A successful effort is being made to establish a school library, and a hundred volumes are already assured.

Miss Claire Doolittle, after a month's visit with her mother Mrs. W. J. Baker, returned to Tacoma Sunday morning.

B. R. Tucker has put in a stock of goods at his place. This will prove quite an accommodation to people in that vicinity.
The lone talek of ham supper to be given by the "Busy Bees" will soon be one of the has beans. See bill of fare elsewhere.

Captain Coe has been engaged for three or four days with the steamer Irma is bringing hay across the river from White Salmon.
Oliver chilled plows, Oliver steel plows, farm wagons, hawks and buggies and all kinds of agricultural implements for sale by Olinger & Bone.

We understand that George Herbert is to quit the hotel business to-day. George has made many friends here, who hope to see him remain with us.
Mr. Cotton, general attorney for the Union Pacific, and Lieut. Taylor of the Cascade Locks, were guests of Cloud Cap Inn for three days this week.

Misses Annie and Bessie Lang of The Dalles have been at Cloud Cap Inn for a week, getting views of the magnificent scenery of Oregon's grandest mountain.
It is probable this is the last week that Cloud Cap will be kept open, though it will take a week or two to put the road in condition to stand the winter rains.

Charles Saunders and some others have the prospecting fever and departed for the hills Wednesday with a gold pan and something to eat. They will be lucky to get back with the pan.
Bartmess' new building is enclosed, and when finished will be the "biggest thing in town" except the armory. Bartmess intends to fill it with furniture—up stairs for himself, down stairs for other people.

There is no doubt but that Mays & Crowe of The Dalles, have the finest hardware store in the state. You can get anything you want in their line from a locomotive to a gimp tack, and their stock of cutlery cannot be excelled. Just walk into their half-acre store and see if we are not correct.

Fred Howe has purchased an engine and now you can get your feed ground while you wait.

J. M. Murchie has on hand a carload of hay. All those wishing to purchase are invited to inspect the same at his place of business.

The "Busy Bees" don't exactly "make hay while the sun shines" but they plan to make money while the moon shines next Friday evening.

If you want to buy in a supply of groceries for winter, read the advertisement of The Dalles Mercantile Co., and then send an order to them. You will save money by doing so.

M. V. Harrison's store was attached Thursday. Mr. Harrison went to The Dalles that afternoon for the purpose of getting the matter settled, which we hope he will be able to do.

R. F. McLean has a logging contract on the Clearwater near Oxnado, Montana, amounting to 3,000,000 feet, and at prices that permits him to pay his men \$45.00 per month and board.

Sidney Young, The Dalles jeweler, desires to say that he is still in business and can be found in L. C. Nickelson's store on Second street, next door to his old stand. Watch repairing a specialty.

Messrs. Nicholas and Christopher Salsman, of Mt. Airy, Iowa, were here Wednesday, visiting Mr. and Mrs. Peeler. They went across the Columbia Thursday to visit old time neighbors.

William Eriksen, a hardware merchant of LaGrande was here last week, and after riding around the valley with W. J. Baker, expressed his surprise at its magnitude and beauty. So say they, all of them.

Saturday is grinding day at Harrison Bros' mills until business in that line increases. Near neighbors are always ready to give precedence to those from a distance, so they need not go home without their grist.

White Salmon had a political meeting last Saturday, which was addressed by Judge Maguire for two hours in behalf of the people's party. One of the features of the occasion was a barbecue, a good sized calf being roasted for the occasion.

The rain last week caused the road from Cloud Cap to the Elk beds to wash considerably, and consequently no good time cannot be made over that portion of the road. Otherwise the road to the Inn is in fine condition and free from dust.

C. S. Odell, while crossing the railroad track near the depot with a four-horse load of wood, broke the off hind wheel of his wagon. Striking the track diagonally, the wheel, instead of crossing, slid along the track and finally went to pieces.

The steam wood saw is yet in the land, robbing the air of its ambience, the woods of its echoes and the patient yet untutored red man of a job. The red man, however, seems able to stand it, as it is impossible to get "one of him" to work any more.

