THOSE HEAVY TRUCKS DIRECT DAMAGE TO STREETS

In harmony with the move thru-out the state to control the tonnage of loads hauled over the highways, there are those in Hubbard who think this proposed state action should apply to the streets of Hubbard, and would favor licensing all truckmen operating in the city and in that way control the heavy traffic over city streets. There is every evidence that some positive move is necessary to protect the city property, most of which is not entirely paid for and which will be a bill of expense to maintain, also there should be paid into the general fund of the city a revenue from these heavy trucks that will compensate the damage done. Among the number operating are those doing through work from Portland to Salem, and various other trucks making regular runs which should have an opportunity to contribute to the general good of Hubbard.

There are several roads in this part of Marion county and from reports many other places, that have been made practically impassable by the unwise use of trucks heavily loaded when the roads were soft, and now can be used by no one. Truckmen have a right to operate and just as surely should bear their proportionate part of maintenance of roads and streets.

CANBY WATER SUPPLY CARRIES TYPHOID FEVER GERMS

The City of Canby was notified last Wednesday that the public water supply was found on examination of the State Health Board to carry germs of typhoid fever. Arrangements were at once made to protect the citizens and school children, the latter having been notified severally to bring their drinking water from home, the same having been boiled for use. It is fortunate the discovery was made before an epidemic resulted.

Individuality is the salt of common life. You may have to live in a crowd, but you do not have to live like it, nor subsist on its food. You may have your own orchard, you may drink at a hidden spring. Be yourself, if you would serve others.—Henry van Dyke.

HUBBARD BALL TOSSERS WIN FROM INDEPENDENCE

The boys' team of Hubbard Hi had things their own way last Friday night.

If the ability of the Independence boys' high school basket ball team to throw baskets had equaled the enthusiasm of the students that accompanied that team, the score would have been far different. As it was when time was called on the second half, Hubbard had 22 points and the visitors 6.

They were a fine lot of players and kept their pep up to the last moment of play.

About forty students accompanied the players.

FORMER HUBBARD MAN DIES IN CALIFORNIA

Albert Jordan received a letter Tuesday from Oceano, Calif., reporting the death of John Jordan at that place on Saturday afternoon, January 29. Deceased was a cousin of Albert and up to about 18 years ago did contracting and building in this locality, coming here about 30 years ago.

Interment at Oceano Monday afternoon.

IN THE SAME OLD WAY

With only Senators La Follett, Porter, Stroyer and Vinton opposed the Senate Tuesday afternoon passed senate bill 36 by Hall and Norblad making available for immediate expenditure on the proposed Roosevelt Military highway the \$2,500,000 authorized by the people of the state at the special election of June, 1919. No arguments were advanced against the measure. The bill removes the contingency attached to the measure of 1919 which required federal co-operation in order to make the fund available.

The bill provides for the location and construction of a highway to be known as the Roosevelt Coast Military highway from the city of Astoria, through Clatsop, Tillamook, Lincoln, Lane, Douglas, Coos and Curry counties to the California state line, makes available \$2,500,000 out of the state highway funds for construction work on the highway and provides for immediate action on the preliminary work in connection with the location of the road.

FARMERS OF VALLEY BACK PLEA FOR LIME

An adequate supply of cheap agricultural lime is absolutely essential to the continued productivity of Oregon farms. This is the statement made by farmers representing several sections of the Willamette valley before the joint ways and means committee Tuesday night in backing up the claims of the state lime board for \$10,000 with which to again place the lime plant at Gold Hill in operation. Each of the farmer delegates appearing in behalf of the lime plant expressed their readiness to purchase from 100 to 500 tons of lime at once if it is produced at a price within reach which was declared to be not to exceed \$6 per ton delivered.

A. B. Cordley, secretary of the board, who represents the request for the \$10,000 appropriation, declared that this would put the plant on its feet and make it self sustaining. It would be possible, he declared, to produce lime at a price not to exceed \$4.50 per ton at the plant, whereas the only agricultural lime now available to Oregon farmers commanded \$15 a ton, a price entirely beyond the reach of all except those engaged in intensive farming.

