## Labor Department Reports Increase Of Unemployment

WASHINGTON (UPI) — The Labor Department has reported that unemployment climbed by about twice the expected amount in November to 3,936,000.

The increase of 483,000 in the jobless ranks came as total employment fell by 366,000 to 69,325,000. The key seasonally adjusted unemployment rate climbed from 5.5 per cent to 5.9 per cent of the labor force last month. Department officials, however, said part of this increase was inflated because of statistical deficiencies in their estimates.

**Colder Weather**  
The jobless rate rose to the highest level since last May as construction jobs and other outdoor projects laid off workers with the coming of colder weather. The department also reported an increase in the number of teen-agers who could not find part-time jobs.

A spokesman for the Labor Department said the employment situation showed basically no change and was "reasonably strong." The number of jobs in nonfarm category climbed by 1.4 million over the year.

Unemployment, expected to rise by about 220,000 in November, climbed by more than double that amount. Joblessness was higher across the board for men, women, and teen-agers.

## Morse To Fight Aid Compromise

WASHINGTON (UPI) — Sen. Wayne L. Morse said Saturday he will fight the compromise \$3.6 billion House-Senate foreign aid bill because "it does not make the reforms that the American taxpayer is entitled to."

He said he will fight the Oregon Democrat, who waged a three week fight against the Senate version of the aid authorization measure, told newsmen the bill allows "the same old inefficiency, waste and corruption."

"I will oppose it and will vote against it," he said. But he would not indicate whether he would make an all-out fight that could delay final Senate approval.

The compromise was worked out by a Senate-House conference committee to reconcile differences between the versions passed by the two chambers. It authorizes another year of economic, military and technical aid overseas. The \$3.6 billion total is almost \$1 billion less than the late President Kennedy asked. The House voted \$3.5 billion and the Senate \$3.7 billion on the initial go-round.
