

# Hood's

Sarsaparilla is unquestionably the greatest blood and liver medicine known. It positively and permanently cures every humor, from Pimples to Scrofula. It is the Best.

## Blood Medicine.

**Blessed Be Business.**  
The ladies of the club were closely grouped about the speaker of the afternoon, a remarkably successful woman, in whom commercial and literary ability were admirably balanced.  
"Tell us, in a few words, how to be successful," said one of the ladies, insistently.  
"To be successful," said the successful one, "all we women have to do is to make as much of a business of our own business as we do of the things that are none of our business."

**Real Sport.**  
The ticket speculator entered the private office of the great manufacturer.  
"Now, sir," said the former, "let me sell you a season ticket to the baseball grounds."  
The great manufacturer shook his head sadly.  
"No," he sighed, "I'm only the boss. You'll have to see the office boy."

**An Important Personage.**  
Caller—Well, the nerve of that! Merchant—What?  
Caller—Didn't you hear that snip of a boy referring to you as "Bill"?  
Merchant—Sh! That's our office boy. So long as I can pretend I didn't hear him it's all right.—Philadelphia Ledger.

# ABSOLUTE SECURITY.

## Genuine Carter's Little Liver Pills.

Must Bear Signature of *Wm. Wood*

See Fac-Simile Wrapper Below.

Very small and as easy to take as sugar.

**CARTER'S LITTLE LIVER PILLS.**  
FOR HEADACHE.  
FOR DIZZINESS.  
FOR BILIOUSNESS.  
FOR TORPID LIVER.  
FOR CONSTIPATION.  
FOR SALLOW SKIN.  
FOR THE COMPLEXION.  
GENTLE AND PURELY VEGETABLE.  
CURE SICK HEADACHE.

P. N. U. No. 31-1904.  
WHEN writing to advertisers please mention this paper.

**The Theory.**  
"This health food doesn't do any good," asserted the irate customer.  
"Perhaps you overlooked the first rule relating to its use," suggested the grocer.  
"What's that?"  
"First get your health. You don't seem to understand the theory of it. You wouldn't get dog biscuit unless you had a dog, would you?"  
"No."  
"Or birdseed unless you had a bird?"  
"No."  
"Then what are you doing with health food before you get health?"  
"But if I had health I wouldn't need it."  
"Well, that's your lookout."

**Proved Beyond a Doubt.**  
Middlesex, N. Y., July 25.—(Special)—That Rheumatism can be cured has been proved beyond a doubt by Mrs. Betsey A. Clawson, well known here. That Mrs. Clawson had Rheumatism and had it bad, all her acquaintances know. They also know she is now cured. Dodd's Kidney Pills did it. Mrs. Clawson tells the story of her cure as follows:  
"I was an invalid for most five years caused by Inflammatory Rheumatism, helpless two-thirds of the time. The first year I could not do as much as a baby could do; then I rallied a little bit and then a relapse. Then a year ago the gout set in my hands and feet. I suffered untold agony and in August, 1903, when my husband died I could not ride to the grave.  
"I only took two boxes of Dodd's Kidney Pills and in two weeks I could wait on myself and saw my own wood. I dug my own potatoes and gathered my own garden last fall. Dodd's Kidney Pills cured me."  
Rheumatism is caused by uric acid in the blood. Dodd's Kidney Pills put the kidneys in shape to take all the uric acid out of the blood.

Does it pay to save five per cent of your income by economizing on your vacation this year and break down next year from the continued strain and be obliged to pay 50 per cent for doctor's bills, besides the time lost in enforced idleness?—Success.

**FITS** Permanently Cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for Free 62 Trial Bottle and Testimonial. Dr. R. H. Kline, Ltd., 282 Arch St., Philadelphia, Pa.

If a folded bed must be used, contrive some way to keep it aired and wholesome.

**\$100 Reward, \$100.**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.  
Address: F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.  
Hall's Family Pills are the best.

A scheme for the establishment of a permanent wireless service between Sweden and Germany is near realization.

For forty years Fiso's Cure for Consumption has cured coughs and colds. At druggists. Price 25 cents.

Several species of ants keep cows, the aphid answering the purpose, and milk them at regular intervals.

### WORLD'S FAIR SCULPTURE.

"THE SPIRIT OF THE PACIFIC."  
Some of the heroic statuary at the St. Louis world's fair is very beautiful. One of the most exquisite is "The Spirit of the Pacific," by Isidore Koutl.

### BREAD IN PARIS.

**The Manner of Making It Takes Courage to Inspect.**  
I have never had the courage to personally inspect. I only know that instead of being fabricated in the home or in great, clean, sanitary factories as in the United States, it is made somewhere in the bowels of the earth under the small bake shops.

"I would no more dare go down into one of these bread kitchens than I would dare ask my cuisiniere how many times in her life she has had a whole bath. I have seen enough at the counters where bread is sold to get the French point of view concerning bread, which is even worse than the French point of view concerning literature.

