 We understand that Captain Coe will have burned a brick kiln of one or two hundred thousand this fall.
 Mr. J. Self has quit the service of the Union Pacific and has moved his family into the house over the post office.
 The premium books for The Dalles fair are out. We have quite a number, which we will be glad to give to those desiring them.
 H. M. Murchie has purchased 35 feet off the south end of lots 7 and 8, block 3, being the ground on which the Hanna stable stands.
 We understand a fifteen-hundred-dollar cottage is to be built this fall on the lot between Prather and Curran, above the state road.
 Rev. Delos Howells, after a couple of weeks visit to his family here, returned to his ministerial labors on the Sound, Wednesday morning.
 The democrats of Michigan have nominated Allen B. Morse for governor. He is a cousin of Lee and Lew Morse of this place.
 T. C. Dallas tells us he is going to Portland to buy a sack of sweet potatoes, but we do not believe he will do anything as rash as that.
 A fine mess of trout, the evidence of Mr. R. S. Andrews' skill, found its way to the Glacier office last week. Thanks, brother, awfully! Come again.
 V. C. Brock of Sherman county and S. N. Wilkins of Corvallis, accompanied by their families, went over to Trout lake Thursday for a week's fishing.
 Mrs. M. P. Watson is visiting her parents on the Sound, her husband being in San Jose. She and Mrs. Irwin will join their husbands there in the fall.
 Mr. Doolittle, republican nominee for congress from our neighbor on the north, was in our town during the week and visited Mr. and Mrs. W. J. Baker.
 The smoke from numerous fires can be seen across the river, and no doubt the fall cloud of that article which hangs over and obscures everything will soon be with us.
 Miss Fairfowl came up from Portland Tuesday, and Wednesday accompanied her sister, Mrs. C. G. Roberts, to the latter's country residence near the forks of the river.
 M. H. Nickelson has sold his place near the Methodist church to a brother-in-law of Mr. Frazier, the name we were unable to learn. Mr. Nickelson will move into town for a while at least.
 The Columbia is rapidly nearing low-water mark and work at the Locks should be in full blast. Instead, an air of quietness pervades, and it is safe to say nothing whatever will be done this year.
 The nights are wonderfully and fearfully dark just now, but when we get Hood river harnessed up, which we hope will be in the near future, electric lights will do away with this state of affairs.
 The Dalles has been congratulating itself that it is to have a new city industry, but the gentleman who has been canvassing the city for it is now in jail, having pleaded guilty to a charge of selling whiskey to Indians.
 The big fat watermelon seems to be backward about showing himself. There are plenty of them in The Dalles and other places, but except some grown by Mr. Watson and not on the market, none have been seen here.
 Ye editor and his wife while driving out to M. B. Potter's place last Monday, saw a gray wolf in the road a few hundred yards this side of Mr. Potter's house. Others have seen, evidently the same animal as he is a big fellow and all describe him alike.

Our harness maker, Mr. Wilson, ran across a big cougar in the field near Indian Pat's place Thursday; and got Captain Coe and others out after him, but he made good his escape.

Mrs. S. C. Smith has been caring for a small patch of strawberries in the yard at her residence to such good purpose that, although the vines bore their usual crop this spring, they are now loaded with fine ripe berries.

Our old friend Mark Nickelson is recovering from a long and painful attack of rheumatism. He will move into town Monday, and will open a store, probably in the Prather building, handling books, stationery, notions, etc.

Captain Coe has just had framed a black and white marine view painted by his daughter Katie. It is a splendid piece of work and shows that Miss Katie possesses talent of a high order, as she has devoted but a few months to the study of the art.

Revival services at the U. B. church are growing in interest from night to night. Hood River may well afford to congratulate herself for having secured the able ministry of Mr. Parker, the Evangelist. Meetings will be continued until further notice.

Mrs. Emma Meeker and her sons, Charles and Frank, who have been camping at Mr. Blythe's place for a month, left for their home, Portland, Thursday afternoon. Frank was in very poor health when he came here, but goes away fully recovered.

M. P. Watson and Mr. Irwin will spend a year in California, selling county rights for a preparation for destroying the San Jose scale and other fruit pests. The preparation is non-poisonous, and is said to do its work thoroughly; if so, these gentlemen have a better thing than a gold mine.

The De Moss family have returned to Oregon after a three-year's tour in the East. They assisted in the exercises at the camp-meeting here last Saturday. Those who heard them say they have improved greatly in the last three years, a statement we do not doubt, as there was plenty of room for it.

George Prather left at our office one day this week three handsome peaches raised by him from the seed. They are a week or such a matter earlier than the Early Crawford, which they resemble in appearance somewhat, are free and of a rich yellow color. It is likely to prove a valuable variety.

The travel to Cloud Cap Inn still continues good. Two ladies made the round trip, Saturday, and had an hour on the mountain. They had just been through the Yellowstone Park, but pronounced the trip to Mt. Hood far ahead of it, or, for that matter, anything they had ever seen. This is the most delightful time of the year in which to visit the grand old mountain.

The game law expires one week from next Thursday, but as most of the birds have been killed off, it does not matter much. If overfalls are made to enforce the law, and certainly none were made by the Rod and Gun club here, it had better be repealed, as it seems now to protect the game from the law-abiding and turn it over to the tender mercies of the lawless.

Mr. Joseph A. Wilson surprised his friends here by dropping in on them from Ashland Sunday morning. He is looking fine, and has a very self-contented smile, caused by the plethoric appearance of his mine and the near completion of the mill, which will probably make its first run next week. Joe, of course, had to take a fishing trip to the lake branch, but will return to his labors next week.

