From White Salmon leaves for Falls, Gillmer, Trout Lake and Glenwood Mondays, Wednesdays and Fridays.

BRIEF LOCAL MATTERS.

Mrs. A. Ketchum is seriously ill. Charley Wallace is on the sick list. J. E. Hanna goes to Portland today. Cleveland becomes president at noon today. Mrs. Pratt has been quite sick, but is recovering. Mr. Lyman Smith left for Astoria Thursday. Judge Warner, was over from White Salmon yesterday. James Langille is putting a porch in front of his building. Mr. and Mrs. A. J. Rand were at The Dalles Wednesday. Miss Anne C. Smith, teacher of piano, organ and voice. Mrs. Haynes and Mrs. S. T. Howe went to Portland Monday. Mr. and Mrs. George Mathias have gone to California to live. Men's all wool under clothes at reduced prices at Hanna's. Carload of Roche Harbor lime just received at S. E. Hartness'. Mr. and Mrs. Ziegler and daughter of Arlington are visiting friends here. Wallace and Harrison have for sale apples, dried fruit, butter, eggs, bacon, etc.

M. H. Nickelsen has purchased the Mathias residence and moved into it Monday. Captain Rich is quite sick, but we hope to record his speedy and complete recovery. If you want to do a cash business in buying or selling produce, see Wallace & Harrison. Fred Goodfellow, who is at present living in Montana, made this place a flying visit last week. Adjutant Wilson of the Sons of Veterans was here Saturday. He is an enthusiastic worker for the order. James E. Peak has sold half an acre of land to Abner Cox. This is a small beginning of the spring movement in real estate. Olinger & Bone have just received a stock of timothy, also mixed and wild hay. Will sell by the carload ton, or bale on reasonable terms.

Mr. Moore, who came here recently from Kennesaw, Neb., has gone up to Spokane Falls to take a look at Washington's most energetic city. Captain Blowers was over from White Salmon Monday. It is quite probable he will be a Hood River citizen again in the near future. W. P. Watson was taken sick last week and his symptoms for a while were alarming, but prompt treatment soon placed him out of danger.

Flour 95 cts per sack, \$3.75 per barrel. Shorts \$1.10 per hundred, \$20.00 per ton. Chop barley \$1.25 per hundred, \$25.00 per ton, at Hanna's. Mr. Skilton of The Dalles stopped off at Hood River last Wednesday, and took a look up the valley. He is desirous of locating in this happy medium between the too wet and too dry.

Lee, son of John A. Wilson, cut down a small tree Wednesday of last week, and in trimming the limbs from it he fell, striking the axe in his leg above the knee, and cutting himself badly.

While gardens are being made and everything is spring-like both in town and for miles up the valley, yet all across Parkhurst on the hill between the snow still lies from eight inches to one foot in depth. Lawrence Blowers was over from White Salmon Thursday. He has purchased his father's interest in the store at that point, which no doubt means that the captain has concluded to again cast his fate with Hood River.

Scott Boorman in splitting wood one day last week struck the axe into his foot, making a gash three inches in length and running from the toes to the instep. It is a bad and painful wound that will lay him up for a long time. It is a thing never before known that the price of a bushel of potatoes 60 lbs., should be greater than a bushel of wheat 60 lbs. but such seemed to be the fact according to the last report of the department of agriculture at Washington.

We have ordered six car-loads of fruit boxes of all kinds, and have arranged for keeping a good stock constantly. We also have the agency for the Web-foot fertilizers. Call and see sample fruit boxes at our new rooms under K. of P. hall. HOOD RIVER FRUIT CO.

T. C. Dallas has purchased the building recently occupied by Mrs. Howells. He has moved it to the east side of his lot and will erect another building on the west side of it. We understand his intention is to carry a stock of stoves and hardware, and to run a tin shop in connection therewith.

A bounty of three cents apiece is being offered for gophers caught in the orchards of some of our enterprising fruit growers up the valley considerable damage was done by them, and as one gopher is capable of destroying a dozen trees in one season and still live to repeat the operation the fruit growers can well afford to pay for getting rid of them.

The Union Pacific have published a very neat pictorial world's fair folder, containing colored lithographs of the various exposition buildings, bird's eye view of the grounds, with a complete map of the city, showing location of the fair, hotels, railway depots, street car lines and city parks. Copy of same may be had by addressing W. H. Hurlburt, Assistant General Passenger Agent, Portland, Oregon.

The regular annual meeting of the stockholders of the Oak Grove Cemetery association will be held at K. of P. hall, next Saturday afternoon March 11th at 2 o'clock p. m.

Monday is school election day, and in this district the meeting should be attended by every voter. The district is in debt, and not only should this be paid, but the school has grown so that it seems another room must be provided. In consequence the tax will have to be in a sum sufficient to meet these several demands.

