

Hood River Glacier.

HOOD RIVER, OR. JUNE 3, 1893.

FAST TIME.

The fast trains between New York and Chicago have proven a complete success. The distance is a trifle over 900 miles, the time 20 hours, showing a speed, including stops of 45 miles an hour. At one point where there were ten miles of straight level track, the speed for that distance was 99 miles an hour, or a mile in 36 seconds. It is claimed that with a straight level, well ballasted track, a speed of 100 miles an hour can be maintained with no more danger, than 30 miles an hour brings under existing track conditions. It is quite possible that within the next ten years, the trip across the continent will be made inside of three days, and a mile a minute gait on level roads in the east will be no longer a matter of comment within that time.

F. H. Milburn, son of W. H. Milburn the blind chaplain of the house of representatives, killed himself in Chicago Sunday last, by cutting his throat with a razor. Milburne was 30 years old and cut short his useless life, because he was hard up and his father would not send him money. A letter was found in the suicide's room, from his father saying, "it requires all my pitiful income to support my family, which is with me at Jacksonville." A able bodied man 30 years old who would ask his blind father for money, is much better off out of the world than in it, and the pity of it is that he did not think of the razor route sooner.

It is to be hoped that the case of Dr. Briggs will be finally settled now that the "Judicial Council of the Lord Jesus Christ" has sat upon it. The public long ago lost interest in it, and the case good alone, who are strict sticklers for the truth of the bible in its entirety, will care which way it goes. The liberal minded, while agreeing with Briggs, are disgusted with him for trying to stay within the Presbyterian fold, while his convictions are against the tenets and dogmas of the church.

Interest in the world's fair will cease altogether if the press agent at Chicago does not brace up and get a move on his correspondence. For ten whole days the "lady" managers of the big show have not been reported as having a good cry, and Mrs. Potter Palmer has missed her semi-weekly bath "in tears" for the same length of time. The last time we heard of that Potter Palmer Neneid, she would have made a good model for Niobe—barring the kids.

A topical writer for The Dalles Chronicle, over the signature of L. S. D. states that the camel originated on this continent. It is quite probable that the first specimens of the race, rustled for a living in the country adjacent to the head waters of the John Day. This would account for the animals getting such a hump on itself.

Steadily the gold flows out of the country. We suggest ere it is yet too late the financial policy of the nation be sent to the Keely cure. If Sockless Jerry, the bearded senator or Mrs. Lease, could get a bi-chloride injection, hypodermically, it would help to clear away the financial storm.

Mrs. Marie Nevns Blaine, divorced wife of the son of the late James G. Blaine, was married at New York City Tuesday, to Dr. W. T. Bull. From the name of her present husband and the actions of the former one, we conclude she is a great lover of animals.

The Patton mine at Ashland in which Joe Wilson is interested, has cleared up \$6555. for 27 days run. There is plenty of ore in sight and some of these days when a big mill gets its work in, the output will astonish the natives.

The mining excitement in the southern part of the state continues to draw. We think it pretty clearly evidenced by the reports of rich finds, that the "pocket" lode is predominant.

Items From the Locks. The closing exercises at the school last Friday afternoon were enjoyed by a large number of visitors. The flag was raised over the school house at 2 o'clock, after which a brief address was made by Judge Hall. The school grounds were decorated with evergreens and flowers and the programme was well rendered, Miss Denman being in charge of the exercises, and everything passed off pleasantly. At the close of the exercises Miss Denman gave out eleven graduates certificates, as follows: Bessie Hamilton, Ada Leavens, Maggie Lahey, Bridget McTaney, Alma Benson, Albert Leavens, Frank Smith, Fred Hamilton, L. Levens, A. Trask and Elma Benson. The dance at Leavens' hall last Saturday night was a grand success, 30 couples being present.

