Jack Frost made us a call Wednesday morning and it is feared that he stole considerable fruit and early garden "suss."

We have some fine farm properties for sale and those desiring to purchase in the neighborhood will do well to give us a call. Dr. F. C. Brosius, having succeeded to the medical practice of Dr. E. J. Thomas, can be found at the drug store day or night.

Commencing Thursday the 14th weather bulletins will be received by the morning passenger, giving forecast of weather for 36 hours. These bulletins will be posted at the depot.

The delegates to the democratic county convention went up on the Regulator Wednesday afternoon. Several other Hood Riverites were in The Dalles Thursday, drawn thither by curiosity and democracy.

A car load of furniture and household goods arrived for Dr. Brosius from his old home Tuesday. He has a house barn and yard full of it, and only a woman's tact and skill can ever get it into one house.

The army has received its first coat of paint, and the second one is being applied Kenna & Emmerson doing the work. The floor is not yet laid over all the room-but the stage is in place. Our eyes may be super-critical but if that same stage is not a foot too high our vision deceives us. It may look better when the floor is all laid, and the room filled, and it may be all right now. We do not pretend to infallibility.

Hanna has just received a new and complete line of gents' furnishing goods; you can buy a pair of pants from \$1 to \$4.50, according to your fancy. Come in and see them, whether you want to buy or not. No trouble to show goods.

"How to raise perfect apples, or spraying for the codlin moth" is to be the subject for discussion at the next horticultural society meeting Saturday, May 2nd at armory hall. Edgar Locke will furnish the paper to open the discussion.

Mr. L. D. Brown of Portland, is visiting Hood River for his health, being a sufferer from asthma. He spent the winter in California, but failing to derive any benefit is trying Hood River climate and we are glad to state with beneficial results.

We received last Saturday too late for publication a letter from Dr. O. D. Doane of The Dalles, Secretary of the Board of Examining Surgeons of the Pension Bureau, saying that hereafter the board would meet only on the second and fourth Wednesday's of each month, beginning April the 13th. The hour of meeting is 10 o'clock in the morning.

Some of our subscribers in the far east, where the blizzards bloom and the cyclones blow, are respectfully but firmly informed that it is spring in this neighborhood and subscriptions are now due at this knowledge factory. Our subscribers here generally pay up in May, and it is only fair to give our patrons in the east a chance to pungle at the same time.

Captain Dukes and Lee Morse moved the building from the corner of Oak and Fourth streets, to Waucoma during the week. We understand it will be fixed up for a dwelling house. In order to move it one of the oaks at the Middleton corner had to be cut down. There are quite a number of them, but yet it seems too bad that any of them should be destroyed.

Mrs. Aunks sprained her ankle badly while coming down the grade near Aud Winans' place Friday morning on the way to her school. She was carried into Mr. Winans' house fainting several times from the pain. We are sorry indeed the accident occurred and fear the good lady will besides suffering severely be unable to continue her school.

The Congregational young people have changed the time of holding their meeting, from Friday to Sunday evening, and are thus in accord with all other young peoples societies. Their "cobweb social" was a rather gauzy affair, but with a Bateham on one side of the web and a Ketchum on the other, and two folks to show us Howe, the thing "passed off" or rather "wound up" very pleasantly.

The factory is kept busy all the time, and this week have been making window casings for John Parker, who is building a fine house on his place, and A. B. Jones, who is putting an addition to his house. A lot of fancy pickets, and railing for porches were also made, and the stieker operated for the first time turning out a lot of excellent moulding. Langille made and set the knives and they did not require changing or moving. The factory is now ready to meet any demand made on it.

The fishing season for salmon began Sunday evening at 6 o'clock, but the cold weather and low stage of water has made the run late and the royal chinook was not on hand to celebrate. A few days warm weather up towards the head of the Snake would set them moving, but that weather has not put in an appearance yet, and it will be a week after it does before the effect is visible here; consequently salmon, like votive candles in Mexico, are liable to be scarce and dear for a short time yet. It is a blessed thing that they come in plenty before the campaign waxes hot, and tariff and anti-tariff editorials are in demand.

Mrs. Howells has just opened her stock of spring millinery, and we have just inspected it. We do not know of course what kind of head gear pleases the ladies; but Mrs. Howells has the hats and bonnets that the men admire, especially when the right woman is under them. We noticed some very dainty little things, as delicate as the ghost of a dandelion, and pretty as the first flowers of an Oregon spring. There are hats and bonnets of all shapes, shades and prices; and you will be certain to find something to suit your self, your complexion, your husband if you have one, and your best fellow if you have not, and also your finances. Call and examine them.

Millinery. The ladies of Hood River and country about are invited to call and see my stock. I am determined to please you in quality and price. I am here to stay, and respectfully ask your patronage if my goods and prices suit you.

MRS. R. S. HOWELLS. We are now prepared to do dress-making and plain sewing. Prices reasonable. Please call and see us at Mrs. Mattie A. Oiler's residence one block east of the post office. MRS. L. ARNOLD & MRS. A. OILER.

Oak, fir and pine cordwood. Seasoned stove wood apply to H. C. Coe.

