J. W. Wallace, in preparing seed wheat for sowing, poisoned his right hand badly with blue vitriol. In consequence he is having a serious time with it.
The Misses Annie and Bessie Lang, Hon. M. A. Moody and Mr. Green, who had been getting acquainted with Mt. Hood, returned from Cloud Cap Monday.

Captain Edwards, of Appleton, Wisconsin, who is visiting Pacific coast points, stopped off here Thursday to visit his old townsman George and Edward Jones.
Wils Winans shot two big black bears above his place last Sabbath. If the bears had been at home, where they should have been on Sunday, they would not have been killed.
George Herbert gave up the hotel Saturday and his family are in the Dalles. George will leave shortly, when he gets his business affairs all arranged, and will go to Spokane.

Ed Ketchum and his wife left for Estherville, Iowa, last Thursday morning. E. C. Rogers sent by them a specimen of Hood River onions, weighing a pound and three-quarters each.

Arrangements are being made for a big republican rally on the 23d. It is expected that The Dalles club will visit this place on that day, and that prominent speakers will address the crowd.
The goods in M. V. Harrison's store are advertised for sale next Saturday by the sheriff, but it is quite probable that arrangements will be made by which the sale will be indefinitely postponed.
Sidney Young, The Dalles jeweler, desires to say that he is still in business and can be found in I. C. Nickelsen's store on Second street, next door to his old stand. Watch repairing a specialty.

The next term of the District court will commence November 14th, and the next term of the County court begins on the first Monday in November. Commissioners' court the Wednesday following.
Wanoma Lodge, K. of P., will have work on the Third to-night, and all members of the lodge and order are requested to attend. There will be a number of visitors from Pythagoras Lodge of the Cascade Locks.
Saturday is grinding day at Harrison Bro's mills until business in that line increases. Near neighbors are always ready to give precedence to those from a distance, so they need not go home without their grist.

Mr. Golden and others of Goldendale have struck a quartz ledge on the head of Lewis river, north of Mt. Adams, that assays 400 ounces of silver to the ton. The ledge is a large one and has been opened to a depth of fifty feet.
Mrs. Charlotte Hull has sold her residence property in Wanoma to S. R. Husbands. Mrs. Hull will leave next week for Nebraska, stopping on her way at Denver, to which point she has been summoned by the serious illness of Mr. Hull's brother.

The GLACIER office has grown somewhat this week, all of said growth being in length. It gives us plenty of room, but reminds us of Josh Billings' statement concerning the angle worm, that it was a "graceful animal, but its tail was most too long for its body."
The hotel property here changed hands during the week, Mr. Mulkey of Baker City being the purchaser. We understand that extensive improvements will be made on the property next summer, and that until that time, or for a year, Robert Rand will again have charge of the hotel.

Coming from Portland Tuesday night we had the pleasure of riding with Will Hara, who was on his way to Spokane. He inquired after old friends here and will stop for a visit when on his way back. He is much pleased with the Coos Bay country, as he says, not for what it is, but for what it is going to be.

We received Tuesday from Mr. S. C. Tostevin of Chicago a sample of the material of which the cornices, ornaments, tablets and other decorations of the world's fair buildings are being made. It is of snowy whiteness, and Mr. Tostevin says, presents a dazzling sight when the sun is shining on it. It is of the plaster of paris style and easily molded into any shape.

The Portland exposition this year is better than ever, and that is saying a great deal. If you take the little folks, which you should do, don't forget to take them into the "hall of illusions" and also into the "little world." The latter is a puppet show, but certainly a very wonderful one, the little figures moving naturally and the machinery, which moves them, being entirely concealed.

C. P. Heald took the premium at the Portland exposition for largest and best exhibit of apples grown by exhibitor. The prize was a \$65 sprayer. Henry Prigge took the premium for best three plates of apples. It seems that some of the fruit sent down got scattered in such a way that Hood River did not receive due credit for it. As it was, the Hood River apples led the display by a long distance.

The Underwood brothers have completed a road from the mouth of the White Salmon to intersect the present road three miles from the mouth of the river. When they get in a bridge to connect the roads, which they intend doing this fall, it will shorten the road from Trout Lake and Cammas prairie four miles. The landing at the mouth of the White Salmon is a good one, and the opening of the new road will have a tendency to divert some if not all of the travel from the present road.

