

# Hood River Glacier

HOOD RIVER, OR., SEPT. 24, 1892.

## THE MAILS.

The mail arrives from Mt. Hood at 11 o'clock A. M. Wednesdays and Saturdays; departs at same days at noon.  
For Clatsop, leaves at 8 A. M. arrives at P. M. Saturdays.  
For White Salmon leaves daily at 8 A. M. arrives at one o'clock P. M.  
From White Salmon leaves for Fulta, Giltner, Trout Lake and Glenwood Mondays, Wednesdays and Fridays.

## BRIEF LOCAL MATTERS.

Ice cold soda at Marvin Rand's.  
Prather & Graham have a neat new sign.  
New line of fine toilet soaps at the drug store.  
Pictures framed to order at the furniture store.  
True to name—"Perfection" dyes at the drug store.  
Some fine violins for sale at M. H. Nickelsen's.  
Read A. M. Williams & Co.'s ad. in this issue.  
E. D. Closser was over from Cammas prairie Tuesday.  
Fresh cigars, of the best brands only, kept at the drug store.  
All kinds of country produce bought and sold at Harrison's.  
Flowerpots, plain and fancy, in profusion at the drug store.  
The DeMoss family gave a concert at U. B. church Thursday evening.  
I. X. L. tree spray as well as all other insecticides at the drug store.  
Best quality of Roche Harbor lime at \$1.39 per barrel. S. E. BARTMESS.  
A large supply of handsome wall paper just received by S. E. Bartmess.  
Leave your orders for newspapers and magazines, with M. H. Nickelsen.  
Handkerchief extracts and toilet perfumes of the best grades, at the drug store.  
Sewing machine needles for all machines, oil and extras at M. H. Nickelsen's.  
Violets, wild strawberries and dewberries are in bloom on Mr. Batchman's place.  
Do not fail to attend the water meeting at Armory hall Thursday afternoon at 1:30.  
The rains have effectually smothered the forest fires, and the air is again free from smoke.  
Firstclass cedar shingles \$2.75 per thousand at the Hood River M. E. G. Co's store.  
The first rain of the season, in quantity sufficient to lay the dust, fell Wednesday night.  
A. L. Dishrow arrived home Tuesday, having visited friends in Nebraska and Illinois.  
Grant Evans has moved his barber shop, and can now be found in M. H. Nickelsen's store.  
Bartmess' building is rapidly taking shape, four able-bodied carpenters being at work upon it.  
\$1.39 per barrel for Huntington lime, the best in the market at the Hood River Mfg., Co's store.  
County Clerk Crossen and family returned from an extended visit in Southern California Tuesday.  
A house, and six eligible lots for sale at a bargain for cash. For information call on Edgar W. Winans.  
Mrs. Howells has just opened a new stock of goods, and solicits an inspection thereof by the ladies.  
Mr. A. R. Byrket has 200 tons of hay for sale at White Salmon. Call on or write him at that place.  
Mrs. S. F. Blythe, accompanied by Clara and Ned, went to Portland Thursday to remain for two or three weeks.  
The Portland Exposition opened Wednesday evening. Several Hood Riverites were there to see that it was properly done.  
Mr. Gardner has taken an excellent picture of the Hood River school, and large enough that every youngster can be easily recognized.  
There are 64 pupils in the primary and 40 in the grammar room of our school. This, we believe, is the largest number ever in attendance.  
Oliver chilled plows, Oliver steel plows, farm wagons, hacks and buggies and all kinds of agricultural implements for sale by Olinger & Bone.  
We are informed by the Busy Bees that their Boston baked beans will be ripe Friday, October 7th, at 6 p. m. Particulars and bill of fare will appear next week.  
Joseph A. Wilson is in San Francisco, buying mining machinery. The mine is showing up well, with three feet of good ore, and Joe is correspondingly happy.  
Professor Gilbert has added mental arithmetic to the studies of the grammar room. This is certainly a move in the right direction and one that should have been made long ago.  
Mr. R. H. Gardner took his wife to Hillsboro, Tuesday, on account of the serious illness of her father at that place. Mr. Gardner returned Thursday and again has his gallery open.  
The storm Thursday night was quite severe between here and Portland. The telegraph lines were down in several places, resulting in delayed trains. One freight lay here all night waiting for orders.  
Monday a number of our fruit-raisers sent specimens of their products to the exposition at Portland. Hood River will have a better exhibit later on, but she need not be ashamed of the present one.  
Grant Evans gives notice that hereafter his barber shop will be closed on Sunday. Those interested will govern themselves accordingly, and present their checks Saturday or go unshaven and unsh-r.

