They note no prices through the newspapers, but invite customers to call and examine goods, and see prices marked in plain figures on every article. If their prices are not as repressed, but above, they will not be used to buy.
 A Sad Accident.
 Wednesday, as the steamer Regulator was returning from the Cascade Locks with the Odd Fellows' excursion, and when near Wind River, Martin Schroeder, a boy 11 years old, slipped, while near the foot of the starboard gangway, and fell to the bottom. The steps end near the guard, on the forward lower deck, which is without guard rails, and the boy, striking on the deck, pitched overboard. The steamer was backed and about lowered. As the steamer neared the boy a deck-hand named Scott seized a life-preserver and leaped into the river to rescue him. The waves were running high, and Scott's efforts were unsuccessful, but the boy was finally rescued with a boat hook from the steamer. The boat in the meanwhile had drifted a quarter of a mile down stream, and a second boat was launched and the brave Scott rescued. Every effort was made to resuscitate the boy, but without avail, and Dr. Brosius being telegraphed for from Viento, met the boat here and went on to The Dalles. He soon found there was no life in the little body, and is of the opinion that he was beyond all hope when pulled out of the water. The father of the boy was killed in the wreck at the Cascades three years ago.

PEARMOUNT (PORTLAND) & HOOD RIVER NURSERIES.

Offer for sale 500,000 standard trees grown on high fir lands without irrigation or manure. Such trees are incomparably superior to those grown on swales or watered soil—Irrigated trees when planted on high and dry soils are liable to stunt in growth and if they live, it is liable to be 7 or 8 years before they bear to amount to anything. Our trees are frequently in bearing the 2nd year from setting out. Will send references to substantiate this assertion.
 Apples, Peaches, Plums, Cherries, Quinces and Apricots. Small fruits in variety, ornamental trees and shrubs, and 40 varieties (out of 100 tests) of roses. Specialties, Prunus. Several varieties of New Peaches and Early Texas Blueberries. Special inducements to those planting in lots of 100 to 1000. Correspondence invited. Address, PILKINGTON & CO., No. 2 Dekum Building, N. THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood River, with large eighty lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing stream and water falls easily harnessed. Where cheap motive power exists, there the manufactures will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
