Messrs. Wilson and Dallas started Wednesday for Lost Lake, prepared to lay their axes against all impediments to travel in the shape of brush and logs and to cut out a good trail. It is seldom this economyary disposition crops out in any one, but Wilson and Dallas can't help it because they are built that way.

The *Times-Mountaineer* having the largest circulation of any paper in the county, was at the last session of the county commissioners awarded the county printing.

Mrs. Dimmick came in from Mt. Hood Thursday and went to The Dalles to make a filing on her claim, part of which, it seems has been filed or by a Mr. Dickerson.

James B. Hunt was at M. B. Potter's Wednesday to do some papering. He has the Henry house about finished and it is unnecessary perhaps to add that the work is well done.

The Dalles Navigation Company has purchased the unfinished steamer Myrtle at Portland to run in connection with the Regulator. They expect to be on the route surely next month.

We have not received notice of the marriage of Bert Graham and Miss Belle Foster, but as he went to Vancouver for purpose of getting married, it is more than probable they are now one.

Messrs. Field, Ferguson, Markham and Snyder, went to Lost Lake Thursday, for a weeks fishing. This need not deter others from making the trip, for it is not probable that they will catch all the fish.

Friday morning a barge loaded with wood, while passing the mouth of Hood river lurching throwing a tier of wood overboard. This landed her so badly that she put into the Washington shore to balance up her load.

Mr. A. R. Byrket arrived at White Salmon from the east, last week, accompanied by a friend Mr. Phelps. They are at present on a hunting expedition at Mt. Adams, with Billy McCoy as guide and master of ceremonies.

Mr. Frame and a party of friends went out to the forks of the river Wednesday, for a months camping. The place is a delightful one, and from present indications there will be a small colony camped there during the summer.

Superintendent Troy Shelly gives notice that a Normal Teachers Institute will be held at The Dalles, commencing August 24th, and continuing for one week. It will be conducted by J. H. Ackerman and W. A. Wetzel, of Portland.

It is seldom a young man's heart palpitates hard enough to break his watch crystal, but when it does, his best girl can wager her galleons, that he is hers alone. This does not necessarily apply to anyone here but still it might.

The latest fad of the irrepressible tourist, who is in a hurry to see the big world, is to come up from Portland on the boats arriving here about 4 o'clock, and taking the 6:30 train back. They thus get to see all the magnificent scenery of the Columbia.

The water pipes are laid down Oak street and the annoying shutting off of the water is at an end. The new mains will furnish an abundant supply, and this will amply repay the patient waiting of consumers while the changes were being made.

The Postal Inspector visited Hood River Thursday, and speaks in the highest terms of the office, and the manner in which it is conducted. He will strongly urge an increase of salary, on account of this office having so much distributing work.

The directors of this school district have extended the time for paying taxes until next Wednesday evening, at which time the assessment roll will be turned over to the sheriff. Those who think their taxes are heavy enough without paying additional costs will settle before that time.

Complaint is made that some of our town boys are in the habit of singing songs the like whereof is not found in Watt's hymns, and otherwise making themselves obnoxious. These complaints will be examined by the legal authorities, if the offense is not stopped, and we hope the boys will not need any further admonition.

Mr. E. Winans showed us some timothy stalks grown on the high ridge between the forks of the river, without irrigation. They measured 5 and a half feet in length, and were from the second years crop. If the hills will produce this kind of grass, Hood River will be the greatest dairying section in Oregon.

For the benefit of our local sportsmen, as well as of those who make a raid on our pheasants and grouse, we call attention to the fact that the last legislature passed a bill extending the close season, and that it is now unlawful to kill these birds before the first day of September. More than this, there is a general determination to prosecute all who violate the law.

Blowers & Crowell has just received direct from the manufacturers in Boston \$3,000 worth of boots and shoes, thereby cutting off the commissions paid middlemen, which will be saved to their customers. These goods will be retailed at Portland wholesale prices or less, and as they are now opened, we invite the public to call and examine them, and be convinced that we mean exactly what we say.

The Union Pacific managers have at last taken a tumble to themselves since the Rowena trestle burned, costing \$18,000 in money and a large amount of annoyance; and have put sixty watchmen on the road between Troutdale and The Dalles. This costs \$3000 per month, but is much cheaper, and far more satisfactory than paying for bridges, and making the public tired of travelling over the road—or around it.

