 If you have youngsters above the toddling age, you'll appreciate some of the refinements of this design. It provides ample space for family activities, group entertaining for both children and parents, and also privacy for individual family members.  
 Double doors open from the roofed front porch to the wide entry. Foot traffic is efficiently channeled to each area of the house and yet hall space has been kept to a minimum.  
 A "dead-end" living room such as this one eliminates the crisscross traffic that cuts down the utility and furnishability of so many living rooms. A wide window at the rear of the room looks out over the garden while sliding glass doors open to the roofed patio. Doors also open from the family room to the patio so that the patio becomes the hub of indoor-outdoor activities.

**Bob Hope's Eye Condition Better**

SAN FRANCISCO (UPI)—Comedian Bob Hope may leave Children's Hospital today after undergoing apparent successful treatment for a blood clot on his left eye.  
 Doctors at the hospital said the eye ailment had responded so well to special light treatment that the 60-year-old comedian was up and active Wednesday.  
 They said he planned to return home to Southern California for about a week of quiet rest before making his scheduled trip to entertain servicemen in the Mediterranean area during the Christmas holidays.

**Women Cancel Hunger Strike for Housing**

DUBLIN (UPI)—Four women called off their 48-hour hunger strike Wednesday night when one of them collapsed from exhaustion. They were protesting alleged failure of the city to provide them with living quarters after their homes were condemned as unsafe.  
 The women had barricaded themselves in an army barracks.

much larger than the average dining ell, and if preferred, a full or partial wall could be added to separate it from the family room. A spacious storage closet for your better china and linens opens to the dining area.  
 Laundry facilities and a broom closet are in the service. There is additional space for a freezer or sewing table. A half-bath opens to the service where it is readily accessible from this wing of the home as well as the garage.  
 The master bedroom is of unusual size. This exciting suite offers a compartmented bath which has virtually all of the convenience of two baths. The water closet and shower are in one area while the pullman lavatory is located in the dressing area along with a linen, wardrobe and a dressing table.  
 Study this dramatic exterior carefully as here is a home that looks as good as it lives.

**Candidate Assured Of One Ballot**

WASHINGTON (UPI)—Democrat Jake Pickle, a contender for the congressional seat being vacated by Rep. Homer Thornberry, D-Tex., could count on at least one vote today—that of President Johnson.  
 The Chief Executive cast an absentee ballot Wednesday for the Dec. 17 election in Texas' 10th Congressional District. Thornberry has resigned from Congress, effective Dec. 20, to become a U.S. district court judge. Pickle, a former Johnson campaign worker, is opposed by Republican Jim Dobbs.

COIN RATION NEW YORK (UPI)—The shortage of coins is worsening as the big Christmas shopping season nears. Federal reserve banks say they are rationing distribution to other banks of all coins except 2-cent pieces.

**1963 Box Score: FORD'S TOTAL PERFORMANCE TOUGHNESS DOMINATES THE COMPETITION WORLD!**

Ford has chosen the most rugged testing program cars have ever faced... full-scale open competition on the rally and racing circuits of the world. This is the dramatic way to show that Fords have changed... and the sure way to be certain they keep on changing. Changed? Just look at the record:

<b>STOCK CAR RACING:</b> 2-in-1 margin for Ford Ford is King of NASCAR competition and Ford Motor Company has the NASCAR Achievement Award to prove it. In the '63 season, special Ford entries won every single race of 500 miles or longer, scored nearly twice as many points as any other make, 500-mile races are the ultimate test of inherent durability and dependability. In two other major stock car racing associations (WCA and MASC) Ford drivers have wrapped up the 1963 championships.	<b>SPORTS CAR ROAD RACING:</b> Ford V-8 power is the new king Here the Cobra with its special V-8 engine emerged as the overwhelming leader in one short year. Cobra won the coveted Manufacturer's Trophy in SCCA Class A Production competition by so wide a margin no other car—U.S. or foreign—were even in sight. And in the two major tests this fall, the Laguna Seca and Riverside races, the new King Cobras dusted off the top "unlimited" cars from all over the world.	<b>BALLY COMPETITION—Manufacturer's Championship</b> Products of Ford Motor Company and its world wide affiliates won the 1963 Manufacturer's World Rally Championship. Ford's rally year began when two specially equipped Falcon V-8's started the automotive world in the brutal 2500 mile Monte Carlo Rally. Other special Falcon V-8's triumphed in Holland's famed Tulip Rally, and ran away with the Manufacturer's Team Prize in the 4000 mile Trans-Canada Rally.	<b>INDIANAPOLIS:</b> Ford ends an era Advanced Ford engineering smashed precedent in the classic Indianapolis "500." The first time out, a light alloy version of the Fairlane V-8 design in a Lotus chassis finished second. And the next time in the Milwaukee "200" it ended the reign of the traditional "body" racing car by leading every foot of the way from start to finish.	<b>PERFORMANCE &amp; ECONOMY:</b> New laurels for Ford The Mobil Economy Run underscored Falcon's year-long reputation for thrift—a Falcon scored first in Class B (medium-engined compacts). And the Pure Oil Performance Trials brought laurels to the big Fords, which walked off with overall wins in Classes I and II for total performance (economy, acceleration and braking).

**1964 Result: TOTAL PERFORMANCE INSPIRES THE TOUGHEST, SMARTEST CARS FORD EVER BUILT!**

Fords have changed—and that's the real reason behind Ford's racing successes. We're now making the longest lasting, best handling cars in our history. The things we've learned from the specially equipped cars we enter in open competition have helped make them that way.  
 The inherent qualities that make the victorious racing car—road-holding, braking, durability, precision control, resistance to vibration—also make a car safer, stronger, and smoother for highway use.  
 But prove it to yourself. Take the wheel of any new Ford. Five minutes on the road will show you the kind of total performance no one else can match.
