bulb Sale Is Slated Tonight

"Tonight is the night to turn on the light," Lions clubs of this area stated in a reminder issued today of their drive to help the sight and blind work of their chapters.

The club will sell light bulbs to finance this work and ask that residents of the Rogue valley turn on their porch lights to signify their willingness to support the drive.

The Crater Lions club of Medford has invited the Medford Lions club to join in this campaign tonight and Wednesday night in an effort to call on every home in the city. Sale hours will be from 6:30 p.m. to 8:30 p.m.

Similar sales are being conducted by Lions clubs in Ashland tonight and tomorrow night, in Talent Oct. 4 and 5; in Phoenix Oct. 2 and 3, and in the Gold Hill and Central Point areas Oct. 3.

Couple Sought for Detention Home

The Jackson county juvenile detention home is looking for a couple to act as night relief supervisors, County Juvenile Director Lawrence Tweedy said this morning.

A couple would be more adequate than a man, he indicated.

The Jackson County Juvenile Advisory council last night sent a letter to the county court confirming that the detention home has been without a night relief couple for sometime now, Tweedy said.

Tweedy has asked for an emergency county allocation of $3,800 to hire a night relief man for the detention home. This would allow a $400 monthly salary for nine months or for the remainder of the present fiscal year.

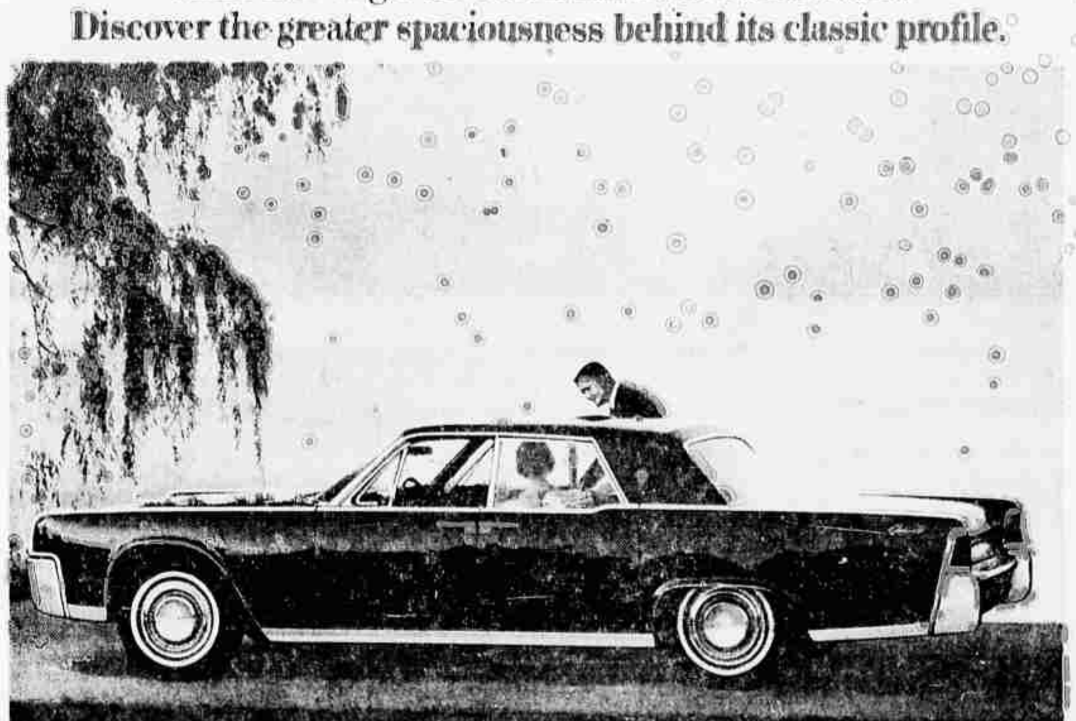
First showings: the 1964 Lincoln Continental.
Discover the greater spaciousness behind its classic profile.



When you inspect the new Continental you will discover why more than half the people who buy in our price range choose the Continental.

Notice the greater passenger room.

Come in and inspect the new Continental yourself. Its profile is only three inches longer than in 1961-2-3. Yet you will find a roomier rear compartment, with four inches more leg room and 2.5 inches more knee room than in 1963. This makes for twice the knee room of the 1961 and 1962 Continental. And the luggage compartment is 15% larger, for a total increase of 33% over 1961-2.

But with all this added space, the Continental retains all the qualities that set it apart from every other automobile.
1. Timeless styling is a prime reason the Continental retains so high a value.
2. The Continental is available in two models: the sedan and the convertible. There are no lower priced models, because there is no compromise of the standards to offer lower versions.
3. Both the sedan and the convertible have four doors opening at the center for the easiest entrance. Continental offers the only American four-door convertible.
4. The unusual rigidity of integral construction contributes to its unequaled ride.
5. Within, virtually every luxury is included as standard equipment.
6. The Continental also includes full power auxiliaries as standard equipment.
7. The Continental is built at Wixom, Michigan, in a special plant which sets the world's highest standards of precision automotive engineering.
8. No other car is as thoroughly tested. Every Continental must pass 189 road performance tests in addition to thousands of examinations and inspections during manufacture.
9. The Continental is uniquely free from maintenance. It is constructed to last.
Before you decide on your next automobile, drive the Continental. It is the world's finest automobile. Please call us and we will be happy to arrange a demonstration at your convenience.