Smoke the Hermann 10 cent cigar at M. H. Nickelsen's.  
M. V. Harrison made a business trip to the Sound during the week.  
Fred Howe has purchased an engine and now you can get your feed ground while you wait.  
J. M. Murchie has on hand a carload of hay. All those wishing to purchase are invited to inspect the same at his place of business.  
Rev. W. C. Curtis and delegates Mrs. Rhinehart, Alice Thompson and Mrs. J. M. Patterson were here Tuesday for the purpose of installing Rev. Gilt as pastor of the Congregational churches of Hood River.  
If the noise made by Mercer's steam saw does not make the diggers leave the country and kill the San Jose scale, then both of those pests are beyond the reach of anything milder than strychnine and lye.  
Saturday is grinding day at Harrison Bro's mills until business in that line increases. Near neighbors are always ready to give precedence to those from a distance, so they need not go home without their grist.  
We saw several Hood River young ladies amusing themselves by kicking a football Thursday, but refrain from giving them that light and airy send-off they deserve, just because we know how hard they can kick.  
Don't forget that the fair at The Dalles commences Tuesday, October 11th, and at the same time remember to send up your fruit and make an exhibit. Never neglect an opportunity to advertise Hood River.  
If our Portland friends only knew it, now is the time to visit Mt. Hood. The dust is no more and the air is clear and pure as possible. The hotel will close in a week or two, and the opportunity will not occur again until next July.  
Those sending fruit to the Exposition, so far, are W. Davidson, H. Pruge, M. V. Rand, W. J. Baker, H. P. Davidson, John Sweeney, E. Locke, P. Mohr, D. S. Crapper, J. J. Gibson, H. L. Crapper, P. G. Jarrett and P. Hinrichs.  
There will be a dance at Tucker's hall Friday night, the 30th inst. The music will be furnished by Henry York, which leaves nothing to be desired on that score. Bring your baskets and supper and come, everybody. So says the committee.  
A party consisting of T. B. Coon and two or three others will make an examination of the west side of the river, Monday and Tuesday, for the purpose of gathering information concerning the proposed dike. They will report to the meeting Thursday.  
Professor Fariss delivered two lectures here on the subject of phrenology during the week. He intended to stay longer, but after two nights' experience in feeling the average Hood River head he came to the conclusion there was "nothing in it" and left.  
Wils Winans has filed the plat of his town site near the forks of the river. The town will be known as Winans. The location is a very pretty one, with the water supply, and will, when the timber begins to move, become, no doubt, quite a manufacturing center.  
The advance report of the condition of crops on September 1st is just received. From it we learn some facts with regard to the apple crop, which will be apt to interest fruit-growers. The average per cent. of crop in seven of the greatest apple states is only 39 per cent. Oregon has 65 per cent. of a full crop, which means good prices and fair profits.  
Parties piling wood along the spur are getting it too close to the track, making it a source of danger to the trainmen. One brakeman got caught and knocked from the car, saving himself only by throwing himself to the ground by the side of the track. Agent Ellison requests that hereafter more care be exhibited and that the wood be piled far enough from the track to allow the cars to get to it safely.  
The East Side Ditch.  
There was a meeting of citizens of the East Side at Lage's place Wednesday, which was quite well attended. It was for the purpose of perfecting arrangements for constructing a water ditch, and was in every way successful. D. H. Turner was made chairman and J. E. Feak secretary of the meeting. After a thorough discussion of the matter it was decided to perfect the organization of the East Side Irrigation Company, and the books were opened for subscription to the stock, of which ninety-six shares, representing \$4,800, were subscribed at once. Immediately upon this, it being a majority of the stock, the stockholders proceeded to elect officers, as follows: President, S. H. Cox; Secretary, V. Winchell; treasurer, H. Lage; directors, F. M. Jackson, G. W. Clelland and Levi Munroe. A small assessment will be levied at once for the purpose of having a survey and map made. At 4:30 the meeting adjourned. The East Side company will get its water through the East Fork company's ditch, and will probably bring out 1,000 inches.  
Republican Speaking Today.  
Col. J. B. Yeagley, of Curry county, will address the citizens of Hood River and vicinity on the political issues of the day at Armory hall at 1:30 this (Saturday) afternoon. The colonel is an old soldier and is said to be an eloquent and forcible speaker. A full house should greet him, and the audience can rest assured of hearing a good speech and the political questions ably presented, even though they should not be of the colonel's political faith.  
See Here!  
If you want a strawberry patch of 10,000 or more, we will contract to furnish firstclass plants, and set them out, after the rain begins, at \$4.00 per thousand.  
COON & CRIBB.