There were more transfers of real estate here this week than for a month previous. Besides the Rand half block and Mrs. Hull's place, which we mention elsewhere, J. E. Feak sold ten acres to Mr. Reeder, Virgil Winehell sold forty acres to Mrs. Louisa Reed, who in turn sold ten acres to Benjamin H. Winters, and several other transfers, of which we are not fully informed, were made. Evidently the prospect of getting water for irrigating purposes has set the real estate market to moving.

It seems that the town is just now the most deeply interested of any section in the water question. Captain Coe tells us that next year he will not furnish water for irrigation purposes, and this means that our lawns are to be dried up and our flower gardens an impossibility. If the west side ditch is built it will give the town an abundance of water, not only for irrigating purposes, but for fire protection. This latter would cause a marked reduction in insurance rates. We want to stand in, all of us.

Hon. W. McD. Lewis Dead.
Hon. W. McD. Lewis died at The Dalles Tuesday evening after a lingering illness of several months. Mr. Lewis represented this county in the legislature several years ago. He was a prominent farmer, owning a large farm near the north boundary of the Warm Springs reservation. He leaves, besides his wife and son, a large number of sincere friends to mourn the loss of one who was an honest, upright man, a good citizen and who was faithful to his trust.

Beatty's Organs Are the BEST. Write for catalogue. Address Daniel F. Beatty, Washington, New Jersey.

Portland Exposition, September 21st To October 22nd.
The Union Pacific System will extend to its patrons the usual reduced rates on round trip tickets which will include admission to the exposition; selling Mondays, Wednesdays and Fridays of each week. Detailed information can be had by applying to ticket agents.
Columbus Day.
The 21st of the month being Columbus day, the schools of the valley are invited by the directors of this district to meet with the Hood River school on the afternoon of that day. There will be an interesting programme, and if necessary to accommodate those attending, the armory will be engaged.

How Are Your Teeth?
Dr. Suedeker of The Dalles will be at the Mount Hood hotel Monday morning, prepared to do any work in his line. He will administer gas for painless extraction of teeth to those desiring it. Go early, if you want to be sure and get your work done.

A Bit of Indian Wit.
Caroline, the ubiquitous, aborigine, arrived here from The Dalles Thursday evening, her trunk bearing the label of the hotel de Tom Ward. She came around to tell our better half her experience, and being asked where she had been so long, replied with a laugh, "Oh I been in jail 36 days; one white man he poor, awful, and I give him two bits git me some whiskey. Miloney he marshal, 'rest me, try make me tell where I get whiskey, but I no give the snap away. They put me in jail, along with Bugfel, same man people say kill his mother-in-law. Bugfel put match on the box where I sit down, and that make me mad 'cause he burn my dress. I talk sassy to him, and he pick up box and he tell me he smash my head. Then I tell him, 'Whats the matter you? You think I your mother-in-law?' Then he got mad, but you bet I give it to him hard."

MARRIED.
Monday evening, I. C. Nealeigh to Miss Rosa Nickelsen. As both high contracting parties are young, the tin-tinulations to which their young friends treated them were decidedly out of place.

BEATTY'S PIANOS AND ORGANS.
Hon. Daniel F. Beatty, the great Organ and Piano manufacturer, is building and shipping more Organs and Pianos than ever. In 1870 Mr. Beatty left home a penniless plow boy, and by his indomitable will he has worked his way up so as to sell so far nearly 100,000 of Beatty's Organs and Pianos since 1870. Nothing seems to dishearten him; obstacles laid in his way, that would have wrecked any ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments, as is well known, are very popular and are to be found in all parts of the world. We are informed that during the next ten years he intends to sell 200,000 more of his make; that means a business of \$20,000,000, if we average them at \$100 each. It is already the largest business of the kind in existence. Send to Daniel F. Beatty, Washington, New Jersey, for catalogue.

The undersigned being located near Hood River, wishes to inform parties who may be desirous of having surveying done, that he is a practical surveyor of many years experience, and that work entrusted to him will be performed with dispatch and correctness. He takes pleasure in referring to Mr. A. S. Blowers, (who for years was county commissioner in Minnesota,) and for whom he did county work as county surveyor, as to his ability. Parties writing me at Hood will receive prompt attention.

Offer for sale 500,000 standard trees grown on high fir lands without irrigation or manure. Such trees are incomparably superior to those grown on swales or watered soil—Irrigated trees when planted on high and dry soils are liable to stunt in growth and if they live, it is liable to be 7 or 8 years before they bear to amount to anything. Our trees are frequently in bearing the 2nd year from setting out. Will send references to substantiate this assertion.
