

LOCAL.

Old papers 25 cents per hundred. John Rice is again carrying the mail. John Wilkesburg returned from Portland Tuesday. Parties desiring old newspapers should call at this office. Register and Journal (semi weekly) for \$1.75 per year. Mrs. Ida Adams has been visiting in Rainier the past week. George Parkus took a load of Clittam bark to Portland Monday. H. F. Harman has purchased the O. Dutch house in Rainier. Harry Coleman has purchased the C. M. Brooks place in Rainier. Miss Jennie Gilsan, of Portland, spent Sunday in Houlton. Dishes given away free at the New York store in St. Helens. Miss Marie Boss, of Portland, is the guest of Miss Beryl Graham. James Timoney Jr., of Rainier, was in Houlton Thursday last week. L. F. Banzer, postmaster of Hudson, was a St. Helens visitor Saturday. James Grant, of Scappoose, has found employment in the factory at Houlton. Miss Ada Shrader and her brother, Arthur, went to Oregon City for a visit, Monday. Mr. N. C. Hampton, of Olympia, visited friends in Houlton Saturday and Sunday. Mrs. Kate Shaw, of Rainier, and her daughter visited in Kalama the first of this week. Frank Merrill, of University Park, was renewing old acquaintances in Rainier, Saturday. W. P. Gay, of Rainier, was in Houlton Monday, taking a look at the town and factory. The Hon. Norman Merrill, of Clatskanie, was up attending court in St. Helens, Monday. Omar Spencer was in Houlton, Saturday and took out a few passengers to the Nehalem, Monday. Proceedings in bankruptcy have been instituted in behalf of Wm. and D. A. Muckle, of Rainier. Carl Carrington, who has been working in the stove factory, returned to his home in Portland Saturday. There was an adjourned session of circuit court Monday, at which time a number of divorce suits were heard. Mrs. Anna Wood was the guest of her parents this week at the homestead of R. P. Burns a few miles back of Rainier. At Bailey & Brinn's you find a good quality of general merchandise, at the right price. New goods arriving daily. Dr. Ross' new building at St. Helens shows up very nicely, and gives one the impression that there is improvement going on. The annual county institute will be held in Rainier August 13, 14, and 15. The entire program will be published later on. "Houlton Opera House," is the way the new sign reads. Electric lights will be the next metropolitan innovation for this burg. Morgus of the New York store at St. Helens is offering special inducements for cash trade. See him for fine premium dishes. J. H. Sheldon has been fairly successful with his seine this season. He has been getting, on an average, about two ton of fish per day. A fire broke out in the slaying in Mc Kinnon's camp Tuesday and destroyed several hundred cords of wood, and it was with great difficulty that the camp was saved. Peter Lousignat has leased his place at Scappoose for a term of years, and will probably take his family to some city where they can have the advantages of a good school. Mrs. J. H. Sheldon returned to her home in St. Helens, after a visit of several weeks in California. Her health, which had been poor, was greatly benefited by her trip. Final settlement was made in the estate of U. C. Adams deceased, on Monday. The real estate remaining unsold was turned over in trust to Mrs. Adams, widow of the descendant, to be held in trust for the minor heirs. N. A. Perry and wife and daughter, Gladys, started for St. Louis, via St. Paul, Wednesday evening. They will return about the first of September on the Burlington route as far as Billings, thence by the Northern Pacific, home. Last Saturday night there was a very pleasant party at the home of Nathan Stewart in Rainier. Between thirty and forty of the young folk assembled there to celebrate the anniversary of Carl Stewart, that being his 19th birthday. The foundation for the new soap factory at Rainier is now completed and the work of construction of the buildings will be pushed forward as rapidly as possible. The promoters of the business hope to have it in operation this fall. The buildings are large enough so that more machinery may be installed and the work of the factory increased, making the output nearly double what it will be on the start.