Plenty of Wheat.  
There is abundant evidence that Eastern Oregon did not have a failure of crops. There are on an average eight trains a day loaded with wheat passing here. They will average 300 tons each, so that from Eastern Oregon and Washington are shipped to Portland 2,400 tons of wheat daily; enough to load a first-class ship. The lumber trade is also good, there being from two to three east-bound trains loaded with it daily. As wheat is worth from 55 to 60 cents per bushel, this means \$50,000 per day for the farmers.  
Press Meeting.  
The Oregon Press Association meets at The Dalles October 4th. A delegation from The Dalles will meet their guests at the Cascade Locks the morning of the 4th, and after giving them a chance to examine the works there, will escort them to The Dalles on the steamer Regulator. The attendance promises to be large, and we understand the editors will be sent home by way of Spokane Falls and Seattle.  
Portland Exposition, September 21st To October 22nd.  
The Union Pacific System will extend to its patrons the usual reduced rates on round trip tickets which will include admission to the exposition; selling Mondays, Wednesdays and Fridays of each week. Detailed information can be had by applying to ticket agents.  
Wait Not Too Long.  
Parties who have made application to purchase forfeited lands will have until February 3, 1893, to make final proof, providing they are non-residents. If residing on the land, they will have until September 29, 1893. It is best not to wait until the last day to make payment, as there are several thousand claims in this district, and if everybody waits until the last week, some are bound to get left. The question of residence is also in doubt, it seeming to be the idea conveyed by the act, that "residents" means those who were residing upon the lands at the time of the passage of the act.  
Another One Gone.  
Thursday night the wind for a few moments got on a regular tear, and about the first prank it played was to tumble over the big oak on the east side of Bartmess' new building. Some of the roots had been cut to allow the building room, and as the earth was removed from that side of the tree to a depth of two feet, and the tree had an inclination that way, it fell. No damage was done, except a little broken fence and shrubbery, always excepting, of course, the loss of the tree, which is a damage to the town.  
Irrigation Bonds.  
The following article on "Irrigation Bonds" is from the United States Inventor. There is a vast extent of country in Eastern Oregon, Eastern Washington and nearly the whole state of Idaho, where irrigation may be made available, and when systems of irrigation are once fairly tested, it will be found that irrigation bonds will be among the best of securities. The reasons are that the system never wears out but improves from year to year; but few men are employed, and there is no danger from strikes; there are no wrecks, no fires, no rust or decay, no getting out of fashion; no losses from bad bills, and there is a tendency toward small farms and high cultivation. Further, land naturally valueless is given high value, and those who become customers are always customers. Thus permanent income is assured. Here is the article referred to viz:  
The question of the security, certainty and desirability of irrigation bonds as an investment has received frequent discussion in these columns, but as they promise to soon become a more important feature in the field of investments, and as we are often interrogated on this subject, further discussion may prove not only interesting, but serve to lead to a better understanding of the merits of these bonds.  
It may be said with entire truth that the principal obstacle which has retarded the popularity of irrigation bonds among our investors in the East is the unfamiliarity of the subject of irrigation, and yet it is a branch of agriculture which had its inception almost as early as when the morning stars first sang together at the beginning of time; and down through the ages which have intervened, it has been studied and perfected in accordance with advancing civilization. The plan of forming a combine of the water and land is, however, a comparatively recent one, having been first begun in California, afterward gradually spreading eastward over the semi-arid section intervening between the Pacific and the continental divide and beyond.  
Irrigation to all this great western area where rainfall is deficient is necessarily an important and, in many sections, a vital question. It is even a national question of such significance, and therefore, of interest to everybody. The great transcontinental lines of railroad, the ship canals and many other branches of commerce are interested. With an increase in arable land comes increase in population and an increase in wealth. Everybody is benefited and no one injured. Thus, based on so important a question, these securities as the country develops, must of necessity attract more attention and become more deservedly popular.

