

**A JAPANESE GIFT**—Two kimono-clad Japanese film actresses present Robert Moses, president of the New York World's Fair 1964-65, with a "Happi" coat on behalf of the Japanese Exhibitors' Association in New York. The "Happi" coat, or festival garment, came from Japan's ancient capital of Kyoto. Its scarlet background is decorated with a stylized tiger design, and the ornamental Japanese characters on the lapels spell the legend "Tiger on the Rock." The girls are Kumi Mizuno, left, and Yoko Tsukasa. (UPI)

## Variance Request By Pruitt Denied By Area Planners

A variance request by Howard Pruitt, Eric ave., Central Point, to operate a livestock hauling operation in the North Central Point zoned area was denied by the Jackson county planning commission last night.

The commission accepted the board of adjustment's recommendation.

Edd Rountree, Ashland, and G. I. Peoples, Gold Hill, board members, voted to deny the request and C. W. Duggan, Sams Valley, favored the variance. The three commissioners serve as the board of adjustment.

The board reached its decision after a public hearing Monday and a brief discussion prior to the commission meeting last night. Residents of the zoned area had presented petitions signed by 73 persons opposing the commercial operation in the farm-residential area.

UNDER TEST  
HOUSTON (UPI) — What happens to old oil wells? One 8,200-foot-deep shaft south of Houston, Tex., long past its producing days, has been put to new use by Pan Geo Atlas corporation. The company uses the "test well" to try out its oil-testing and well-perforating products under actual field conditions.

Rountree, in making the motion to deny the request, said the business was opposed by residents in the area, and that an opinion in August from the district attorney's office found it in violation of the zoning ordinance.

Duggan charged that the hauling of livestock is not foreign to the area no more so than the commercial harvesting and hauling of other agricultural produce. He felt that an attempt to regulate livestock hauling at this location would force the board into regulating the hauling of other harvested crops in the area.

Other members of the board and residents said regulation of livestock hauling was not being considered, but rather it was opposition to a commercial enterprise in a farm-residential zoned area. The hauling business was for livestock other than Pruitt's.

It was pointed out that zoning had been in effect in the area since 1959. Pruitt purchased the property for his livestock hauling operation in June, 1963.

**Lists Five Restrictions**  
Lawyer Ron James for his client, Pruitt, listed five restrictions that the hauling operation would abide by if the variance was approved. They included maintenance of the road, speed limit, removal of sign, no feeding of customers' livestock, and use of buildings only to support his operation.

The planning commission's recommendation will now be forwarded to the county court.

The commission meeting consisted principally of a discussion between them and residents of the South Talent Interim zoned area. It was noted that petitions are being circulated in the area by the South Talent Voters' association seeking an election on zoning.

Last night's discussion dealt with answering questions and clarifying points in the present ordinance.

## Students Promise Larger Boycott of Negroes' School

PLAQUEMINE, La. (UPI)—Student leaders promised a larger boycott of a Negro high school today. Police braced for more of the racial outbreaks they broke up Wednesday with tear gas and electric cattle prods.

A "freedom rally" was planned today in DuPont Annex, a Negro suburb.

A small, determined group of Negro students organized a series of marches on a white high school Wednesday and were routed by police.

The state district court judge was expected to rule today on whether to turn a restraining order banning demonstrations by the Congress of Racial Equality (CORE) into an injunction. CORE has maintained it is not participating in the current outbreaks.

Negroes met in a run-down school building in a Negro section just outside of town Wednesday night to discuss ways of gaining concessions on their demands for an end to racial segregation in Iberville Parish County.

No Action  
During the meeting, a brick was thrown into the rear fender of a sheriff's department patrol car. The car did not stop. Police stood by, but took no action.

A Negro leader said Wednesday he filed a "police brutality" complaint with the FBI and asked Atty. Gen. Robert Kennedy to intervene.

Police Chief Dennis Songy denied any brutality on the part of police, but he warned he would "tear down" Freedom Rock Baptist church if Negroes continued "to use it as a fort."

The church was the rallying point for demonstrators Wednesday. About 75 students met there, then marched on the white Plaquemine High school. They apparently intended to repeat Monday's sit-ins on the school steps.

The students set out for the school in groups of ten. The first group was met by police and an unidentified white coach. The coach physically blocked the Negroes' entry, but police had to use tear gas to disperse them.

Two more groups marched on the school and were turned away by police tear gas grenades.

## Coach May Quit to Run for Senator

NORMAN, Okla. (UPI)—Oklahoma football coach Bud Wilkinson has refused to confirm or deny a copyrighted newspaper story that he will retire Jan. 1 and seek the Republican nomination for the U.S. Senate.

A Tulsa newspaper, the Tribune, said Wednesday it had learned from "unimpeachable sources" that Wilkinson, a Democrat, would resign Jan. 1, switch party affiliation and file for the U.S. Senate as a Republican in February.

When asked about the report, Wilkinson, 47, whose top-ranked Sooners meet Texas in the Cotton Bowl at Dallas Saturday, said, "I think it is foolish to waste time in this manner, especially when we are getting ready to play Texas. It is unfortunate this keeps coming up."

"If I did reply it would be the same thing I have said all along," he said. "All I can say is no comment. It is ridiculous to reply. I don't know who keeps putting these things out. It's disturbing to the football team."

## Portland Man Sought In Death of Woman

PORTLAND (UPI)— Detectives here today were looking for Al Montgomery, 34, of Portland for questioning in connection with the death of a woman in a hotel room Oct. 4.

Marie Montgomery, 37, also known as Marie Rodriguez, first was thought to have died of natural causes, but police said the investigation is continuing because of a possibility the woman had been beaten.

A normal infant will triple its weight in its first year.
