GREAT PUMPKIN—The great pumpkin was found today at Wright-Patterson Air Force Base, Dayton, Ohio. An unidentified person had painted a face on the huge tank behind Aerospace Research Lab. (UPI)

Espey to Preside Over County Park Association Meet

SALEM (UPI) — The fourth annual conference of the Oregon County Park Association will be held here Friday.

State Highway Engineer Forrest Cooper said outdoor recreation leaders from public and private agencies and organizations throughout the state are expected to attend.

Laurance Espey, association president and chairman of the Jackson County Park and Recreation Commission, will preside at the 9 a.m. opening meeting.

Gov. Mark Hatfield will deliver the welcoming address, and present a merit award.

Glenn L. Jackson, chairman of the State Highway Commission, will review development and future planning of parks and recreation.

County representatives will report on outdoor recreation activities.

Special reports will be made by Harold Schiek, state parks superintendent; Paul Beistel, superintendent of parks in Lane County; and Robert Bonney, Multnomah County parks superintendent.

Charles Collins, executive vice president of Cal-Ore Recreation Development Association, will report on the governor's outdoor recreation advisory council.

The conference is sponsored as a cooperative effort of the Oregon County Parks Association and the Parks and Recreation Division of the State Highway Department.

PORTLAND (UPI) — A two-day conference of labor-management problems opened today at the University of Portland, under sponsorship of the school and the National Conference of Christians and Jews.

Higher Education Sets Special Meet; Orders Cutbacks

PORTLAND (UPI) — The Budget-minded State Board of Higher Education has called a special meeting one week after the special session of the legislature ends.

The special session meets Nov. 11.

Meanwhile, the board closed a two-day meeting Tuesday by telling state-supported schools to cut some \$1.5 million out of non-teaching and student fund allocations. The way the money will be cut was left up to the schools.

Such cutbacks would affect fees paid to support student government, athletics, and campus press services. They also would reduce maintenance and janitorial services.

William E. Walsh, chairman of the board, said action on other cuts would be held up until after the legislature meets. Gov. Mark Hatfield has asked that.

14 Are Nominated For Director Posts

ASHLAND — Fourteen persons have been nominated for the board of directors of the Ashland Chamber of Commerce.

From this group, six directors will be elected by mail ballot during the first part of November.

The 14 nominees are Harold Buck, Dr. E. C. McGill, Clint Lorber, Vincent Oredson, Bill Williams, Ed Singmaster, John Reynolds, Gene Morris, Howard Pierce, Arthur Kacety, James S. Bobbett, John Flynn, Charles Brown and Dr. Stewart Johnson.

The chamber board is composed of 12 members, each serving a two-year term. Half of the board is elected each year.

Court Will Seek Action To Obtain Route Designation

The Jackson County Court this morning said it would send letters to the Oregon State Highway Department and the Winnemucca-to-the-Sea Highway Association seeking action on getting a U.S. route designation for the highway.

"The Winnemucca - to - the Sea highway is in good condition and is as good as any in the state, superior to any mid-Western federal highways," County Judge Earl M. Miller said today.

Miller and County Commissioners Edwin Taylor and Donald E. Faber were protesting a statement that "Highway Department officials have not yet decided whether to try again to get a U.S. route designation for the Winnemucca-to-the-Sea highway."

Reason for Rejection

Reason given for the rejection was that the route was not up to acceptable standards of design and construction.

Miller also protested a statement that the highway department refuses to recognize that the highway exists. "The state highway department certainly recognizes the highway," he said. Both Oregon and Nevada have spent considerable money on the construction of the highway.

The American Association of State Highway officials reportedly turned down the requested route designation last week.

Miller said he would ask the highway association to obtain "factual data" to support the contention the highway should receive a route designation.

Appling Given Time To File Complaint

SALEM (UPI) — Secretary of State Howell Appling Jr. Tuesday was given 15 days in which to file an amended complaint against Harrison E. Spangler.

