More Active Plan For Women Among Campaign Activities

A much more active program for women is included in the 1964 campaign, planning of the Democratic party, Mrs. Frank Christian, president of the Eleanor Roosevelt League of Jackson county, reported this week on her return from the Western Conference of the party in Salt Lake City.

The Christians continued from Salt Lake City to North Fork, Idaho, where they visited relatives, before returning to Medford.

In line with the stepped up program for women's participation, Mrs. Christian said, the vice chairman of each state is being called into Washington, D.C., for a special report conference April 30, May 1 and 2, in 1964.

There were as many women as men attending the Western States conference in Salt Lake, she stated, and she found that Jackson county's record in the Operation Support program for promotion of President Kennedy's legislative goals was one of the best.

Praise Duncan
Many words in praise of Congressman Robert B. Duncan from Jackson county also were heard at the conference, according to the Christians, who renewed friendships they had made in Washington when they attended the inaugural.

They referred particularly to their conversation with Kenneth Holm, assistant secretary of the interior for water and power. They sat with him at the luncheon. Holm said Duncan's work has been "outstanding in the area of water and power and that his debate on the floor of Congress was marked by courage and industry, unusual in such a new member." Mrs. Christian quoted from her notes.

She also mentioned the comments made by Congressman Compton I. White Jr., of Idaho, and Sen. Frank E. Moss, of Utah, who said they considered Duncan one of the "most outstanding men in Congress" and that his colleagues, particularly those who have sat with him on committees, are looking to him for "able leadership in the future."

Mrs. Christian will give her official report of the conference to the Eleanor Roosevelt League at an early meeting.

As women participate more in politics and other areas of public life, she said it was emphasized at the conference, they must assume a more responsible attitude toward the press. If they expect good publicity, she quoted the advice, they must give complete coverage of their meetings to the newspapers and other media.

The divisions group continues to lead with \$34,230, which is 40 per cent of the group's \$85,052 goal. Plant chapters reported \$37,253 pledged, 37 per cent of the goal of \$102,034.

McGrew was enthusiastic with the progress of the campaign and praised volunteer workers for their efforts.

40 Per Cent of UC Goal Reached

A total of \$71,752, or 40 per cent of the \$180,040 goal, has been collected in the United Crusade of Jackson county, according to Campaign Chairman Jerry McGrew.

During the past week, \$18,633 was collected, he noted at the fourth report luncheon yesterday.

Division groups reporting amounts collected included forest products, \$3,390, 45 per cent of its goal; professional, \$6,712, 50 per cent; public employees, \$13,365, 77 per cent; retail, \$5,591, 33 per cent; commercial, \$2,059, 9 per cent; distribution, \$2,185, 22 per cent; service, \$13,828, 37 per cent; town and country, \$697, 17 per cent; and special gifts, \$3,863, 32 per cent.

The largest gain during the week was made in the service section, McGraw noted. The section collected \$8,308 of its goal.

Oregon Schools Draw Criticism

CORVALLIS (UPI)—A spokesman for the State Bureau of Labor Monday criticized Oregon high schools for not sufficiently preparing its graduates for jobs.

Ray Ziegler spoke on the opening day of the two-day fall Conference of the Oregon Association of Secondary School Principals at Oregon State University.

Ziegler told the principals that "25 per cent of your students go on to college and are well prepared but the 75 per cent who do not go to college are not adequately prepared for jobs."

"Teachers should get out and talk to the men who run their community's business and industry to find out what they want their employees to be trained in," he said.
