

Talent Junior High PTA Unit To Be Organized

TALENT — An organizational meeting for the purpose of forming a Talent Junior High School Parent Teacher Association has been announced for Thursday, November 21 at 8 p.m., in the Junior High School combination room.

Ernest R. James, District 4 superintendent made the announcement.

This meeting will mark the first time a separate building PTA has been established in the Phoenix district. Until this time, PTA has been on the district level with one unit serving all school and all children in grades one through 12.

The organizational committee headed by Mrs. Sam James has expressed the opinion that a separate unit will serve the students at this level more effectively and will be of greater interest and concern to parents and teachers.

The committee's central idea is that the students' best interests demand a close working relationship between the two major influences in the student's life, his home and his school. This relationship can be strengthened through a parent-

teacher organization at the school level, they concluded.

Parents of all children in the school who want to join this new unit are invited to attend the organizational meeting. The committee has prepared a list of proposed bylaws which will be distributed and discussed. After the discussion the group will recess for refreshments and membership enrollment which will be followed by election of officers.
