

# Try and Stop Me

By BENNETT CERF

AN OUT-OF-WORK laborer in New Orleans decided to go North in search of a break. Lacking carfare, he chose his leaky old rowboat as a means of transportation. In his excitement he neglected to untie the rowboat rope from the dock.

He plied his oars faithfully all night, still securely tied to the dock. At dawn, a friend spied him and called, "Hi, there, Charlie!"

Charlie was visibly shaken. "My, my," he exclaimed. "Who knows me up here in New York?"

The hard-pressed proprietor of an espresso and folk-music center in Greenwich Village has just nailed up a sign proclaiming, "No teen-ager admitted unless accompanied by money."

The latest Texas-oriented pleasantries concerns the impetuous Dallasite who jumped into a taxicab at Niagara Falls and said to the driver, "The Texas state capitol at Austin—and step on it!"

## Channel Dredge Cooperation Told

OLYMPIA (UPI)—State Land Commissioner Bert Cole Monday gave his assurance that the state would cooperate with U.S. Army Engineers to dredge a channel in the Columbia and Lower Willamette rivers.

Cole said he signed a letter assuring cooperation in the project to dredge a 40 by 600-foot channel that "will open up the ports of Longview, Woodland, Kalama and Vancouver to major shipping."

Tidelands under the jurisdiction of the Department of Natural Resources have been approved for the project, Cole said.

Gov. Albert D. Rosellini recently appointed Cole to represent the state in negotiations with the engineers and local port districts involved in the project.

Cole said the engineers hope to start the first portion of the dredging work soon. No date dredging work soon. No date was set.

# NEW CHEVELLE!

BY CHEVROLET

The kind of go—6 or V8—you'd expect from one of Chevy's great highway performers. Come on down and drive it.

The kind of comfort you'd expect in a large interior. Come on down and sit in it.

The kind of fresh styling—inside and out—that makes it the year's smartest surprise. Come down and stare at it.

New Chevelle Malibu Sport Coupe

## Now—Chevy spirit in a new kind of car!

We built this one to do a lot more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines for it—two sixes and two V8's—with output all the way up to 220 horses!

And if that combination of modest weight and potent power makes you think this is one frisky car, you've got the right idea.

You've also got a car with lots of room for legs, hips, shoulders, hats and luggage. Yet its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park.

With its Full Coil suspension and snug insulation, it's got a ride that reminds you of the Jet-smooth kind the

way it muffles noise and cushions you from bumps.

And the fine hand of Body by Fisher craftsmen shows up beneath this one's suave good looks, too. Just listen to the solid *thunk* of a door closing or look at the smooth metalwork. You'll see what we mean.

Sound good so far? There's more. Like the fact that Chevelle comes in three series with eleven models—convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that—and see if this isn't one of the nicest surprises of all) the new Chevelle comes at an easy-to-take price!

Like to hear more? The listening's wonderful at your Chevrolet dealer's—and so's the driving.

See five entirely different kinds of cars at your Chevrolet Showroom—CHEVROLET, CHEVELLE, CHEVY II, CORVAIR & CORVETTE
