No woman can look beautiful without good health. A woman's good health depends on those organs peculiarly feminine, and which so often become disordered, causing misery and dragging-down pain. Nature's laws are perfect, health endures if you obey them, but disease follows disobedience. The distressing complaints of women are often brought about by catching cold at a critical period, breathing foul indoors' air and long hours of work and nervous tension. Go straight to Nature for the cure—to the forest. Dr. Pierce's Favorite Prescription is Nature's cure for the distressing complaints of women. Prof. King, M. D. in his American Dispensatory, says of Black Cohosh or Black Snake-root—"our early American Indians set a high value on this root in diseases of women. It is surpassed by no other drug, in congestive conditions of the parts where there are dragging pains and tenderness."

Lady's Slipper root is a "nerve stimulant and tonic, improving both circulation and nutrition of the nerve centers—favoring sleep and cheerful condition of the mind; of service in mental depression, nervous headache, irregularities of women with despondency."—Prof. King. Besides the above ingredients there are—Golden Seal, Unicorn and Blue Cohosh roots in Dr. Pierce's Favorite Prescription.

Dr. Pierce's Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Over 100 pages and illustrated. Address Dr. R. V. Pierce, Buffalo, N. Y.

The proper officer should enforce the Curfew ordinance. Many boys and girls under the age limit are on the streets every night hearing and seeing the vileness always present in certain places in our town. The moral welfare of these young boys and girls requires that they be kept off the streets at night. Parents are as much to blame as the officers for this state of affairs but both should see that the children are at home at the right time.

We believe a good stage line between Rainier and Clatskanie is feasible and would pay the proprietor well. Parents who provide their children with air guns and "22" rifles should also provide them with enough common sense to pound sand through a knot hole, some Rainier parents have done the former but not the latter, and there should be some means devised where-by not only the child but the criminally negligent parent could be adequately punished. In the first place a child under the age of sixteen years should not be allowed to own or have in their possession such a dangerous plaything as mentioned above and their confiscation by the proper officer should be provided by law, second any parent who is fool enough to place such a deadly plaything in the hands of a child should be heavily fined or sent to the "bug house" or both according to how much undeveloped intelligence they possessed.
