# Housekeepers Should Remember.

The Government Chemists, after having analyzed all the principal brands in the market, in their reports placed the Royal Baking Powder at the head of the list for strength, purity and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

Effect of Copper Salts on India Rubber In a recent paper Mr. W. Thomson, of Manchester, England, said that it is known that copper salts have a most injurious effect on india rubber, and as copper is sometimes used in dyeing blacks and other colors cloth so dyed is liable to decompose and harden the rubber put into it. A peculiarity investigated by the author is that metallic copper placed in contact with thin sheets of india rubber brings exidation and hardening of its substance, although no appreciable quantity of copper enters the india rubber, while metallic zinc and silver have no injurious effect.

All oils, except castor oil, have a most detrimental effect on india rubber, which can best be kept under water, under glycerine, in coal gas or i i a vacuum. The smell of india rubber is one of the characteristics of its decomposition, and it has been noticed that a piece of blotting paper placed over the decaying rubber is colored by certain volatile substances resulting from the oxidation that produces the hardening.

Roped Into a Bad Bet.

A Detroiter who deals in real estate, law, insurance, loans, lawsuits, politics, etc., went over to Chicago the other day. While nearing that city a man came to him and confidentially remarked:

"There's a chap in the car back there trying to get a \$20 bill changed. It's a base counterfeit, and I want to put you on your guard."

He was warmly thanked for his kindlater a man appeared with a bill in his Say about 62 in the shade. hand and asked:

"Friend, can you change this twenty?" "Sorry to say I can't," was the prompt

Well, let me have ten and you keep the bill until we get to Chicago." "Can't do it.

"Can't you let me have five?"

"Perhaps you are afraid of the bill. I don't claim to know much about money. Is it good or bad?"

"It's a counterfeit." "No!"

"I'm sure of it."

"It can't be. I'll bet the face value of it that it is a good bill. Lend me \$3 on Burdette in Brooklyn Eagle. it, won't you?

"No, sir, but I'll take that bet of yours that the conductor won't accept it as good."

"Well, it will be worth \$20 to find out about it," said the stranger, and off they went to the conductor. "Give me two tens for this?" brusquely

queried the stranger, as he handed out the bill.

"If I can," replied the conductor, scarcely glancing at it.

He made out a ten and two fives and passed them over, and the Detroiter handed over the amount of his bet. kicked himself into the next car, and he never saw a bit of Lake Michigan as the train made its way into Chicago. - De- boy at once tried to catch it. troit Free Press.

A Dog's Education. Given an equal amount of intelligence at the start, a dog which has been well trained is worth twice as much as one untaught. It is as true of dogs as of men. Education counts.

Do not undertake to teach a puppy unless you have a large stock of parience. Unless you can control your temper and be persistent in teaching your best course is to buy a dog already trained.

But if you want real slog have and confidence take the animal in his puppy hood, as soon as he is able to feed himself, and your efforts will be crowned with a greater success than ever comes otherwise. NATURAL AS GAS. "A strange and unaccountable story that comes from Texas," is the title of a news paper letter telling about a rose bush, near Fort Worth, that when cut drips buman blood; pronounced to be real and truly human blood by the bost chemists that ever tended bur in Texas. We have read the letter and the affidavits of the apothecaries, but we can't see anything strange or unaccountable in it, even to the story of the skeletons found under the rose bush. All is explained when t is remembered that under the old law of 1852 all the liars of Texas were banished to Fort Worth

"I can't see," complained Rollo's sister, boking up from the paper she was reading, how you can tell, when they name so many horses after great men, when the paper speaks of the horse and when it refers to the man who is named after him." "What does it say?" asked Rollo, who was beginning to tell time by the clack hunself. "It says: Russell Harrison and Daniel Voorbees," plied his sister, referring to the paper. "Oh," said Rollo, as he turned to his Engl sh grammar again, "that's the horses, of course. If it meant the men, the editor would have said 'Cub Harrison and Hossier Dan."

Among the passengers on a western train esterday was a woman very much overressed, accompanied by a bright looking nurse girl and a self willed tyrannical boy of about 3 years.

The boy aroused the indignation of the passengers by his continual shricks and kicks and screams and his viciousness toward his patient nurse. He tore her bonnet, scratched her hands and finally spat in her face with out a word of remonstrance from the mother Whenever the nurse manifested any firmness the mother chids I her sharply.
