

Economy

Is a strong point with Hood's Sarsaparilla. A bottle lasts longer and does more good than any other. It is the only medicine of which can truly be said 100 DOSES ONE DOLLAR

Reimburse His Only Capital.
The clothing of a sailor is practically his complete outfit for work, and without this he is unable to join his vessel properly equipped for duty.
Because of this fact Congress passed a law providing a penalty for refusing to give up the clothes of a seaman whenever he demands them. This law was not as effective as it should have been, and a new law has been passed recently which provides that a person who shall keep any seaman's clothing, when demanded, shall be deemed guilty of a misdemeanor, and shall be imprisoned not more than six months or fined not more than \$500, or both.

A seaman, not a deserter, in any part of the United States has a right to demand his clothes at any time, and if he does not receive them he can call upon any United States district attorney, who will secure them for him and inflict a penalty upon the person detaining them.

Numerous Pictures.
Baron—I see the Baron has two oil paintings in one of his rooms.
Egbert—They are his ancestors, I suppose.
"But in another one close by there are hundreds of pictures."
"Yes, no doubt they are his creditors."

Shells filled with oil, intended to calm a stormy sea when fired into it, have been invented in France.

It is usually safe to judge a woman by the things she doesn't say.

Women have a queer way of doing things and men have a queer way of not doing them.

He that reigns within himself, and rules his passions, desires and fears, is more than a king.—Milton.

Many a man's winning ways are due to the way he deals the cards.

MALLEABLE IRON STUMP PULLERS

Patent, lightest and strongest Stump Puller on the market. 115 Horse power on the sweep with two horses. Write for descriptive catalog and price.

FARMS AND FARMERS

Free Seed Distribution.
The annual protest of seed men against free distribution of seed by the Department of Agriculture, has been sent to the President. It is signed by twenty-nine seedsmen, embracing the whole territory between the Rocky Mountains and the New England coast. The protest states that the original intention of the law was to obtain seeds unknown in the United States that might prove valuable, and in this way increase our agricultural productions, but that this statesmanlike proposition has been grievously distorted, with the result that in the main the most common kinds of garden seeds have been distributed.

No doubt a great abuse has crept into this matter of free seed patronage. It has been used by a great many unscrupulous politicians to make themselves solid with certain voters. Like all other public questions, there are two sides. The distribution of sugar beet seed grown on the Pacific coast for experiment all over the country is a good feature that will offset some of the undesirable ones. Not all the seeds distributed are common garden truck.—Field and Fireside.

Feeding Cottonseed Meal.
Many mistakes are made in the feeding of cottonseed meal, feeders forgetting for the moment that it is an extremely concentrated food and needs a pretty strong stomach to handle it; hence it should be fed sparingly to young stock. As a food by itself it will not do for any considerable period, but as one of a mixture it has great value even at a price as high as \$35 a ton, provided the other grains used are not too high in price. A fine mixture is corn meal, the grinding of the corn and the cob together and the cottonseed-meal. Or, bran may be used when the corn is ground without the cob but in the latter case the ratio should be two parts of the cottonseed meal to one part each of the corn meal and the wheat bran.

Home-Made Corn Cutter.
A New England paper gives this as an idea coming from Australia. The device is not exactly new, as it has been in use and described in America here and there. The implement is

Amount of Corn Required.
It is well enough to lay down the rule that ten pounds of corn will make one pound of pork, but rules may not give the results expected unless applied under certain conditions. Some breeds of hogs will produce more pork on the same food than others, and even with a selected breed there will be some individual animals that will increase more rapidly than others. In the winter season, if the hogs are exposed, twenty or thirty pounds of corn may be required to make a pound of pork. Care and management are important, as well as breed and food.

Hoister for Wagon Box.
For main post (A) use scantling 4x4; top piece (B) use 2x4; for brace (C) 2x4; length and height as desired; have brace (C) on both sides; use common wood windlass (D) with inch rope.

Cost of Putting Up Silage.
The question is often discussed as to the cost of putting up silage, says Michigan Farmer. From a large number of records kept among Illinois farmers it was found to cost about 50 cents per ton. In some cases the cost was as much as 76 cents per ton, while in others as low as 35. In filling a Michigan silo this season where the horn was heavy and had to be hauled about 100 rods to the silo it cost 37 cents per ton. The cost should vary with the distance the silage is to be hauled. If silage is to be put up economically an ensilage cutter should be used that will take the corn and handle it rapidly.