Virtue hath its own reward, and laziness sometimes gets the same. This truism is repeated because Grant Evans recently proved it. He went down the river with some other boat riding, and there being no wind Grant walked home four miles rather than pull the boat. When about half way a breeze sprung up, and the party sailed merrily by him, leaving him to trudge it out.

The Ladies Aid Society will give a lawn party at Mrs. C. J. Hunt's next Wednesday evening. Ice cream and cake fifteen cents. Everybody invited.

The salmon run is reported to be good, and getting better every day. Last year the run was late and this year still later, and it looks as if the chinooks had learned the combination, and planned to get up the river during the close season. If the run will hold good until the expiration of the season, the owners of the fish wheels can yet make a fortune this year.

We learn from Mr. Kennedy of Chenoweth, that the body of John Johnson was found back of his cabin last week. Mr. Johnson worked for Mr. Ordway, and as there is no known cause why he should take his life, it is presumed that he shot himself accidentally. When the body was found it was evident that death had occurred several days before. The coroners jury have since writing the above found a verdict in accordance with the statement.

Mrs. A. R. Byrket presented this office with a basket of splendid fruit from their White Salmon orchards Thursday. There were several kinds of plums, all delicious, apples finer than Pomona ever dreamed of, and luscious peaches almost as large as a base ball. When White Salmon makes such a showing as this, it is time for Hood River to look to her laurels. Mr. Coleman who brought the fruit over tells us the peaches were grown on trees planted last year, and not much bigger than a walking stick.

The Falls District a Good Grass Country.  
Union Falls, July 13th, 1890.

ED. GLACIER:  
I have been experimenting on the driest and rockiest land we have, with different kinds of grass, without irrigation, and have been rewarded with the best success. I send you two specimens of timothy, one in the second year, raised by E. W. Winans, measuring 5 feet 6 inches high, and the other was sowed last fall by the writer, and measures 4 feet 7 inches high. The best heads measure 5 1/2 inches. We have grass in swale lands and moist places that beats this 50 per cent, but this grass was sown on the driest places to see if it would be a success on all the land, and we finally believe that from the Falls to the foot of Mt. Hood there is present at all times in the soil or air, sufficient moisture to insure good crops of hay and grain, as well as all kinds of fruit. We had a great down-pour of rain on the 10th inst., and all kinds of garden stuff are growing luxuriantly. In testing grasses I sowed some tall oat grass, so called by D. M. Ferry, and it beats timothy so bad that the latter "isn't in it" at all for this country. It flourishes in the driest soil without irrigation, has a much heavier foliage than timothy, and seems to be evergreen. When eaten down close to the ground by stock the stubble keeps green, growing continuously. D. M. Ferry says it is evergreen in the southern states, and three crops can be cut from it each year. Stock here prefer it to timothy. This entire county can be covered with an evergreen mantle, at least through the milder weather, by the aid of this grass, if it holds out as well as it did in the test I have made. I am also experimenting with another plant which bids fair to beat the oat grass. There are thousands of acres of good government land near this place that people can make good homes on; many tracts with good springs and streams on them, and the wonder is that it was not all taken long ago. All that is lacking to make this country thoroughly prosperous is a railroad to the forks of the river, and a big saw-mill there to cut the forest into lumber. The Forks is the first place in the valley where all the timber can be bogged together, and it has enough water power to run all the machinery in the north-west.

W. H. Winans.

A Musical Treat.  
There will be an excellent concert at the Riverside Congregational church next week, Thursday July 23rd, at 8 o'clock, p. m., in which both home and Portland talent will participate. It is impossible to give a full program this week, but the character of the entertainment will be of the best. There will be violin, violoncello, and piano trios, and violin, violoncello, and vocal solos, also duets and quartettes. It is also hoped that a ballad horn solo will be secured for the entertainment. The services of Miss Mamie L. Lippincott of Portland, for the violin, and H. P. Flint, of Oakland Calif., for the violoncello, have been secured. Those desirous of attending will have a chance to secure their seats next Wednesday morning at ten o'clock at the church. Don't forget the date and hour.