Last Friday morning the town of St. Helens was thrown into a state of excitement, by the disappearance of Mary the fourteen year old daughter of A. A. Robinson. At the usual hour the family arose and Al went up to the seining grounds at about 6 o'clock and Mrs. Robinson went out to milk the cow. She returned at 20 minutes before seven to find the little children in the house by themselves and Mary absent. Search was instituted but no trace of her could be found. A typewritten letter in the house is believed to have been written by her. From the reading of the letter it was inferred that she had lost her reason and had possibly wandered off. Mr. Robinson, acting on this theory, went to Portland and made diligent search. Upon returning home and making further investigation, the dress she wore was found on Sheldon's dock with a letter pinned to it. The letter was written in her own hand, addressed to her papa and mamma, and signed Mary R. The finding of the letter gave rise to the suicide theory and the citizens immediately set about dragging the river, but without results. It is yet to be hoped that she will be found all right. The fond mother and father are nearly distracted with grief. "There is some lively competition for the cream production of the Nehalem valley," said A. Peterson, a dairyman of Mist, who arrived in the city yesterday evening. "The Hazelwood Creamery company is competing for the business on the routes with the Townsend Creamery company, the latter having been in the field for some time. As a result, the dairymen and farmers are getting better prices for their product than heretofore. The Hazelwood company has put in a pasteurizing plant at Mist, nine miles over the mountain from Clatskanie, on the line of the Astoria & Columbia River railroad, and the cream routes have been extended in every direction. Many of the farmers are buying cows and installing separators, and others are arranging to make dairying a specialty. The cream routes now run down the Nehalem river taking in the county over the Clatsop county line, while the longer routes extend up the valley from Mist a distance of 27 miles to the Washington county line. From Mist the cream product of the upper Nehalem valley is hauled to Clatskanie, and shipped to Portland by rail." Portland Journal. Wm. I. Reed, of the Rainier Mill & Lumber Company, returned last week from an extended visit through the middle western states. He reports crops good in Illinois, Iowa and Nebraska; and the outlook for an improvement in the lumber trade is very good. He was successful in selling several large consignments of lumber. The Oregon fire is gaining a good reputation in the east. He says the company will make extensive improvements at Rainier this season. Possibly a box factory and a sash and door factory may be added to the plant. The main thing now is to work up all or as much as possible of the good lumber now going into the slab pile. The graduating exercises in Dist. No. 8; joint, were held at the school house last Friday afternoon. The schoolroom was tastefully decorated, and the blackboards were filled with the roll of honor, program, and class motto, in artistic penmanship. The house was packed with an enthusiastic audience, who listened to the excellent program with interest. The graduates were Miss Ella E. Ternahan, and H. Ward Farrel, Miss McDonough, the teacher, received the hearty congratulations of all for the excellent entertainment. Last Sunday, while bathing in the Coweman river, Joseph Lowe went beyond his depth, and not being a swimmer, was drowned before he could be rescued. Wilbur Muckle also came very near losing his life in an attempt to rescue him. Joseph Lowe was born in Green county, Iowa, September 22, 1883, and departed this life July 31, 1904. The burial took place Tuesday at the I. O. O. F. cemetery near Warren. The memorial services will be held in the M. E. church, at Houlton, Oregon, Sunday, Aug. 14, at 3 p. m. Mrs. R. P. Burns and her daughters, Agnes and Theresa, accompanied by Mrs. E. Slack and daughter of Superior, Wisconsin, were passengers to Astoria, Tuesday morning. The matrons will visit a brother, Wm. Scully, a hardware merchant of Astoria, and the young folk will go to Seaside for a few days. The Columbia county board of equalization is called to meet on Monday, August 29, 1904, at which time you have the opportunity of going before the board and making complaint if your assessment is too low. The board consists of Assessor A. T. Laws, County Clerk H. Henderson and County Judge, R. S. Hattan. The Register man has houses to rent and houses to sell in the town of Rainier the best school town in the county. A house and one block, two houses and one block, and also a house and lot for good business location. He has also two or three good locations for small fruit farms or chicken ranches. "Beginning July 2nd, and continuing for the summer there will be no evening train from Portland, on the A. & C. R. R., but instead train will leave there at 2:30 P. M. "Rud Henshaw and Uriah Kelley starting for Rock Creek the first of the week on a fishing trip.