Germany a Good Customer.
Germany is a good customer of agricultural America, especially her crops and products of the South. Last year she bought raw cotton to the value of \$109,000,000; oil cake and cottonseed meal, \$4,100,000; lard and oleomargarine, \$17,000,000; raw tobacco, \$5,000,000; corn, \$7,200,000; wheat, \$3,000,000.

Farm Problems.
What do you do for thumps in pigs?
When is the best time to water a horse?
What does it cost to produce a pound of beef?
How much grain and hay should a work horse be fed?
What weight cattle command the best prices on the market?
How does the cost of raising a colt compare with that of raising a steer?
How does the stomach of the horse compare with that of the steer in size?
How much gain in weight should you make for every bushel of corn fed to steers or hogs?
How great a spread between the price paid for feeders and the selling price is necessary to show a profit?

Danger of Realism.
David Belasco was talking about stage realism.
"It may go too far," he said. "It is a dangerous thing."
He smiled.
"A stage manager," he said, "once had a subordinate with realistic ideas. The manager was producing a play containing a snowstorm and the subordinate had charge of the snow."
"Confound you!" said the manager, at the end of the snowstorm scene. "What on earth did you mean by making the snow out of brown paper?"
"Ain't the scene laid in London?" asked the other.
"Yes, but what of that?"
"Well, that's the color of London snow."—Philadelphia Bulletin.

Luncheon Oysters.
Pick over one dozen large oysters, strain the liquor and measure it; there should be a half a cupful. Add this to the oysters with one tablespoonful of salt, two tablespoonfuls of butter, one-half of a tablespoonful of tomato ketchup, and two tablespoonfuls of chopped green or red peppers. Turn into a flat dish and cook in a hot oven until the edges of the oysters curl, then pour over buttered toast.

Ether was first used in surgical operations in 1846.
The Race Question
Is a problem that has puzzled the profoundest minds for many years. The best thing for the human race to do is to eat Pillsbury's Vitox for breakfast.

No Cause for Alarm.
"I see there are a couple of oil magnates in the audience," said the minister to the doorkeeper at the lecture; "give them back their money. I won't have any tainted money!"
"You needn't worry," replied the doorkeeper; "they both came in on free passes!"

It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, and heals. Sold for 60 years.
"Ayer's Cherry Pectoral has been a regular life preserver to me. It brought me through a severe attack of pneumonia, and I feel that I owe my life to its wonderful curative properties."—WILLIAM H. TRUITT, Wawa, Pa.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of SASSAPARILLA PILLS, HAIR VIGOR.

Hasten recovery by keeping the bowels regular with Ayer's Pills.

How to Exercise the Bowels

Your Intestines are lined inside with millions of little suckers, that draw the Nutrition out of food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition.
This Poison makes a Gas that injures your system more than the food should have nourished it.
You see, the food is Nourishment or Poison, just according to how long it stays in transit.

They do not waste any precious fluid of the Bowels, as Cathartics do.
They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine.
They simply stimulate the Bowel Muscles to do their work naturally, comfortably, and nutritiously.
And, the Exercise these Bowel Muscles are thus forced to take, makes them stronger for the future, just as Exercise makes your arm stronger.

Cascarets are as safe to use constantly as they are pleasant to take.
They are purposely put up like candy, so you must eat them slowly and let them go down gradually with the saliva, which is in itself, a fine, natural Digestive.
They are put up purposely in thin, flat, round-cornered Enamel boxes, so they can be carried in a man's vest pocket, or in a woman's purse, all the time, without bulk or trouble.
Price 10c a box at all druggists.
Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil.
This merely makes slippery the passage for unloading the current cargo.
It does not help the Cause of delay a trifle.
It does slacken the Bowel-Muscles more than ever, and thus weakens them for their next task.
Another remedy is to take a strong Cathartic, like Salts, Calomel, Jalap, Phosphate of Sodium, Aperient Water, or any of these mixed.
What does the Cathartic do?
It merely flushes-out the Bowels with a waste of Digestive Juice, set flowing into the Intestines through the tiny suckers.

But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it.
That's why Cascarets are the only safe medicine for the bowels.

FREE TO OUR FRIENDS!
We want to send to our friends a beautiful French-designed, GOLD-PLATED BUNBON BOX, hard-enamelled in colors. It is a beauty for the dressing table. Ten cents in stamps is taken as a measure of good faith and to cover cost of Cascarets, with which this dainty trinket is loaded.
Send to-day, mentioning this paper. Address Sterling Remedy Company, Chicago or New York.

PISO'S CURE FOR CONSUMPTION

CURES WHERE ALL ELSE FAILS
Best Cough Syrup. Cures Croup, Whooping Cough, and all Bronchitis. Use in time. Sold by druggists.
