Sombody has unearthed from the files of the Scientific American this little item, of present interest, which was printed in the issue of September 2, 1889: "In cutting some timber in Omaha, a few days since, a bullet was found imbedded in the trunk of a rock elm. The grains which had overgrown it shows it must have been deposited there sixty-two years ago, a time when the country had not yet been visited by white men except the employers, Lewis and Clark."

The Oregonian is tickled to death at the conviction of Senator Mitchell. The personal vindictiveness of Harvey Scott, in our opinion, had more to do with that miscarriage of justice than anything else. The evidence intentional wrong-doing, the essence of crime, was sadly lacking, and withstanding the verdict of the jury those who have known the aged Senator and have knowledge of his conduct as a public official, are shocked and pained at the great injustice done him.—Seaside Signal.—Wouldn't that jar you?

Do You Want Strength?

If you want to increase your strength you must add to and not take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nerves, blood and tissues before being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up strength in the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. Sold by Bailey & Brinn.