Prof. J. H. Collins, of Clatskanie, was a visitor at the county seat Monday. Dr. and Mrs. Cole, of Pendleton, and Miss Eleanor McQuincey, principal of one of the Spokane schools, are the guests of Mrs. Wm. Holsapple, of Rainier. If you like the Register tell your friends about it and induce them to subscribe. We have special clubbing rates with the Portland Journal, Oregonian and San Francisco Examiner. "The Innocents Abroad." It is reported that the crew of road workers that left Scappoose last week for Clatskanie, overland with their grading outfit, upon their arrival at Rainier, were arrested on suspicion of having the measles, as they were broken out all over with pimples about the size of bird shot. After an examination, however, the health officer decided this was due to the pancakes they had eaten, having camped out after leaving Scappoose and lived on bachelor grub. When leaving Rainier, they were directed to keep the straight, main traveled road, but it seems they went about fourteen miles out of their way. The foreman excuses the blunder by stating that after spending a night with the Rainier boys, it was impossible to keep straight. A gentleman from this end of the county who visited them recently says on their arrival at Clatskanie they were taken in charge by James Zan and wife, and not only the pimples, but the wrinkles too have disappeared, as has also Mrs. Zan's large crop of spring poultry. ONE EYED RILEY. County Schools. Number of persons residing in the county June 23, 1904, between four and twenty years of age: male, 1,377; female, 1,225; total, 2,602. Number of pupils of school age on register: 1039 males, 978 females; total 2017. Number of pupils under six years of age on register: male, 17; female, 11; total 28. Number of teachers employed during the year 126; female 108, male 18. Teachers holding state certificates or diplomas, male 5, female 21. Number holding first grade certificates male 6, female 28. Number holding second grade certificates, male 2, female 22. Number holding third grade certificates, male 3, female 4. Number holding permits, male 2, female 33. There are no teachers holding primary certificates employed in this county. Eighty-seven of the teachers in the county hold institute certificates of attendance last year. During the past year there were 35 applicants examined for certificates and 8 persons were examined and failed to pass. One hundred and two of the teachers employed in the county take a teachers journal, or educational paper. Number of persons between the age of four and twenty years not attending school, 754; female, 330, male 394. Sixty-four pupils attended school outside of own district. Whole number of days attendance during the year, 158,422. Average daily attendance, 206. There are 56 school districts in the county, all of which report. Total number of school voters in county, 1,393. There are 56 school buildings in the county. Average number of months taught during the year 5.41. School Superintendent made 52 official visits during the year. FINANCIAL STATEMENT. Cash on hand June 15, 1903. \$8,256 34 Received from county treasurer from district tax. 4,496 54 Received from county treasurer from county school fund. 18,941 80 Received from county treasurer from state school fund. 4,200 00 Received from rate bills and tuition. 133 95 Received from sale of bonds and warrants. 2,000 00 Received for library from other sources. 83 15 Received from all other sources. 292 23 Total. 39,464 10 DISBURSEMENTS. Paid for teacher's wages. 16,346 81 Paid for rent of rooms and site. 25 00 Paid for fuel and school supplies. 1,337 90 Paid for repairs and improvement of grounds. 3,276 42 Paid for new school houses and sites. 150 00 Paid on principal and interest of bonds and warrants. 760 04 Paid for insurance. 79 25 Paid for clerk's salary. 543 67 Paid for all other purposes. 834 91 Total. 23,890 98 Cash on hand. 14,573 12 GENERAL. Estimated value of school houses and grounds. 36,375 00 Value of school furniture and apparatus. 10,033 00 Amount of insurance on houses and other property. 22,030 00 Average monthly salary of male teachers. 49 35 Average monthly salary of female teachers. 38 48 There are no blind or deaf persons of school age residing within Columbia county.

CIRCUIT COURT OFFICERS: THOMAS A. McBRIDE, District Judge; HARRISON ALLEN, District Attorney. COUNTY OFFICERS: R. E. HATTAN, Judge; St. Helens; H. HENDERSON, Clerk; St. Helens; MARTIN WHITE, Sheriff; St. Helens; CARPER LEE, Commissioner; Mist; H. L. COLVIN, Coroner; Marshland; EDWIN ROSE, Treasurer; St. Helens; A. T. LAWS, Assessor; St. Helens; I. H. COPELAND, School Supt.; Houlton; W. T. WATTS, Surveyor; Scappoose; H. B. CLIFF, Coroner; St. Helens.

