

NEW

NEW HI-SPEED
Windex
WITH
AMMONIA-D

The odor is OUT but the
cleaning power's ALL THERE

CLEANS BETTER THAN ANYTHING YOU'VE EVER USED!

*Nothing you have ever tried—
not vinegar • ammonia •
soap and water • other sprays •
other sprays with ammonia •
or even regular Windex—
nothing cleans dirt off glass like New Hi-Speed
Windex with Ammonia D.
And there's a brand-new reason why.*

*Here is a totally new formula of cleaning ingredi-
ents. New and dramatically fast. It undermines
greasy film, floats dirt free in seconds.
Now you have all the piercing cleaning power of
ammonia, and no odor.
And a new wetting agent to hold dirt afloat, so
your paper towel picks up every bit of dirt. In-
side or outside, it never leaves a trace; never,*

*never streaks.
For years, we've been saying that Windex gets
glass so clean, it seems to disappear.
It does the same now—faster than ever before,
faster than anything else.
Cleans better than anything you've used.
New Hi-Speed Windex—another work-saving
product from Drackett.*
