

**BEARD BRINGS SUSPENSION**—Paul S. Finot, 40, has been suspended from his classroom teaching job and reassigned to tutoring classes after he attempted to start the semester at Pasadena, Calif., while sporting a beard. Finot's principal said his effectiveness in the classroom would be impaired if he insisted on wearing the beard. Finot said he would fight the matter through the courts, if necessary. (UPI)

**Victims of Heart Disease May Soon Respond To Surgery**

ROME (UPI)—Victims of heart disease may soon respond to surgery as successfully and frequently as victims of appendicitis, a surgeon said today. The forecast by Dr. S. A. Wesolowski of Brooklyn, N.Y., summed up the week-long International Surgeons' Society congress which ended today. More than 2,000 doctors from 45 nations attended the congress. The doctors heard several hundred reports, watched live operations on closed circuit television and had an audience with Pope Paul VI.

Three American doctors reported on an operation in which they unblocked the inner linings of the coronary artery walls much as a plumber would clear pipes. Advances made in the coronary endarterectomy, as the operation is called, may eventually help about 25 per cent of persons suffering coronary artery disease, a major heart ailment.

Other American doctors reported on ways of temporarily supporting circulation in heart attack victims. Still others spoke on reconstruction of arteries.

**Cut in Mortality**  
The picture, as one doctor put it, was for a drastic cut in the future mortality rate of heart patients through surgical intervention.

Dr. Wesolowski, of the State University of New York in Brooklyn, said that surgical treatment of the heart patient was a field in which wide advance would be scored in the near future.

Wesolowski collaborated on a paper by Brooklyn's Dr. J. Dennis describing the insertion of a tube into the heart in such a way that the left ventricle is bypassed in the circulatory system.

The failure of the left ventricle to function properly is one of the main causes of death in heart patients.

The three doctors who reported on the endarterectomy to clean out cholesterol and other fatty substances from plugged coronary arteries were Jack Cannon, James A. Macrae and R. T. Smith, all of St. John's hospital in Santa Monica, Calif.

They used high-speed motion