CHURCH AND CLERGY. Right Rev. Robert MacPry, Episcopal archbishop of Rupert's Land and primate of Canada, died in Winnipeg, aged seventy-three. One of the most popular preachers in Savannah, Ga., is Rev. Lincoln McConnell, now of the Methodist church, but formerly prosecuting attorney of Atlanta. Before that he had been a detective. It is said that the Church of England authorities are about to introduce a new "order of readers" into the church, and in the near future the English church will recognize a "minister" who is above a layman and beneath a minister who has received orders. Fifty-three women have been regularly ordained and are doing the full work of ministers. Forty-five of the fifty-three are married, although some of them were ordained before marriage. Most of them have independent parishes, where they preach, make pastoral visits and officiate at marriages and at funerals. BASE HITS. The New York Nationals have dropped Pitcher Jerry Nops. The Boston Nationals have sold Pitcher Malarky to Columbia. Manager Hanlon took his Brooklyn players to Columbia, S. C., for spring training. Ed Abbatello's future has been settled for the present, the Boston Nationals having re-signed him. Barney Dreyfuss will pay Eddie Doheny's salary this year, although the great southpaw is hopelessly insane. Eddie Phelps has signed his contract to do the greater part of the backstop work for the Pittsburgs next season. Great things are expected of Odwell, the new Cincinnati outfielder. His long suit is on quick return of ground balls. Barney Dreyfuss announces that the Pirates will play no exhibition games this season "until after the pennant is clinched." LAW POINTS. The unauthorized insertion of the word "gold" before the word "dollars" in an instrument after its execution and delivery is held in Foxworthy versus Colby (Nebraska), 62 L. R. A. 303, to be a material alteration. A debtor has a right to prefer one creditor to another, and a creditor has a right to obtain a preference over the claim of another so long as it is not done to aid the debtor in hindering and delaying his creditors. (105 Ill. App. 634.) A seller under contract to deliver to the buyer a designated quantity of goods who delivers only a part, which are accepted, may recover the value of the goods delivered, less the damages sustained by reason of his failure to perform the entire contract. (122 Fed. Rep. 414.) CURIOUS CULLINGS. Much amusement is being caused in South Africa by the adoption by ladies of young calves as pets. A farmer in Addison, Me., has a sheep which last year yielded two fleeces, one as black as ink and the other as white as snow. Within the space of two hours an Illinois man was married, arrested and thrown into jail. His bride was so angered that she went on her bridal tour alone. Nature's infinite variety is well illustrated in the collection of photographs of snow crystals made during the past twenty years by Mr. W. A. Bentley of Vermont. He has now more than 1,000 photographs of individual crystals and among them no two alike. DIVORCE. With increased knowledge of the Mormon practice of matrimony people may begin to inquire about the Utah idea of divorce.—Omaha Bee. Great as is the scandal of Mormonism, it is not greater than that caused by the conflict of marriage and divorce laws among the states. It is only more openly offensive.—Chicago Inter Ocean. Dr. Dix of New York makes a happy and forceful characterization of those who follow Mormon doctrines and those among our so called upper classes with whom divorce is a habit when he says they practice respectively "simultaneous and consecutive polygamy."—Cleveland Leader. KOREA. Korea is about the size of the state of Nebraska, but it is thickly populated. Politically, socially, economically, the Koreans are little advanced in the arts of civilization. The fuel used in the capital of Korea is brushwood. In the streets there is a constant procession of ox carts laden with fagots of sticks. Korea, the bone of contention between Japan and Russia, has an area of 84,424 square miles and a population of 10,529,000, most of whom are of Mongolian stock. TWINS. Degenerate old England! They are issuing insurance policies against twins over there. Here we give premiums on 'em.—Boston Herald. A New York woman, aged twenty-six years, has thirteen children, all living at home. It seems unnecessary to state that she is not in fashionable society and that a considerable portion of her time is spent in the domestic circle.—Rochester Union and Advertiser.

