A very disagreeable and disgraceful affair was the disturbance at church in Houlton last Sunday night. It illustrates plainly two or three lessons. A church is the pastor's castle, and he has rights there that he may defend even to the using of force. The church is not the place for fun and merry-making, and should not be indulged in either by members of the church or by those attending its service. We know little or nothing of the merits of this affair, and had we all the facts we do not care to publish them. Such matters are better left unnoticed, but such disturbances are becoming too frequent, and may require the work of a fighting parson to stop them.

Last Saturday evening as the protected cruiser and two torpedo boats passed by the town of Rainier, a hundred or more people assembled on the dock to see them. Dr. Stuart and Gregory McGregor scaled the roof of one of the dock buildings and, with the stars and stripes on a pole gave the salute, which was promptly returned by each of the ships as they passed by. It was a scene that was very pleasant in time of peace, but in time of war one not to be desired. These vessels will be in the port of Portland for the next ten days, where they may be visited by all obtaining a permit. Should you go to Portland, you will find it worth your while to visit them.

A pair of spring balances and some other butcher tools at Rainier furnished meat for our earnest argument between two citizens of that town last Saturday. From the way the boys rushed to the scene one would have thought the balance of the town was interested in the balance of the argument about the balances. But the grumpy little French blacksmith took a hand as "peace maker" and the balance of this story is different from what it otherwise would have been. The balances were taken back into the shop, and the balance of the argument will be made in Justice Symon's court, where the whole matter will be weighed in legal balances.

Sunday morning about sixty would be excursionists stood on the station platform and watched the excursion train sail through without even slowing up. Yes, we had a delightful time at Seaside. But misery loves company, so it is some comfort to know that the train did not take on any passengers after leaving Portland. The mail sacks were missed all along the line.

"Commencing June 8th and continuing until regular summer schedule is inaugurated, the regular train of A. & C. R. R. arriving at Astoria at 11:30 A. A forest fire is raging in the vicinity of Yeon's camp, back of Rainier. At latest account yesterday morning the fire was still raging, and but little hope of getting it under control. At camp No. 2, five bunk houses and the store house were reduced to ashes; the boys not having time to get out their clothing. It is unknown as to what the damage will be.

"Night Was Her Torture."
Writes Mrs. Chas. Applegate of Alexandria, Ind., "and could hardly get any sleep. Natal and Vesper played a game of ball last Sunday resulting in a victory for Natal by a score of 14 to 6; it was a quiet, peaceful game because of the umpire's intelligent eye.

Messers Davis and Casey, general agents for the White sewing machine, are making this town their headquarters during the summer, and are selling dozens of their famous machines.

During the dry season, already millions of shingles and lumber have found their way to Clatskanie. There are scores of teams doing nothing but hauling these products out to market.

The Hazelwood (Mist) Pasteurizing Plant is doing a rushing business now-a-days. J. E. Dow, of better fame, has been selected as manager. They have several cream wagons going. The longest route is from a few miles above Vernonia to Mist, a distance of about twenty miles. This layout is proving a grand thing for the farmers and dairymen of the valley. It will tend to promote dairying, which this country is chiefly adapted for. Dozens of cream separators have been distributed among the farmers throughout the valley, which means more and more cream.

No Pity Shown.

"For years fate was after me continuously," writes F. A. Gullidge, Verbona, Ark. "I had a terrible case of Piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for Burns and all aches and pains. Only 25c at Perry & Graham's."

THE GRANGE

COUNTY DEPUTY'S WORK.

Its Importance Should Be Appreciated and Provision Made For It.

At the bottom of all success in increasing grange membership lies the work of the deputy. Lecturers and newspapers may attract the attention and in a way prepare for organization of granges, but it is the organizer—the deputy—who must do the actual work of organizing. There is a general feeling all over the United States that the work of organization should be pushed, within just limits, of course, until not a single town or neighborhood outside the cities but shall have a deputy of the grange work and its advantage to the farmer. While we have in the United States approximately 800,000 members, there is no good reason why that number should not be increased to 1,000,000 by the active agency of thoroughly interested deputies, county and state officials.

We must not allow the work of extension to drift, and we owe it both to ourselves and our posterity that the effort be made, and the more aggressive and progressive it is the nearer we shall approach the fullest measure of duty and opportunity. Ample funds should be appropriated from the state granges to carry on this work. This is already being done in some of the more progressive grange states, but there are other states where the work is lagging and where new life should be instilled.

OBJECTIONS ANSWERED.

Misapprehensions Concerning the Grange Corrected.

First—"It costs too much."
The cost compared with the benefits is but a trifle. The revenues could not be reduced without crippling the work. Other farmers' organizations have been started on a cheaper scale, and they failed, in part at least, for want of funds.

Second—"Too much ceremony for busy farmers."
This ceremony is not cumbersome. Ceremony is akin to system, and system is essential to success in any calling. The best drilled soldier is the most efficient in battle, and the most skilled artisan draws the highest pay. The grange ritual teaches beautiful and impressive lessons throughout. None can learn them and not be made better.

Third—"It is a secret society."

It is a secret only in the sense of being private. It is not an oath bound society. It is no more secret than is a well regulated family or many branches of the Christian church. All of these conduct their private business in private. Were the grange less secret and less conservative it would doubtless long since have gone the way that other farmers' organizations have gone. They came into being after the grange, proposing to eliminate what their promoters called the objectionable features of the grange—ceremony, secrecy, conservatism and cost. They died, but the grange still lives.

Fourth—"But the grange uses signs."

Who does not? All use them because they are often more expressive and impressive than words, and because they can be seen and heard where words cannot. When any one calls at a private house he raps on the door or rings the bell. No one ever claimed that there was any moral wrong in this. Would it be wrong if by rapping a certain number of times or in a certain way he could tell to those inside who was without? What could armies, or railroads, or mines, or factories, or anybody or anything do without signs? Was not the Jewish and is not the Christian religion typical throughout?—Red Book, Pennsylvania State Grange.

First Quarterly Report For 1904.

The number of granges organized from Jan. 1, 1904, to March 31, 1904, both inclusive, is as follows: Colorado, 1; Connecticut, 1; Illinois, 1; Indiana, 1; Maine, 5; Maryland, 3; Michigan, 10; New Jersey, 8; New York, 16; Ohio, 11; Oregon, 5; Pennsylvania, 13; Rhode Island, 1; Texas, 1; Vermont, 2; Washington, 12; West Virginia, 3; total, 118.

The number reorganized in the same period is as follows: Indiana, 1; Iowa, 3; Kansas, 7; Maine, 2; Massachusetts, 3; Michigan, 3; Minnesota, 1; Ohio, 1; Pennsylvania, 4; West Virginia, 15; total, 44.

What Farmers Are Doing.

Secretary Wilson says it is the farmers who make the country rich. Two years ago our farm exports amounted to \$800,000,000, which is \$2,000,000 for every working day, \$125,000 per hour, \$2,000 per minute and \$33 per second, as some one has figured it out. This was in 1901, and it ought to be more now.

We Should Say Not.

One of the articles of the constitution and bylaws of the Kansas state grange says that "deputies organizing new granges shall admit no person who sells intoxicating liquors or who is an habitual drunkard." We should say not.
