## Surge in Support of Science Reported To Be Tapering Off

EUGENE — The post-sputnik surge in support for basic science has begun to decline, and a "backlash" has become apparent in the U.S. House of Representatives, according to a National Science Foundation official who visited the University of Oregon campus Tuesday.

William V. Consolazio, senior analyst in the NSF science resources planning office, said in an interview that the appointment of a select House committee to investigate all government-supported research "is fundamentally a reaction to big government spending, especially in science."

Consolazio was on campus to speak in an Honors College class in science and society, being conducted this term by Dr. Francis J. Reithel, professor of chemistry.

Reflects Elements  
The select committee reflects conservative elements in the House, he noted, who suffer from an ignorance of the subject matter and a lack of awareness of the value of scientific research.

A House appropriations subcommittee has recently voted out a budget for NSF which freezes appropriations for the government's basic research support agency to last year's level, despite a request that the budget be raised from \$322 million to \$559 million, Consolazio explained.

Hope To Entertain Troops in Viet Nam  
HOLLYWOOD (UPI) — Bob Hope is planning to entertain American troops in Viet Nam this Christmas.

The comedian said in making the announcement Wednesday that he was postponing a scheduled personal appearance tour of Australia and New Zealand.

He plans to take regular troupe members Jerry Colona, Anita Bryant and orchestra leader Les Brown on the tour.

Hope, who has been entertaining American armed forces in many parts of the world since World War II, said preparations for the Viet Nam appearances forced postponement of his commitments in Australia and New Zealand until February of next year.

He was scheduled to leave for Australia Nov. 1 with stops scheduled at Melbourne and Sydney, to be followed by appearances at Wellington, Hamilton and Auckland in New Zealand.