THE GRANGE Conducted by J. W. DARROW, Chatham, N. Y. Press Correspondent New York State Grange. AGRICULTURAL SCHOOLS. The Grange interested in the Education of Boys From the Farm. A very important question is this: "How can we best inoculate the whole school system with the spirit and the knowledge essential to land culture?" One answer to this question may be to be in the establishment of agricultural high schools, and, if we mistake not, Minnesota is setting the example in this line of work. According to the New York Tribune, what is wanted is such a modification of our common school system that it shall point toward the farm rather than from it. There really is no innate difficulty in making botany and entomology, agricultural chemistry and elementary geology parts of the school course. Nor is there any reason whatever why a common school education shall not take in the study of birds and their value to the fruit grower. Geography and mathematics do not seem to us any more important studies than those we have named; nor are they any more adapted to the class of pupils found in our common schools. We believe it is true that every child is a born naturalist. He studies nature by instinct. The chief problem is how to provide a class of teachers better equipped to instruct in nature study. In Alabama it has been determined to have an agricultural school for each congressional district. Several counties thus come together to sustain special schools for teaching the science and art of agriculture. The Tribune is of the opinion that this comes pretty near the solution of the problem, and it seems far wiser to create congressional high schools for the distinct purpose of agriculture than to add annexes to a number of small colleges that are struggling for an existence. The course was to cover three winters of six months each, leaving the student on the farm during the six crop months. It is said that 82 per cent of the pupils remain in agricultural pursuits, while not less than 70 per cent go back qualified to be interested in farm work and to engage in it with success. One-third of the course of study pertains to those sciences that are closely related to agriculture, one-third to the art and science of agriculture itself, and the remaining one-third covers the usual high school course. End of Bitter Fight. "Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga. "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It cures all Coughs, Colds, and Throat and Lung troubles. Guaranteed by Perry & Graham. Price 50c, and \$1.00. Trial bottles free. Card of Thanks. We wish to extend our heartfelt thanks to all friends and neighbors who so kindly helped and sympathized with us during our late bereavement. FRED LOWE, LEOTA LOWE, ANETA CLARK, A. N. CLARK. Suicide Prevented. The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a tonic and nerve-will strengthen the nerves and build up the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by Perry & Graham. SUMMONS. IN THE CIRCUIT COURT OF THE STATE OF Oregon for Columbia County. J. M. Peebles, Plaintiff, vs. R. M. Peebles, Defendant. To Mrs. J. M. Peebles, the defendant above named: IN THE NAME OF THE STATE OF OREGON, you are hereby required to appear and answer the complaint filed against you in the above entitled suit by the first day of the next term of the Circuit Court of the State of Oregon for the County of Columbia, said date being on the 11th day of October, 1904, and following the expiration of the prescribed time in the order for the publication of this summons, and if you fail to so appear and answer for want thereof, plaintiff will apply to said Court for the relief demanded in said complaint: A dissolution of the marriage contract now existing between plaintiff and defendant and also the custody of Ruth Adelaide Peebles, the minor child of said marriage. This summons is published by order of Hon. Thomas McBride, Judge of the above entitled Court, made on the 26th day of July 1904, the date of first publication being Friday, August 5th, 1904. W. C. FISCHER, Attorney for Plaintiff. SUMMONS. IN THE CIRCUIT COURT OF THE STATE OF Oregon for Columbia County. Anna C. Malm, Plaintiff, vs. Ludvig Malm, Defendant. To Ludvig Malm, defendant above named: IN THE NAME OF THE STATE OF OREGON you are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before the 16th day of September, 1904, which day is the last day of the time prescribed for the publication of this summons, the date of first publication being August 5th, 1904, and if you fail to so appear and answer, for want thereof the plaintiff will apply to said court for the relief demanded in her complaint, to-wit: That the marriage contract existing between plaintiff and defendant be dissolved; that plaintiff have the custody of the children now living with her and for such other and further relief as the nature of this case may require and as to the court may seem equitable. This summons is published by order of the Hon. R. S. Hattan, County Judge of Columbia County, Oregon, made August 3rd, 1904. W. C. FISCHER, Attorney for Plaintiff.

P. OF H. Attention! POMONA GRANGE MEETS AT GOBLE Saturday, Aug. 6

THE GRANGE Conducted by J. W. DARROW, Chatham, N. Y. Press Correspondent New York State Grange. AGRICULTURAL SCHOOLS. The Grange interested in the Education of Boys From the Farm. A very important question is this: "How can we best inoculate the whole school system with the spirit and the knowledge essential to land culture?" One answer to this question may be to be in the establishment of agricultural high schools, and, if we mistake not, Minnesota is setting the example in this line of work. According to the New York Tribune, what is wanted is such a modification of our common school system that it shall point toward the farm rather than from it. There really is no innate difficulty in making botany and entomology, agricultural chemistry and elementary geology parts of the school course. Nor is there any reason whatever why a common school education shall not take in the study of birds and their value to the fruit grower. Geography and mathematics do not seem to us any more important studies than those we have named; nor are they any more adapted to the class of pupils found in our common schools. We believe it is true that every child is a born naturalist. He studies nature by instinct. The chief problem is how to provide a class of teachers better equipped to instruct in nature study. In Alabama it has been determined to have an agricultural school for each congressional district. Several counties thus come together to sustain special schools for teaching the science and art of agriculture. The Tribune is of the opinion that this comes pretty near the solution of the problem, and it seems far wiser to create congressional high schools for the distinct purpose of agriculture than to add annexes to a number of small colleges that are struggling for an existence. The course was to cover three winters of six months each, leaving the student on the farm during the six crop months. It is said that 82 per cent of the pupils remain in agricultural pursuits, while not less than 70 per cent go back qualified to be interested in farm work and to engage in it with success. One-third of the course of study pertains to those sciences that are closely related to agriculture, one-third to the art and science of agriculture itself, and the remaining one-third covers the usual high school course. End of Bitter Fight. "Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga. "and gave me up. Everybody thought my time had come.
