Shrinks Hemorrhoids New Way Without Surgery

STOPS ITCH — RELIEVES PAIN

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute.

This substance is now available in suppository or ointment form under the name *Preparation H*®. Ask for it at all drug counters.

BACKACHE MISERIES

DeWitt's Pills, with positive analgesic action, bring fast palliative relief of symptomatic pains in back, joints and muscles. DeWitt's Pills are mildly diuretic and help flush out unwanted wastes left by sluggish kidneys. DeWitt's Pills may be just what you need to relieve backache miseries and help you avoid getting up nights.

DeWitt's Pills

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. **FASTTEETH**, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get **FASTTEETH** at any drug counter.

Cookbook (Continued from page 13)

Fiesta Brittle

- 1 lb. (about 3 cups) salted mixed nuts
- 4 oz. (about ½ cup) diced candied red pineapple
- 4 oz. (about ½ cup) diced candied green pineapple
- 2½ oz. (about ½ cup) slivered candied orange peel
- 2 cups sugar
- ¼ cup light corn sirup
- 1 cup water
- 2 teaspoons orange extract

1. Toss nuts and fruit together in a bowl until well mixed. Spread out evenly in a well-buttered 15½x10½x1-in. jelly-roll pan.
2. Thoroughly blend sugar, sirup, and water together in a heavy saucepan; cook over low heat, without stirring, until candy thermometer registers 280°F. Add the extract and continue cooking to 290°F (crack stage).
3. Pour the hot sirup evenly over nuts and fruit, making sure that mixture is well coated. Do not scrape the sirup from saucepan.
4. When candy becomes firm, turn out of pan onto a wooden board and break into pieces. Cool completely and store in tightly covered container in a cool, dry place. *About 2½ lbs. brittle*

Pecan Crunch

- 2 cups (about 8 oz.) pecans
- 1 teaspoon baking soda
- 2½ cups sugar
- 1½ cups butter or margarine
- ½ cup water
- 1 tablespoon cider vinegar
- 1 teaspoon salt
- 4 oz. milk chocolate

1. Very coarsely chop 1 cup of the pecans; finely chop the other pecans and reserve ½ cup for topping. Mix the coarsely chopped and ½ cup finely chopped pecans with the baking soda. Set aside.
2. In a heavy 2-qt. saucepan, combine the next five ingredients. Set over low heat and stir until sugar is dissolved. Continue cooking without stirring, until candy thermometer registers 290°F (crack stage)—forms threads

which are hard but not brittle in very cold water).

3. Remove from heat and remove thermometer; add nut-soda mixture and stir until just blended. Pour into a buttered 10-in. square pan. Cool completely on cooling rack.

4. When candy is cooled, melt chocolate over simmering water, cool slightly, and spread evenly over candy. Sprinkle the remaining nuts over the melted chocolate.

5. When chocolate is set, turn candy out of pan and break into pieces. Store between pieces of moisture-vaporproof material in a tightly covered container. *About 2 lbs. candy*

Caramel-Coated Marshmallows

- 1½ cups (15-oz. can) sweetened condensed milk
- ½ cup sugar
- ½ cup firmly packed light brown sugar
- ¼ cup light corn sirup
- ¼ cup butter or margarine
- 1½ teaspoons vanilla extract
- 1 lb. marshmallows
- Cream (about 3 tablespoons)

1. Mix the sweetened condensed milk, sugars, and corn sirup together in a heavy 2-qt. saucepan. Cook until mixture reaches 234°F (soft ball stage), stirring constantly.
2. Remove from heat and stir in the butter or margarine and extract.
3. Set saucepan in a pan of hot water while dipping marshmallows. Thin mixture with a little cream as necessary to maintain dipping consistency. Using a buttered two-tined fork to spear marshmallows, quickly dip and twirl each in caramel mixture to coat evenly, removing as much excess coating as possible. For ease in handling, push marshmallows from fork with a buttered spatula onto a well-buttered baking sheet. Allow to cool 4 to 6 hrs.
4. Wrap each marshmallow in moisture-vaporproof material.

About 5 doz. marshmallows

"Stop saying 'Straight ahead.'"

Fever Blisters

COLD SORES

Dry Them Up Fast

Soothe, Soften, Prevent Cracking

QUICK! Apply **CAMPHO-PHENIQUE** at the first sign of a fever blister or cold sore. For this soothing, healing antiseptic liquid has an amazing drying action that clears them up **FAST**. And as **CAMPHO-PHENIQUE** dries the fever blister or cold sore it softens it, too, so prevents painful cracking. Healing is rapid and comfortable.

CAMPHO-PHENIQUE is like having a First Aid Kit in a bottle. Wonderful for cuts, minor burns, scratches. Its anesthetic action stops pain instantly. Its antiseptic action promotes rapid healing. And when a cold clogs your nose, put a few drops of **CAMPHO-PHENIQUE** on your handkerchief and inhale the medicated vapor. You'll breathe easier **FAST!**