Marion County Circuit Judge George Duncan ruled that Appling's original complaint insufficiently state a cause of action.

Spangler is the author of a book titled "The Political History of Wayne Morse."

Ben Bella, Hassan To Demilitarize Disputed Border

BAMAKO, Mali (UPI) — Algeria and Morocco agreed today to end their bloody Sahara Desert border conflict, high diplomatic sources said.

The sources said a ceasefire will be declared on both sides of the forlorn front at midnight Saturday.

BAMAKO, Mali (UPI) — Algerian sources claimed today that President Ahmed Ben Bella and Moroccan King Hassan II had tentatively agreed to demilitarize the disputed area on their frontier pending further talks.

The report, which was not immediately confirmed by other delegations here, came shortly after the two chiefs of state broke an agenda deadlock and finally began negotiating their border conflict.

Meeting with Ben Bella and Hassan were the two mediators in the dispute which was critically affecting North African unity: Conference chairman Emperor Haile Selassie of Ethiopia and host Mali President Modibo Keita. The four-power confab opened this morning.

An initial deadlock over the agenda prevented the two quarreling government leaders from meeting face to face on their arrival Tuesday and had threatened to wreck the meeting before its start.

Algerian conference sources claimed that any decision agreed to in principle at Bamako would be submitted to the 32-nation Organization of African Unity (OAU) for detailed discussion and final approval.

The Algerian claims were received with caution by observers. Morocco so far has refused to pull its troops back from the region around Hassi Beida and Tinnyoub, 500 miles southwest of Colomb Bechar, and from the region of Tindouf, 350 miles farther to the south. King Hassan's regime claims its troops merely reoccupied territory belonging rightfully to Morocco.

The demilitarized zone apparently would mean the creation of a temporary no-man's-land or buffer zone, while the OAU or another international group would attempt to draw a permanent frontier line along the disputed stretches of the 700 mile common border between Algeria and Morocco.

Warren Victim of Demonstration at Bar Testimonial

NEW YORK (UPI) — Chief Justice Warren Tuesday night was bombarded by leaflets and placards hurled at him by demonstrators demanding his impeachment.

The demonstration took place as Warren and his wife were leaving the New York Bar Association Building where earlier in the evening he was made an honorary member of the organization at a testimonial dinner.

The pickets, who said they were members of "the movement to impeach Earl Warren," also booed Gov. Nelson Rockefeller, who attended the dinner but left the building separately from the Warrens.

Neither Warren nor Rockefeller were hurt, and police moved in quickly to keep the pickets from the men.

Erode Freedoms

Walter Zaleski, who said he was the leader of the organization which is based in Summit, N.J., told newsmen the Supreme Court's decisions "have helped to erode our freedoms." He said the group was not connected with the John Birch Society.

The approximately 75 pickets were waiting for Warren when he arrived at the building with his wife and daughter, Mrs. John Daly.

During the dinner, he commented to association members that "the honor guard is waiting for me."

"I had no trouble finding this building," he told them. "In my travels around the country I often find such built-in reception committees."

He added that he thought it was "a great thing that they can do this in this country, whether they really believe in it or are being paid to do it."

Goldwater Proposal To Sell TVA Gets Hostile Reaction

KNOXVILLE, Tenn. (UPI) — The proposal of the Republican presidential hopeful.

In a letter released last week, Goldwater said: "I am quite serious in my belief that TVA should be sold."

Tuesday, without mentioning Goldwater by name, TVA Board Chairman Aubrey J. Wagner dismissed the idea as being ignorant of the "facts" and "irresponsible."

A director of the \$2.5 billion seven-state agency, Frank E. Smith said "Goldwater might find TVA an issue in Tennessee."

Sen. Herbert S. Walters issued a statement in Washington not mentioning Goldwater's name but attacking his opinion. "Recent suggestions that the sale of TVA to private interests would be to the benefit of Tennessee and the nation," Walters said, "are certainly without any basis of fact."