Two thirds of the land in the Willamette valley would respond to lime treatment and one-half of this land would respond highly, he declared, his statement being based upon surveys conducted by the Oregon Agriculture school.

Specimens of wheat were exhibited before the ways and means committee to show results obtained through liming of the soil. Wheat produced on unlimed soil, it was explained, produced only 13 bushels to the acre while limed land immediately adjoining the other produced 20 bushels to the acre with one-third more work required on the less productive land.

Operation of the plant since its installation has resulted in a deficit of between \$10,000 and \$12,000, Cordley admitted, but explained that hereafter the plant would be expected to pay its way.

ESTATE VALUED AT \$50,000

A petition was filed Monday to submit to probate the will of Susan J. Eagon, who died January 23, 1921, at Woodburn. The estate is said to be valued at \$50,000. E. P. Morcom has been named as executor of the estate, and M. J. Lindahl, A. W. Gille and Ivan Byers, appraisers.

ADMINISTRATOR'S NOTICE

Notice is hereby given that the undersigned was on the 20th day of January, 1921, appointed Administrator of the estate of Esther Garren, deceased.

All persons having claims against the estate are requested to present them, duly verified, to me at my office in Woodburn, Oregon, within six months from the date of this notice. Dated this 28th day of January, 1921.

Date last publication Feb. 28, '21.
E. P. MORCOM,
Administrator.

ADMINISTRATOR'S NOTICE OF APPOINTMENT

Notice is hereby given that the undersigned has been duly appointed by the County Court of the State of Oregon for the County of Marion, as administrator of the estate of Elizabeth Trout, deceased, and that he has duly qualified as such administrator.

All persons having claims against the estate of said decedent are hereby notified to present the same, duly verified, to me at my office, room 203 Oregon Building in the City of Salem, in Marion County, Oregon, within six months from the date of this notice. Dated at Salem, Oregon, January 18, 1921.

A. O. CONDIT,
Administrator of the Estate of Elizabeth Trout, deceased.
RONALD C. GLOVER,
Attorney for Administrator.
Date of first publication, Jan. 21, '21.
Date of last publication, Feb. 18, '21.

NEW MACHINE TO BE USED CLEARING LAND

Oregon Agricultural College, Corvallis, Ore., Jan. 28.—(Special.)—A machine which is expected to revolutionize land clearing has been obtained by Professor H. D. Sudder for use on the college demonstration farm near Roseburg. If the machine proves as satisfactory under rigid trial as it now seems it will be adopted on many projects in that vicinity.

The new invention is the work of an Oregon man, is manufactured in Portland, and is practically the only one of its kind to have promise of a commercial success, according to college authorities. The power is supplied by a gasoline engine.

Experiments will be worked out to determine whether smaller clearing costs result from the use of powder with the machine or by use of the puller alone.

The machine referred to above is the Bontrager power stump puller in which a number of Hubbard people are interested. The late models are being well received by all who have occasion to clear land.

FRIENDSHIP

Could absence, distance, time or place
The ties of friendship sever,
Remembrance of past joys erase
And blot them out forever;

Friendship we might justly deem
A name that soon will perish,
Instead of that bright golden dream
Which we so fondly cherish.

But, ah! No, the intervening space
That friend from friend may part
Can ne'er unfold those pleasing chords
That bind the willing heart.

Food memory oft will bring to mind
The hours together spent,
When quickly glided time away
In harmless merriment.

FOURTH-CLASS POST- MASTER EXAMINATION

The United States Civil Service Commission has announced an examination to be held at Salem, Ore., on Feb. 12, 1921, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth-class postmaster at Donald and other vacancies as they may occur at that office, unless it shall be decided in the interest of the service to fill any vacancy by reinstatement. The compensation of the postmaster at this office was \$347 for the last fiscal year.

Applicants must have reached twenty-first birthday on the date of examination, with the exception that in a State where women are declared by statute to be at full age for all purposes at eighteen years, women eighteen years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the post office for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements.

Application blanks, Form 1753, and full information concerning the requirements of the examination can be secured from the postmaster at the place of vacancy or from the United States Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the Commission at Washington, D. C., at the earliest practical date.