W. H. WILSON.  
ATTORNEY-AT-LAW.  
ROOMS 53, AND 55, NEW YOGT BLOCK, THE DALLES, OREGON.

Practices in all the courts of Oregon and Washington. Special attention given to conveyancing.  
GLACIER OFFICE, HOOD RIVER OREGON.  
BEATTY'S PIANOS AND ORGANS.  
Hon. Daniel F. Beatty, the great Organ and Piano manufacturer, is building and shipping more Organs and Pianos than ever. In 1870 Mr. Beatty left home a penniless plow boy, and by his indomitable will he has worked his way up so as to sell so far nearly 100,000 of Beatty's Organs and Pianos since 1870. Nothing seems to dishearten him; obstacles laid in his way, that would have wrecked any ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments, as is well known, are very popular and are to be found in all parts of the world. We are informed that during the next ten years he intends to sell 200,000 more of his make; that means a business of \$20,000,000, if we average them at \$100 each. It is already the largest business of the kind in existence. Send to Daniel F. Beatty, Washington, New Jersey, for catalogue.  
The undersigned being located near Hood River, wishes to inform parties who may be desirous of having surveying done, that he is a practical surveyor of many years experience, and that work entrusted to him will be performed with dispatch and correctness. He takes pleasure in referring to Mr. A. S. Blowers, (who for years was county commissioner in Minnesota,) and for whom he did county work as county surveyor, and to his ability. Parties writing me at Hood will receive prompt attention.  
C. J. HAYES.  
Dated Hood River April 6th, 1891.  
THE GREAT EXPOSITION OF '92  
Opens at  
Portland, September 21

**J. M. MURCHIE. - - Hood River Or**  
**PEARMOUNT (PORTLAND) & HOOD RIVER NURSERIES.**  
Offer for sale 500,000 standard trees grown on high fir lands without irrigation or manure. Such trees are incomparably superior to those grown on swales or watered soil—Irrigated trees when planted on high and dry soils are liable to stunt in growth and if they live, it is liable to be 7 or 8 years before they bear to amount to anything. Our trees are frequently in bearing the 2nd year from setting out. Will send references to substantiate this assertion.  
Apples, Peaches, Plums, Cherries, Quinces and Apricots. Small fruits in variety, ornamental trees and shrubs, and 40 varieties (out of 100 tests) of roses. Specialties, Prunes. Several varieties of New Peaches and Early Texas Blackberries. Special inducements to those planting in lots of 100 to 1000. Correspondence invited. Address,  
PILKINGTON & CO.  
No. 2 Dekum Building, N. W. Corner 1st and Washington Sts. Portland, Or.  
GUY PILKINGTON, Hood River, Or.

**Mercer & Duker**  
SUCCESSORS TO O. B. HARTLEY.

**BEEF, PORK AND MUTTON**  
At the Very Lowest Rates.  
We have constantly on hand a fine stock of  
**Hams, Bacon and Lard,**  
In fact, everything in our line.  
Our wagon will run through the valley and to the mills Mondays Wednesdays and Fridays. All orders filled promptly.  
Corner Oak and Fourth Sts., - - - Hood River, Oregon  
**The Dalles Nurseries,**  
**RAWSON & WEBER**  
PROPRIETORS  
Have on hand a full supply of Fruit, Shade and Ornamental trees; grape vines, small fruits, Roses and Shrubbery.  
Be sure to get our prices before purchasing elsewhere.  
Remember our trees are grown strictly without irrigation.  
**THE DALLES. - - - OREGON**  
W. A. SLINGERLAND, Local Agent.

## BORN.

In Hood River, Saturday, September 17th, to Mr. and Mrs. S. E. Bartmess, a daughter.
