

IT'S HERE NATURAL GAS !

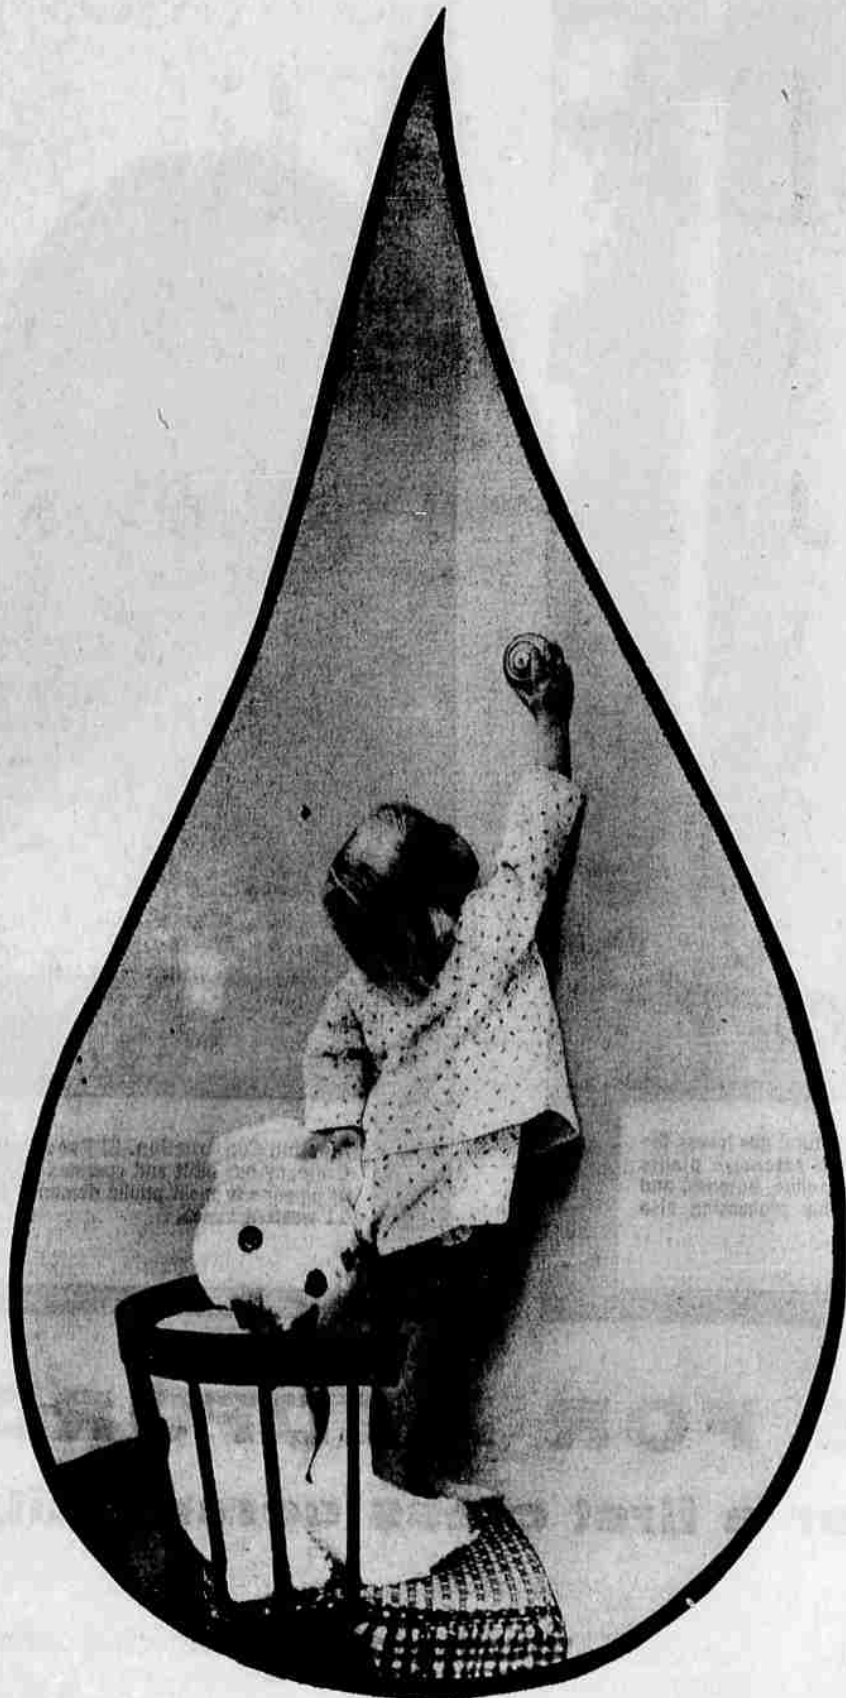

THE COMING OF AN ABUNDANCE of low-cost energy has always meant the advancement of economic growth and "the good life" in the American system of free enterprise. Now, the availability of Natural Gas in Medford assures heightened opportunity for economic development; bringing better living, more economically to the home and community at large. Business and industrial establishments can utilize this superior fuel to expand their operations profitably, while adding to the overall strength and security of the region. Yes, Natural Gas is the modern fuel that means *grow-power* for Medford...and savings, too!

NATURAL GAS WILL COST YOU LESS

Savings accomplished with the use of Natural Gas will be passed on to our customers. New rate schedules will reduce the cost of gas service in accordance with the following:

Class of Customer	1962 Average Monthly Use Therms	Average Monthly Costs		Average Savings		%
		Existing Rates	New Rates Natural Gas	Monthly	Annually	
Residential . . .	68	\$14.34	\$11.57	\$2.77	\$33.24	19.3
Commercial . .	227	46.12	37.03	9.09	109.08	19.7

NOTE: Rate schedules for various classes of service approved by the Public Utilities Commissioner are on file at our office. Call upon us for complete information.

A turn of the thermostat and dependable NATURAL GAS responds instantly to warm the whole house...even on the coldest mornings.
