TRADE—The New York Mets received George Altman (top) from the St. Louis Cardinals in return for pitcher Roger Craig (bottom) in a trade Monday. The Cards also gave up pitcher Bill Wakefield in a straight player transaction. (UPI)

# Trade Sends Craig To Cardinals, Altman To Mets

By LEO SOROKA United Press International ST. LOUIS (UPI)—Roger Craig, "loisngest" pitcher with the New York Mets, was in the St. Louis Cardinal camp today with the chance of a lifetime to hit the win column with regularity.

hander Wakefield who had signed with the Cards for a \$35,000 bonus. Wakefield, of Kansas City, is a student at Stanford. He had a 3-7 record at Tulsa and a 1-3 mark at Atlanta the past season.

"It's one of the best things to happen to me since I've been in baseball," said the 32-year-old 100-pound Craig.

The Cardinals had tried to get Craig during the past baseball season, but when the two clubs couldn't come to terms, Devine worked a trade with the Milwaukee Braves for Lew Burdette.

"Craig gives us stability and maneuverability in our pitching," said Devine.

Craig showed a 49-38 record with the Dodgers before moving to the Mets in the 1961 expansion draft. He turned in a 10-24 mark in 1962, and dropped to a 5-22 record in 1963, including the near-record losing streak of 18 games. In eight of Craig's losses, New York was whitewashed, and he lost four 1-0 decisions.

Had 93 Strikeouts Altman had 93 strikeouts against him. He had 18 doubles and seven triples and nine home runs, hitting .242 against lefthanders and .282 against righthanders.

Devine said big George "had an off-year... but it wasn't that bad."

"I want to stress that disposing of Altman in no way reflects dissatisfaction with his contribution to the club," Devine said.

Even with Stan (The Man) Musial gone as a player, Manager Johnny Keane and Devine agreed that the club found it more "desirable" to add a pitcher and give one of the many young Cardinal outfielders on the roster a crack at Musial's job, and the one now vacated by Altman.

The Mets apparently took a good look at 22-year-old right-

# INTRODUCING THE DEPENDABLES FOR '64

We have designs to get you in our power

Our engineers are a wily group of guys who spend most of their time dreaming up ways to win your approval. Take the Dodge Polara 500. You'd be hard-pressed to find a car that's got more going for you. Deeply-padded, contour-formed bucket seats. All-vinyl upholstery. Silt-to-silt carpeting. Padded dash. Center console. And lots of other trimmings. But that's only the half of it.

Perhaps our approach to power will further illustrate the point.