In the letter to Rep. Richard Fulton, D - Tenn., of Nashville, Goldwater had said the vast agency pays only five per cent of its annual gross to local governments, but would have to pay five and one-half times that much if it bore a tax level comparable to those of private business.

Owens Agency

Tuesday, in a speech before the Knoxville Rotary Club, Wagner said TVA pays no federal income tax because the federal government owns the agency "lock, stock and barrel including 100 per cent—not just 52 per cent of its net income."

"Remember," the board chairman continued, "that income tax is a tax on net income, not on gross income as the calculations of some TVA critics indicate they apparently believe."

He said TVA actually paid out some \$30.4 million in 1963 to the states and counties in which it operates, making it the largest single taxpayer in the state of Tennessee.

ARRESTED BY FBI—The FBI Tuesday arrested John William Butenko, 38, (UL) a New Jersey electrical engineer, on charges of passing classified defense contract information to members of the Soviet delegation to the U.N. Also arrested was Igor A. Ivanov, 33, (UR) a Russian citizen without diplomatic immunity. Two members of the Soviet U.N. delegation, Goeb A. Pavlov, 39, (LL) and Yuri A. Ramashin, 38, (LR) were detained and later released. All shown in photos released by the FBI. (UPI)

Engineer Accused Of Passing Data To Soviet Agents

Innocent Pleas Entered at Hearing

ENGLEWOOD, N. J. (UPI) — An American engineer arrested Tuesday night while allegedly passing classified data to members of the Soviet U.N. delegation had access to Strategic Air Command (SAC) secrets, it was disclosed today.

FBI agents arrested John William Butenko, 38, of Russian parentage, and a Russian chauffeur, Igor A. Ivanov, 33, in the Englewood rail station parking lot together with two members of the Soviet U.N. mission. Butenko and Ivanov were held in \$100,000 bail each on espionage charges after pleading innocent at their arraignment. The two Russians were released because of diplomatic immunity.

The FBI said the four had in their possession a briefcase full of air defense contract secrets. A spokesman for Butenko's employer, the International Electric Corp. of Paramus, N. J., said Butenko had top security clearance as control administrator for the firm's field operations, including SAC installations.

New System

International Electric, a subsidiary of International Telephone and Telegraph Co., has been under contract to the government since 1958 to produce a new command and control system for SAC that would link the command's bomber, missile and logistic support bases around the world.

A company spokesman said millions of dollars have been poured into the program, which occupies the majority of international workers. Butenko's \$14,700-a-year job was to maintain a master schedule concerning the contract in regard to work outside the company plant.

The FBI said the meeting Tuesday night was the last in a series going back to last April 21, all of which were observed by FBI agents.

Pearson Survives Two House Votes

OTTAWA (UPI) — Prime Minister Lester B. Pearson's Liberal party survived two non-confidence votes in the House Tuesday night on the thorny issue of American nuclear arms on Canadian soil.

Backed by a solid Conservative front, the government turned back a Creditiste motion demanding it for "subserviently" accepting nuclear arms in the "state of Quebec" — a motion which at one point of the day appeared to threaten the defeat of the government.

Basing their stand on one policy for all Canada and not a separate agreement for Quebec, the Tories joined with the Liberals and five new Democrats to defeat the Social Credit members by a count of 210-to-27.

County Court Plans To Purchase Lot

The Jackson County Court went on record this morning as "proceeding to acquire" a lot between King and Laurel Sts. on Eighth St. for courthouse parking.

County Judge Earl M. Miller said the court has not decided yet whether this will be used for employee parking.

The lot to be acquired from Du Cormic Properties, Inc., is 227 by 110 feet. The Jackson County Budget Committee in authorizing the purchase earlier also went on record urging the County Court to acquire adjacent properties for parking.

Cost of Living Holding Steady

WASHINGTON (UPI) — The government reported today that the cost of living, which had been rising slightly, held steady in September.

The consumer price index remained at the August figure of 107.1, the Labor Department said, meaning that it cost \$10.71 to buy the same goods and services that could be purchased for \$10 during the 1957-58 base period.