"Just as I am writing I glance across the street into a bakeshop opposite, and I see a woman dusting off a pile of bread in the window with a feather duster. They have absolutely no sense of any difference between bread and wood and coal, and they deliver it at one's home accordingly. It is never wrapped, and in pushcarts made of slats or in great openwork baskets it is heaped less carefully than wood or coal indeed, because bread is easier to buy than wood or coal in Paris. The carts or baskets are pushed or carried by women wearing stout, blue aprons covering them from neck to knee, which aprons, like the sheets on a French bed, are changed perhaps as often as once a month. Arrived at a house where bread is to be delivered, the open cart or basket stacked with the staff of life is left in the road for the femmes de chambre all around merrily to shake down upon it anything they will, while the woman mounts to one's apartment carrying the day's ration of petits pains bundled up in her apron, and the two long, thin loaves of bread, unwrapped, of course, one under each arm."—Harper's Bazar.

**Numbers in Early Days.**  
In a paper read before the Philological Society of the University of Michigan recently, Prof. George Hempf commented upon the forerunners of our present system of numeration. Some two years ago, in seeking the origin of the Runic letters (the first letters used by the Germanic races), Prof. Hempf discovered the primitive Germanic numeral notations. This threw new light upon the early Germanic numeral system, as well as upon the primitive Indo-European numeral system and upon the development of the Greek alphabet and the Greek numeral notation.

The primitive Indo-European numeral system was a mixture of the decimal and the sexagesimal. The first large number was the "shock"—that is, sixty—and the next large number was the "hand," or "hundred," that is 120. Between 60 and 120 there were no numbers like our 70, etc., 70 being "a shock and 10," and 80 being "a shock and 20." The introduction of our present numbers between 60 and 120 arose out of the introduction of the decimal hundred or hundred, that is, 100, in distinction from which the old hundred (120) was called the duodecimal hundred, or the "great hundred," which is still used in Iceland and parts of England.

**Mistook the Motive.**  
An old man was sitting in the street-car. In the aisle near him stood a young woman. He made a movement to rise, said the Detroit News, as if to give her his seat.  
"Never mind, sir," said the young woman, imperatively. "Just keep your seat."

She smiled patronizingly on the old man, who stared and looked dazed. After two blocks more he again attempted to rise, but the young woman pushed him back, explaining politely, "I've stood so long now I don't mind it. Please keep your seat."  
"I say, young lady," cried the old man in shrill irritation. "I want to get off! You've made me go half a mile past my street already."

**Hearing a Fly Walk.**  
It is said that a fly makes 400 strokes per second with its wings, and it has been proven that by the use of the microphone you can hear a fly walk.

Lockjaw, or tetanus, is caused by the development in the body of the tetanus bacillus, a germ living in the soil in many places, especially in city streets, round barns and stables and in pastures. This bacillus does not grow readily when exposed to the air, so there is usually little danger of lockjaw following large wounds. The danger lies in the punctured wounds, the ragged wounds, and often also the seemingly trivial wounds which heal rapidly, and so seal up the tetanus germ away from the air; there it finds the conditions most favorable to its development and the manufacture of the nerve poison which causes the symptoms of this terrible disease. Such being the case, the treatment of little wounds from pistols, torpedoes and crackers is to make them bigger. This requires some courage on the part of the doctor, and the more courage the smaller and apparently more insignificant is the wound, and parents ought not to increase his trial by pleading against the necessity of cutting deeply into the wound, opening it widely and washing it out thoroughly with antiseptic solutions. It is only in this way that the danger of lockjaw can be reduced to a minimum, and even this in exceptional cases does not prevent the disease.

The modern treatment for this disease is the injection of tetanus antitoxin. Even this may fail if injected simply under the skin or into the muscles, and the antitoxin has occasionally been injected into the sheath covering the spinal cord, or even beneath the membranes of the brain, so that it may the more directly reach the nerve centers chiefly affected by the poison.

### WAS NEVER ABSENT OR TARDY.

**NELLIE J. McMILLIN.**  
The proudest day in the life of Nellie J. McMillin of Rushville, Ind., was when the County Board of Education presented her with a gold medal for punctual school attendance. Miss McMillin is 16 and has attended school since she was 5, and in all that time she was never absent or tardy. The last four years she has lived in the country, which made punctual attendance a serious matter, but her record is unbroken. She has graduated now.

**English Bard Was Right.**  
Dramatic critics and commentators have long been puzzled to account for the fact that Shakespeare placed the scene of "Hamlet" at Elsinore, in the island of Zealand, whereas the Danish prince lived and died in Jutland. But just recently the municipal authorities at Elsinore, or Helsingor, have discovered in their archives that an English company was acting in their town in 1587 or 1588, and among the names of the actors are several of those who were acting with Shakespeare in London in 1589.

Obviously, these actors must have talked about their adventures in Denmark, and so Shakespeare became well acquainted with Elsinore, and, when he wrote "Hamlet," naturally placed the scene in a place which he knew by description rather than in an island of which he knew nothing. The poet was no great stickler for accuracy in geographical matters and this visit of the English actors plausibly explains the reason why the tragedy of "Hamlet" was placed in Zealand and not in Jutland.