Not for Joe. Miss May Howard gave an exhibition of her power in the matter of producing spiritual manifestations, at Middleton's hall Saturday evening last. She had quite a good and appreciative audience and no doubt succeeded in mystifying it considerably. We didn't go. We were shut up in the canvas ghost factory along with that same woman in The Dalles three or four years ago, while brother Michell of the Times-Mountaineer watched the door; and we have always imagined he held that up against us, ever since. We were securely blindfolded and the lady was tied to a post, and yet either she or some materialized female from some other sphere, passed her hands over our face, tapped our manly shoulder and toyed with our scant locks. No sir! we didn't go. We don't like to be fooled with that way.

Does S. B. get there? Well I should smile. S. B.

Papering neatly done. 25cts per roll and upwards. Kenna & Emmerson.

Arbor Day.

Arbor day was celebrated by the school children of this district with appropriate exercises. The class recitations were exceptionally good, and the selections well made. Professor Aylsworth favored the audience with a solo, "The Sword of Bunker Hill" and was in splendid voice. At the close of the indoor exercises, the pupils filed out, formed in line and saluted the flag, after which they marched to the tree. Director N. C. Evans placed in position, and J. H. Cradlebaugh, at the request of the school dedicated it Bret Harte. There was quite a large number of visitors, which was pleasing to both teachers and pupils, and betokens a proper interest in the school. Directors Henry and Evans each made a short and interesting address. Arbor day promises to be one of the most pleasant of school holidays.

Democratic Primaries.

The democratic primaries were held at Middleton's hall Saturday afternoon at 2 o'clock. The meeting was called to order by F. M. Jackson of the Central committee, who stated the object of the meeting and that the election of a chairman was the first thing in order. Mr. Jackson was nominated but declined, and J. H. Cradlebaugh was elected. C. Stanley Stowell, was elected Secretary, and on motion the chair appointed George Herbert and M. V. Harrison tellers. A resolution was adopted that in electing delegates, two be elected from the east side, two from town and two from the west side; and that in electing, the delegates be chosen for the districts in the order named, the two having the largest number of votes to be elected. Nominations from the east side being in order, F. M. Jackson, J. B. Rand, Wm. Divers, John Kroeger and Hans Lage, were placed in nomination, and F. M. Jackson and J. B. Rand, receiving the greatest number of votes were declared elected. From the town Geo. T. Prather, Louis Morse, M. V. Harrison, Geo. Herbert and J. H. Cradlebaugh, were nominated, and all declining but Harrison and Morse, on motion the rules were suspended and they were elected by acclamation. On the west side S. F. Blythe, H. F. Davidson, C. P. Saunders and Henry Prigge, were nominated, and Blythe and Prigge, elected. L. Henry was nominated by acclamation for Justice of the Peace; F. Noble and Wm. Mercer, were nominated for Constable, and Mercer elected by a close vote. The delegates went to the convention uninstructed.

Waite Salmon Side.

WHITE SALMON, April 12.—The ground is soaking wet, and everybody complains about the rain as though your correspondent was responsible for it. We wish to publically decline any responsibility for this excess of moisture, Mr. Grumbler. Some folks would grumble if they were going to be hung, or hanged as the court puts it, on a silver mounted scaffold.

Mr. Bates of Portland shipped up a wagon load of furniture Saturday and the next day following took it out to Mr. B's place somewhere out in our new field.

Mr. C. C. Shaw second son of J. O. and L. T. Shaw, of Glenwood, died at the Good Samaritan hospital last Wednesday. His mother who went down during the fore part of the week arrived in time to see her son Oliver and converse with him before his death. The deceased was taken to Goldendale Thursday for interment.

Mr. J. C. Jacobsen, whom we mentioned last week on the sick list is still confined to his room.

Mr. G. A. Palmer who was stricken rather suddenly a couple of weeks ago, is able to climb up and slide down our little hills again. He's a glacier for sliding down.

Mr. Henry Swanson is putting up a house on his place this week.

We have heard a good deal lately about "Oregon on Wheels." Well White Salmon not to be outdone started out on runners this morning. Mr. G. A. Thomas has his store on runners and is going coasting up hill, with a stump puller for his power. He proposes to take the building and contents up the incline to a two-acre tract just purchased by him from Mr. Jacobson.

White Salmon is blessed (?) with about twenty old bachelors, most of whom are well to do, law abiding and good looking. We do not know the cause of it all unless marriage in their minds is a failure. If some of them do not experience a change of heart in the course of another decade we will publish their names on the black list.

Mrs. J. R. Warner has been in Portland the past week visiting her daughter Miss Anna Henderson.

Mr. Nealeigh went out to Gilmer the first of last week to assume charge of the school there.

BEATTY'S PIANOS AND ORGANS.

Hon. Daniel F. Beatty, the great Organ and Piano manufacturer, is building and shipping more Organs and Pianos than ever. In 1870 Mr. Beatty left home a penniless plow boy, and by his indomitable will he has worked his way up so as to sell so far nearly 100,000 of Beatty's Organs and Pianos since 1870. Nothing seems to dishearten him; obstacles laid in his way that would have wrecked any ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments, as is well known, are very popular and are to be found in all parts of the world. We are informed that during the next ten years he intends to sell 200,000 more of his make; that means a business of \$20,000,000, if we average them at \$100 each. It is already the largest business of the kind in existence. Send to Daniel F. Beatty, Washington, New Jersey, for catalogue.
