live on happily into his seventies.

Each day the mobile unit moves around through Minneapolis and St. Paul, stopping perhaps for a day in front of a big factory or plant, where the workers come out to be tested.

This is the first such mobile laboratory built, and already the

many diabetes societies throughout the country are becoming interested, and are wondering how soon they can have such a unit. Certainly, the building of this mobile laboratory is a very big step forward in the much-needed early detection of diabetes.

It's tragic when a loved one falls victim to a mental disease — but quick recognition of his symptoms may be the key to a successful recovery. If you would like to have the booklet, "When Mental Illness Strikes A Family," by Dr. Alvarez, send 25 cents and a stamped, self-addressed envelope with your request to Dr. Walter C. Alvarez, Dept. Since August he has been head of the Peace Corps mission in Nepal, having served nearly a year as deputy representative, save for three months leave of absence on the Mt. Everest expedition.

Currently Unsöld is hospitalized in Bethesda Naval Medical Center here with hepatitis which he contracted in Nepal. There's no treatment other than complete rest, which he is now getting. In Nepal he tried to continue to direct the Peace Corps work from his hospital

the outlying rural areas, with its sugar cane and chicken farms, was much like home. For some of the others, life in Nepal is very unlike home. There is no electricity outside Katmandu, the capital; drinking water is hand carried from a central tap; there are only outside privies; and some volunteers live in thatched huts.
