

Macmillan Confined in London Hospital

Stocks Continue Pattern on Moderate Trading

NEW YORK (UPI)—Stocks continued in their narrow and mixed pattern early today on moderate trading.

American Crystal and South Puerto Rico added about another point each to Tuesday's gain. Strength in this group reflects indirectly the havoc to the Cuban sugar crop by hurricane Flora.

National, Pan American and Eastern were up about 1/8 each in the airline section. Motors were firm. Steels and chemicals were steady. A&P fell nearly a point on a lower earnings report.

IBM jumped more than 4 in the electronics but Minneapolis-Honeywell and Zenith lost 1 or more. Norfolk & Western declined nearly 1/2 in the rails.

DOW JONES AVERAGES

NEW YORK (UPI)—Dow Jones final stock averages: 30 industrials 743.90, up 0.04; 20 railroads 168.97, off 0.77; 15 utilities 129.35, up 0.20, and 65 stocks 261.08, off 0.19. Sales Tuesday were about 4.92 million shares compared with 4.05 million shares Monday.

Irrigation in Area District To Stop

The Rogue River Valley Irrigation district Thursday will discontinue all irrigation, RRVID Manager Harold Sexton said today.

"We plan to keep enough water in the ditches for filling spray tanks until next week. This includes stock water," Sexton said.

Sexton noted that next year's water supply prospects appear good so far, based on the hold-over storage in Fish and Four Mile lakes. Fish lake has 2,400 acre feet, which reflects a slight increase, and Four Mile has 9,600 acre feet, which is holding about even, he added.

Applications Being Taken for Officers

Applications are being accepted by the city of Medford for two police patrolmen.

To be eligible, the applicant must be between 21 and 30 years old, be a high school graduate or equivalent, have a good driving record and no police record.

All applicants will be required to take two written examinations.

Starting salary is \$404 per month for patrolman. All uniforms and equipment are furnished by the city, and patrolman are under social security and the police employees retirement service. They also receive two weeks annual vacation.

Application forms are available at the office of D. L. Ferguson, city personnel officer.

Foreign Briefs

ECUADOR CHARGES AIR SPACE VIOLATION
QUAYAQUIL, Ecuador (UPI)—Authorities here charged today that a Peruvian bomber, intruding illegally on Ecuadorean air space, flew Tuesday over the border town of Huaquillas.

EAST GERMAN WORKERS FLEE TO WEST
ESCHWEGE, Germany (UPI)—A welder and a mechanic armed with wire-cutters hacked their way through two Communist barbed wire fences in darkness to flee to the West Tuesday. West German customs officials announced.

MERCENARIES SAID POISED FOR CONGO INVASION
NAIROBI, Kenya (UPI)—Northern Rhodesian African Nationalist leader Kenneth Kaunda said Tuesday nearly 500 mercenaries from France, Spain, Portugal and South Africa were massed in Northern Angola waiting to invade the Congo when United Nations troops pull out.

Prime Minister May Be Forced Into Retirement

LONDON (UPI)—Prime Minister Harold Macmillan, hard at work in a hospital bed, was reported "quite comfortable today" despite a prostate gland ailment which may lead him to retire.

The 68-year-old Conservative leader "is extremely well and cheerful" and is working from papers on his bed," Dr. Sir John Richardson said after seeing Macmillan this morning.

The prime minister's son, Maurice, said his father was "quite comfortable" after spending the night at King Edward VII hospital.

'Scrambler' Attached
Engineers today attached a portable "scrambler" to Macmillan's bedside telephone to enable him to carry on confidential government work. Foreign Secretary Lord Home and an aide arrived at the hospital late this morning carrying briefcases.

Richardson said that if investigations being conducted into Macmillan's condition were satisfactory, the premier would be operated on Thursday morning, Macmillan May Retire.

The illness, although not considered serious in itself, added weight to speculation that Macmillan soon may retire.

At the same time, it improved the position of Deputy Premier R. A. Butler, who became acting premier for the duration of Macmillan's incapacity.

Butler was the favorite of observers speculating on a possible successor to Macmillan, and taking over the prime minister's duties for such a length of time during such a crucial political period was bound to strengthen his position.

Two other party leaders, Science Minister Lord Hailsham and Reginald Maudling, the chancellor of the Exchequer, also had wide support.

Blow To Career
The illness was a blow to Macmillan at an important time in his political career.

For many months, he has fought back against demands by Labor and by Conservative mavericks that he step down. The first attacks were based on Britain's failure to gain common market membership, its rising unemployment, and its defense policy controversies.

Then, in the summer, came the Profumo scandal. When War Minister John Profumo's affair with callgirl Christine Keeler spread into a series of trials and security investigations, the demands for Macmillan's resignation increased. But he continued to reject them.

Juvenile Advisory Jury Considered

ASHLAND — An experiment designed to make youthful offenders think twice when they appear in court is being organized here by Municipal Judge Richard Cottle.

Judge Cottle appeared before the Ashland city council last night and gained council approval of his idea.

His plan to form a juvenile advisory jury, composed of six Southern Oregon college students and six from Ashland High school, who would serve in his court on a volunteer basis each Thursday evening, from the group of 12, six would act each week.

Judge Cottle feels that if youthful offenders are sentenced by persons their own age, it will be more of a humbling experience for them. The judge would retain the right to make the final decision, but the jury would have a part in an advisory capacity.

The judge is planning to invite the students together with three adults from the faculties of the college and high school to meet with him and Judge Edward C. Kelly of Jackson county circuit court to discuss the plan.

Central Point Woman Injured in Accident

ASHLAND—Mary Cady, route 2, box 199B, Central, was reported in good condition at Rogue Valley hospital this morning, where she is recuperating from a broken ankle suffered in a freak auto accident in Ashland Tuesday.

According to Ashland police Mrs. Cady got out of her car on Lithia Way in front of the Ashland fire hall, had put the hood up and was working on a portion of the car when, with the motor still running, it somehow got in gear, knocked her down and ran over her left ankle.

Mrs. Cady was taken first to Ashland Community hospital and then transferred to Rogue Valley.

The Suez canal required 13 years to construct.