Bunnie Olinger in attempting to climb on a freight car Wednesday afternoon slipped, and caught his foot under the car wheel. Fortunately the foot was but half way on the rail and the pressure caused it to slip outward, so that the toes were only badly bruised. Bunnie can heartily congratulate himself that while the loss of a toe nail or two is painful, he still has a whole foot.

A Close Call. Ed Miller, met with an accident Wednesday night that came near terminating fatally. He was working in the planer, on the night shift, and about 10 o'clock there being a temporary stoppage, Ed put on his overcoat. When the machinery started again, he went to work with his overcoat, a long canvas one, on. The tail of the coat caught on a set screw on the shaft of the driving wheel, and in about three seconds it gathered Ed in, tearing his clothes off and throwing him on the main belt which carried him a short distance toward the engine room, throwing him head foremost to the floor. He received an ugly gash in the scalp which bled freely. Dr. Brostus was called and dressed the wound, and a few days will see all damage repaired, but it was a close call.

She Pines for Greens. Cultus Dave, the venerable Indian relic of White Salmon, tells us that several of the members of his family are indisposed. One of his sisters who is still (Dave says) young and good looking, being only two years older than he, is suffering from indigestion, having nothing to digest, while the tender partner of old Dave's bosom and wealth is sick and tired of salmon. She's surfeited, sated and gorged with it, until the smell of a chinook wind upsets her stomach, being suggestive of the spring run of fish. As the old lady has had a steady diet of that kind of brain food for 27 months, her sudden turning against it causes our enthusiastic friend to suspect that her liver is deranged, and the copper-colored angel of Death is near at hand. We hope however when the tender grass, and succulent tule roots have padded out her digestive mill, and stopped her backbone from cutting a hole through her sternum, that her good health which has followed her sporadically for 119 years, may again take a firm grip of her vitals, and remain with her to the end.

BORN. Near Chenoweth, Wash., February 22nd, to Mr. and Mrs. J. W. Hill, a son. The baby lived but a few hours.

A Winter Visitor. Arthur Disbrow, while out hunting near Sandy Flat last week, followed a cougar's tracks in the snow until they led him to C. L. Morse's cabin. A broken window showed where the big cat had gone to, and a further examination located it on top of Mr. Morse's bed. A well directed shot settled the trespasser. Mr. Morse was not occupying the house at the time, in fact told us confidentially that had he been at home when the cougar came he would have gone out the way the cougar came in, if the door had not been more convenient.

The Spelling Club. The spelling club failed to materialize last Monday evening, but the committees will combine the two programmes and an entertaining and interesting time will be had next Monday eve, March 4th. The school will be called to order at 7:30, sharp.

DELLA WATSON, Secretary. WHITE SALMON, Feb. 24, 1893. EDITOR GLACIER:

Last year at this time flowers had been in bloom about two weeks. May Brooks found the first flowers February 20, 1893. There has been quite a number of yellow flowers found, and one pink was found by Eddie Morgan. In about a week the hills will look beautiful, covered with pink, yellow and purple flowers.

The grading on the White Salmon road leading from Palmer's Ferry to the church will be about completed February 24th. There has been from thirteen to sixteen men on the road this week.

It looked natural to see the steamer go past yesterday. GRACE PALMER.

The remarkable statement is made that there are 10,000 suicides a year in the Austrian army. Either the emperor's soldiers hold their lives very cheap or there are two ciphers too many in these figures.

The discovery of immense fields of coal in Washington has already caused an enormous influx of capital into that state and the output next year is expected to be more than 2,000,000 tons.

There is something pitiful about a woman fighting against the ravages of time, the combat is so unequal. Far and away better is it to accept the inevitable.

Offer for sale 500,000 standard trees grown on high fir lands without irrigation or manure. Such trees are incomparably superior to those grown on swales or watered soil - irrigated trees when planted on high and dry soils are liable to stunt in growth and if they live, it is liable to be 7 or 8 years before they bear to amount to anything. Our trees are frequently in bearing the 2nd year from setting out. Will send references to substantiate this assertion. Apples, Peaches, Plums, Prunes, Pines, Cherries, Quinces and Apricots. Small fruits in variety, ornamental trees and shrubs, and 40 varieties (out of 100 tests) of roses. Specialties, Prunes. Several varieties of New Peaches and Early Texas Blackberries. Special inducements to those planting in lots of 100 to 1000. Correspondence invited. Address, PILKINGTON & CO., 211 KINGSTON & CO. No. 2 Dekum Building, N. W. Corner 1st and Washington Sts. THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large slightly low, broad streets and alleys, good water, perfect drainage, delightful mountain climate, the central attraction of a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalelled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its rushing stream and water power, and where cheap native power exists, there the manufacturers will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assumed, you will find this the place to make a perfect home or a paying investment.