Mr. George McCoy has written us a letter, in response to a statement made last week that "his rights would cut no figure," stating that the company he represents intends to begin work on their ditch within the statutory period, and that his rights will therefore "cut some figure."

The post office has had a general overhauling and is now in much better shape. The boxes have been moved, thirty-six new lock boxes added, and the room partitioned so that the office can be left open without interfering with the balance of the house. It is a decided as well as a needed improvement.

The Oregon Press Association meets at The Dalles next Tuesday. Visiting members from the west will come by train as far as the Locks, where they will take the Regulator. The session will last three days, after which a number of the members will return to their homes by way of Spokane and Seattle, the railroad companies giving them free transportation.

The GLACIER office has been moved to Oak street, next to Bartmess' new building, where all old patrons can find us with pleasure and new ones with ease. The office will be enlarged, so that it will not look so much like a wart on Bartmess' building, but why the money is coming from to enlarge it is more than we can tell. Gentle reader, can you tell?

The divorce suit of Mrs. Johnson against Van Johnson was tried at Portland Monday and decided in favor of the plaintiff, the holy ties of matrimony being ruthlessly severed by Judge Stearns. The complaint alleged cruelty and failure to provide underclothing for plaintiff. The defendant made no answer, letting the case go, like the underclothing, by default.

Portland Exposition, September 21st To October 22nd.

East Side Ditches.
The East Fork and East Side Irrigating companies are both organized and in good working condition, and, no doubt, considerable work will be done yet this fall. The East Fork company has nearly a quarter of a mile of ditch completed, but this will have to be enlarged to accommodate the East Side company, or, for that matter, to carry its own 2,000 inches. We understand that temporarily, at least, 2,000 inches will be all the water diverted, but this ought, if there is not too much waste, to irrigate all the east side of the valley.

Keep Up the Exhibit.
While the display of Hood River fruits at the Portland exposition is already the best there, it is not yet as fine as it will be towards the end of the fair, when the fruit will be fully developed, and consequently a much better exhibit will be possible. Our fruit-growers should see to it that the exhibit maintains its lead. In the meanwhile arrangements should be made for displaying our fruit at The Dalles fair.

Around the World.
Mr. F. G. Lenz, traveling correspondent for *Outing*, a sporting magazine, arrived here from The Dalles Tuesday. He is making a tour of the world, traveling principally on a bicycle. He led his riding animal down the railroad track to this point, and Wednesday morning, in company with J. E. Rand, took the road to the planer. On the hill he obtained a fine view of Mount Hood, which he proceeded to "take" with his camera, himself and Mr. Rand being in the foreground and each larger than Mt. Hood.

STOCKHOLDERS' MEETING.
There will be a meeting of the stockholders of the East Fork Irrigating Canal Co. at the Odell school house on Thursday afternoon next, at 1 o'clock, for the purpose of completing sale of stock, for arranging for doing the work and deciding upon the manner of doing the same, and for deciding the question of surveying.
J. A. KNOX, President.

BEATTY'S PIANOS AND ORGANS.
Hon. Daniel F. Beatty, the great Organ and Piano manufacturer, is building and shipping more Organs and Pianos than ever. In 1870 Mr. Beatty left home a penniless plow boy, and by his indomitable will he has worked his way up so as to sell so far nearly 100,000 of Beatty's Organs and Pianos since 1870. Nothing seems to dishearten him; obstacles laid in his way, that would have wrecked any ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments, as is well known, are very popular and are to be found in all parts of the world. We are informed that during the next ten years he intends to sell 200,000 more of his make; that means a business of \$20,000,000, if we average them at \$100 each. It is already the largest business of the kind in existence. Send to Daniel F. Beatty, Washington, New Jersey, for catalogue.

The undersigned being located near Hood River, wishes to inform parties who may be desirous of having surveying done, that he is a practical surveyor of many years experience, and that work entrusted to him will be performed with dispatch and correctness. He takes pleasure in referring to Mr. A. S. Blowers, (who for years was county commissioner in Minnesota,) and for whom he did county work as county surveyor, as to his ability. Parties writing me at Hood will receive prompt attention.