However, Arnold Chase, assistant commissioner of the Bureau of Labor Statistics, said the September index was nine tenths of one per cent higher than the year-ago level.

Food costs last month showed a drop from August. A market basket of food that cost \$10.60 in August could be purchased for \$10.54 in September, Chase said.

Transportation costs dropped four tenths of one per cent in September, largely because of lower prices for gasoline and new cars. But residential rents, fuel prices, housing upkeep, and textile house furnishing all moved up.

New Safeway Store Opens Thursday

Safeway's new store at the corner of West Main and Hamilton Sts. in Medford opens tomorrow morning at 9 with fanfare and gifts for every member of the family, J. N. Valentine, district manager for Safeway Stores, Inc., announced today.

The store, which is 50 per cent larger than the Medford Shopping Center Safeway, will include several features entirely new to Safeway shoppers:

Twenty-five per cent of the area will be "non-food section," offering merchandise ranging from clothing to fishing equipment.

New type equipment, new type checking stands, expanded departments and enlarged shopping lanes are a few of the innovations incorporated in the new building, designed by Robert J. Keeney, architect, and constructed by Graff and James, contractors.

A grape stake fence extends along the back of the property and down one side to give protection to adjacent property owners. Valentine explained and landscaping has been designed to lend beauty to the area.

Recreation Area Closes on Thursday

The 1963 fishing and camping season ends tomorrow at the Howard Prairie Recreation Area, R. T. Johnston, concessionaire, announced today.

The buildings and the area will be closed to the public and work will get under way to prepare for the next season.

If weather and road conditions permit, Johnston said, the area will be reopened during the school Christmas vacation period for winter sports.

The restaurant and picnic area will be open to the public during that time, when ice conditions are normally most favorable for skating.

Later announcements will be made as to the opening and closing dates of the winter sports season, Johnston said.

Area Representatives of AFS Program Will Hold Conference in City Saturday

A conference for area representatives of H Division of the American Field Service Scholarship Program will be held at Medford Junior High School in Medford starting at 10 a.m. Saturday, Nov. 2.

Four staff members from the New York American Field Service office will direct the conference.

Registration for the area representatives will begin Friday, Nov. 1, at the Thunderbird Motel.

Staff members from the New York office, coming to Medford to direct the conference, are George Edgell, Mary Jane Goodloe, Julie Dougherty and Jean Walton.

H Division of the program includes Northern California, the Big Bend region in California and

NEWS BRIEFS

RESCUE SEEN LATE THIS WEEK

PEINE, Germany (UPI) — Three miners trapped more than five days 262 feet below the earth in a flooded iron mine will not be rescued before Thursday night or Friday morning, the mine manager said today.

BISHOPS ACCEPT LARGER ROLE

VATICAN CITY (UPI) — Roman Catholic bishops of the world voted overwhelmingly today to accept Pope Paul VI's invitation to assume a larger role in the government of the church.

YANKS CAPTURED IN VIET NAM

SAIGON, South Viet Nam (UPI) — Three Americans were reported captured by Communist guerrillas today in an ambush on a Vietnamese government unit that was accompanied by U.S. advisers.

Lowest This Morning	Temp. 54
Lowest This Evening	Temp. 54
To 10 a.m. Today	Temp. 54
Full Moon	Temp. 54
Our Skies Tonight	
Sunset today	5:38 p.m.
Sunrise tomorrow	6:43 a.m.
Moonrise today	4:38 p.m.
Moonset tomorrow	5:22 a.m.
Full Moon (Hunter's Moon)	
Friday Jupiter, the largest planet, appears to be leading the Moon through the sky tonight. Jupiter has been in the constellation of the double star, Antares.	

NO HOTEL

OLYMPIA, Wash. (UPI) — A team of professional consultants reported Tuesday to Gov. Albert D. Rosellini's Rainier Advisory Committee that Mt. Rainier National Park cannot support a 109-room hotel.