**Cure for Indigestion.**  
Scientific investigation has discovered that that troublesome disease, dyspepsia, can be cured by short intervals of exposure to intense cold, followed by hearty eating. M. Raoul Pictet, a Swiss gentleman, was experimenting with a low temperature. He had produced an artificial temperature in a sort of pit which caused the thermometer to sink to 140 or 150 degrees below zero. Among other experiments he exposed himself for a brief interval to this temperature by lowering himself into the pit. On emerging he found himself intensely hungry and ate freely. The process was repeated several times, and as a result he found himself cured of chronic indigestion, from which he had suffered for years.

**Willie's Definition.**  
Teacher—Willie, you may construct an original sentence containing the word "Hominy."  
Willie Broadhead (after a season of stressful cogitation)—Hominy days DU the Fourth o' July?

### A BEAUTIFUL YOUNG SOCIETY WOMAN'S LETTER.

St. Paul, Minn., 521 Wabasha St.  
Dr. Hartman, Columbus, O.  
Dear Sir: "I took Peruna last summer when I was all run down, and had a headache and backache, and no ambition for anything. I now feel as well as I ever did in all my life, and all thanks is due to your excellent Peruna."—Bess F. Healy.

The symptoms of summer catarrh are quite unlike in different cases, but the most common ones are general lassitude, played-out, tired-out, run-down feelings, combined with more or less heavy, stupid, listless, mental condition. Relish for food and the ability to digest food seems to be lost.

Skin eruptions, sallow complexion, fitfulness, coated tongue, fitful, irregular sleep, help to complete the picture which is so common at this season.

Peruna so exactly meets all these conditions that the demand is so great for this remedy at this season of the year that it is nearly impossible to supply it.

Peruna Contains No Narcotics.  
One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring the drug habit.

Thousands of women suffer from pelvic catarrh and catarrhal nervousness and don't know it. If you feel fagged out, begin at once taking Dr. Hartman's Peruna. It will relieve your catarrhal affliction and all your organs will be restored to health. Buy a bottle today, as it will immediately alleviate your case.

Salt rubbed on the black spots on dishes will remove them.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

The minimum rainfall at which trees will grow is twenty inches.

### PRICES THAT TALK.

Threshers and Sawmill Men Note! 150 ft. Endless Lined Sifted, Heavy Canvas, 4 ply, 7 inch Belting, \$7.00. 150 ft. 4 inch wide, same as above, \$2.25. Tank Pumps complete, with 18 ft. 2 inch Suction Hose, 10 ft. Discharge Hose, with nozzle and strainer, \$10.00. Belting, Hoses and Packing at wholesale prices. General Agency for Parsons Hawkeye Self Feeder, Luan single mill, run only 40 days, at a bargain. Write for catalogue.

# SSS KILL THE SERPENT

The worst disease the world has ever known, and the greatest scourge to the human race, is Contagious Blood Poison. One drop of the virus of this most horrible of all diseases will pollute and vitiate the purest, healthiest blood, and within a short time after the first little sore appears the system is filled with the awful poison and the skin breaks out in a red rash; the glands of the groins swell, the throat and mouth become ulcerated, the hair and eyebrows drop out, and often the entire surface of the body is covered with copper-colored splotches and sickening sores and eruptions. Contagious Blood Poison is as treacherous and elusive as the serpent. You may be carrying it in your veins with no visible evidences of its existence; for while mercury and potash seem to cure and all external signs disappear, the disease is doing its destructive work within, or the patient is constantly harassed by returning symptoms and unmistakable traces of the blood poison. Thousands of physical wrecks and chronic invalids from the effects of Blood Poison know the uncertainty of the mercury and potash treatment—that it stifles but does not kill the serpent. As long as there is life in the serpent there is danger in its fangs; and while your blood is tainted there is danger of infection. Safety lies only in crushing out the life of the loathsome disease and killing the serpent. For many years S. S. S. has been known as an antidote for Blood Poison. It is a remedy composed entirely of vegetable ingredients, and we offer \$1,000 for proof that it contains the least particle of mercury, potash or other mineral. It thoroughly purifies the blood, improves the appetite and digestion, and tones up all parts of the system. In chronic and long-standing cases of Blood Poison, S. S. S. acts promptly and without leaving any bad after-effects.

After suffering twelve years from Contagious Blood Poison, and trying the best physicians obtainable, and all the patent medicines procurable, and steadily continuing to grow worse, I gave up all hope of recovery, and physicians pronounced my case incurable. Hoping against hope, I tried S. S. S. I improved from the first bottle, and after taking twelve was cured sound and well, and for two years have had no return or symptom of the vile disease.  
Warsaw, N. C.  
E. M. REGISTER.

Write us about your case, and our physicians will advise without charge, and we will mail you free our home-treatment book telling all about Contagious Blood Poison and its different stages and symptoms.