Captain Coe, O. L. Stranahan and the writer hereof will start Monday on a trip into the Cascades, between Wind and Lewis rivers, in Washington. The paper, during the absence of the editor, will be in charge of the editor's better half and Mr. Blythe, and, for all we know, may be a red-hot political paper or a woman's rights organ before we get back. We feel, however, that we can stand it, and realize that our readers will have to.

Wednesday afternoon Mr. and Mrs. W. P. Watson, gave an out door luncheon to a few of their friends, the occasion being a farewell to Mr. Irwin, their son-in-law who goes to California to remain for a year or more. Luncheon was served under the big trees and was a delightful affair. Those present were: Mr. and Mrs. W. P. Watson, Mr. and Mrs. Irwin, Rev. C. W. and Mrs. Wells, Mrs. Williams, Mrs. Captain Coe, Mr. and Mrs. John Watson, Mrs. Haynes, Miss Dempsy, Mr. and Mrs. Cradlebaugh and Rev. C. S. Parker. We did ample justice to the luncheon at the time, but find words inadequate to do justice to it again.

True to name—"Perfection" dyes at the drug store.

 11 "If any man hath any bean porridge and giveth his neighbor none,
 He shall not have any of my bean porridge when his bean porridge is gone."
 The remainder of the evening will be spent in sociality.

A Fine Garden.
 If any person wants to see what Hood river soil can do, let him examine Mr. W. P. Watson's garden. He has a piece of perhaps a little more than a quarter of an acre, grubbed and broke this spring, that is a sight to behold. Corn planted June 21st is six to eight feet high and loaded with roasting ears; beans that we believe will yield at the rate of 500 bushels to the acre; tomato vines that will double discomb anything in California, the vines being a solid mass of fruit, and everything else on the same magnificent scale. A small muskmelon vine had not less than forty melons in a space not much more than a yard square, the melons covering the ground and touching each other. Mr. Watson says he is going to show what an acre of ground can do next year, and we believe will record as large an amount of assorted vegetables from that acre as was ever raised in this, or, for that matter, any other country.

Fresh cigars, of the best brands only, kept at the drug store.

Fine Quarters.
 Prinz & Nitschke of The Dalles have moved into their new building on Second street, and have one of the most commodious and best arranged furniture stores in the state. There is not a firm in their line in Portland that can boast of such a room. The building is 58x100 feet, with basement full size of the building, where the work and store rooms are located; the salesroom is well lighted, the whole 68 feet front being glass, and the display window being as large as the average parlor. Around the sides and one end of the room a gallery is suspended, giving additional room. Not only is the room large and well lighted, but its beauty is increased by a magnificent stock of furniture, carpets and house furnishings of all kinds. We congratulate our old friends in having such elegant quarters, and heartily wish them a continuance of their merited prosperity.

Park-Parker.
 Maria Parker is the latest victim on record of the Hood River Park scheme, having purchased a lot from Bruce L. Carr. Hood River Park is situated about eight miles south of here, on a dry ridge, and is worth the government price of land, if a fellow wanted it right bad. The price paid for recording the deed is at least ten times the value of the lot. That Hood River Park scheme was and is a detriment to this section, and the rascally fellows who engineered it should be prosecuted.

Make an Exhibit.
 The District fair meets at The Dalles October 11th, and although the premiums are small, the opportunity to make a display of our products that will be of great benefit to us, should not be overlooked. Hood River should make a good exhibit, and should then from this prepare an exhibit for the Exposition at Portland. We can easily gather in the first prizes both at The Dalles and Portland, and having the finest fruit in the state, we ought to take pleasure in showing it.

Laying the Foundations.
 Our valley is settling up rapidly and many farms are being divided and subdivided. New houses are going up and new settlers coming among us almost daily. This is shown by the records of deeds at The Dalles and by the numerous new faces one sees daily on our streets. We believe that Hood river valley is filling up more rapidly than any other section in Oregon, and that by the next state election we will poll 500 votes. Everywhere through the valley work is progressing, berry patches being planted, ground cleared and young orchards set out. In a few years the fruit shipments from this section will astonish our neighbors and make Western Oregon ashamed of herself. Don't forget it.

MARRIED.
 At the residence of the bride's parents, Wednesday, Aug. 17th, R. A. Davidson of New York city to Miss Eunice Evans of this place. Rev. C. W. Wells performed the ceremony, using the Episcopal service.

DIED.
 At the residence of H. L. Crapper Thursday evening at 6 o'clock, the infant child of Mr. and Mrs. Robertson, of Portland, aged about 3 months. The remains were shipped to Portland Friday morning.

BEATTY'S PIANOS AND ORGANS.
 Hon. Daniel F. Beatty, the great Organ and Piano manufacturer, is building and shipping more Organs and Pianos than ever. In 1879 Mr. Beatty left home a penniless plow boy, and by his indomitable will he has worked his way up so as to sell so far nearly 100,000 of Beatty's Organs and Pianos since 1879. Nothing seems to dishearten him; obstacles laid in his way, that would have wrecked an ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments, as is well known, are very popular and are to be found in all parts of the world. We are informed that during the next ten years he intends to sell 200,000 more of his make; that means a business of \$20,000,000, if we average them at \$100 each. It is already the largest business of the kind in existence. Send to Daniel F. Beatty, Washington, New Jersey, for catalogue.