A pleasant farewell party was tendered the school teachers Misses Horton and Denman, by Mr. and Mrs. Hamilton last Friday evening. Those present besides the host and hostess were Misses Rose Horton and Annie Denman, Mr. and Mrs. D. L. Cates, Mr. and Mrs. Laycock, and Misses

Sarah McLaney, Bessie Hamilton, Maggie Lahey, Della McLaney, and Messrs. R. L. Aldrich, A. Fleishhauer, E. P. Clark, J. N. McIsaac, Frank Richardson, Fred Hamilton and others whom your correspondent cannot now recall.

J. W. Marshbanks has started a shooting gallery next to Watt's saloon. Alex thinks he is the best shot in the town. Wm. Hamilton came over from the Lower Cascades Sunday. He is ranching and fishing, says the crop looks well but, the fish "aint in it." The Day Bros. have received all the machinery for the electric light plant, and will have it in operation soon. It will be a good thing for the nights as well as the Days, and work will be carried on both night and day soon.

Court was held here last week, H. A. Leavens and four more Swedes being arrested for trespassing on Warren's land.

The Cascade boys intend organizing a baseball club.

R. L. Aldrich is "fairly in it" having a horse to ride to the quaries to take time.

Cascade lodge I. O. O. F., had work in the evening Friday night.

Mrs. Cunningham was up from Portland last week visiting her husband who is one of the civil engineers here. Decoration day passed quietly away, the flag raised over the government building being the only thing out in honor of it.

Mrs. Atwell has gone to California for a visit. Judge and Mrs. Hall spent decoration day in Hood River.

Mrs. I. N. Day, visited this place last Tuesday, thinks it a delightful summer resort, and will come up to stay as soon as their residence, now building is completed.

The Hibernians are to have a picnic at Bonneville Sunday, and some of the Locks' boys remembering the last occasion of the kind will do well to remain at home.

The excursion from The Dalles last Saturday brought a large crowd here all of whom seemed delighted with the Locks. The Day Bros. brought the first load of dimension stone from the Hermann creek quaries last Tuesday evening, loading and making the trip in 35 minutes. The stone appears to be better than that used by the government from the old quarry, being a grade harder.

Joe Franer was up from Bonneville Wednesday, reports the summer visitor as not yet in sight.

Ed Ball, who got his foot hurt while unloading machinery at the government work last week, is out on crutches but will not be able to work for some time. W. V. A.

WASHINGTON GRANGE.

Fifth Annual Session to be Held at White Salmon. The fifth annual session of the Washington State Grange, will be held at White Salmon commencing June 6th. For the accommodation of the delegates the steamer Regulator will leave The Dalles Monday morning, June 5th at 7 o'clock for the Cascades, stopping at way points, returning in the afternoon. For the accommodation of friends who wish to attend the open session, the steamer Regulator will make an excursion trip to White Salmon via Hood River, leaving The Dalles June 6th. Blaine's Handy Manual of Useful Information.

There has just been published in Chicago a most valuable book with the above title, compiled by Prof. Wm. H. Blaine, of Lancaster University. Its 500 pages are full of just what its name implies, useful information, and we fully advise our readers to send for a copy of it. It is a compendium of things worth knowing, things difficult to remember, and tables of reference of great value to everybody, that it has never been our good fortune before to possess in such compact shape. Our wonder is how it can be published at so low a price as is asked for it. It is handsomely bound in flexible cloth covers, and will be sent to any address, postpaid, on receipt of 25 cents postage stamps, by the publishers.

G. W. OGILVIE & Co., 276 & 278 Franklin St., Chicago Ill.

Out of Sight.

The traveling public are new full alive to the fact that the Chicago, Union Pacific and Northwestern line offers the very best accommodations to the public from and to Chicago, Omaha and intermediate points, not only during the world's fair, but all the year around.

Read This and Profit by It.

Olinger and Bone, proprietors of the Big Red Barn, in addition to their livery and stage business, are handling grain, chop-feed and hay. They are also agents for the Knapp Burrell & Co. machinery. Bain wagons, bucks, buggies, windmills and pumps, Oliver Chills and Steel plows; garden cultivators, plows and barrows; and will sell their Mt. Hood coaches, hacks and buggies, made to use. In order to open in the spring with an entire new outfit, Call and price their goods.

WANTED.

A girl to do general house work. Apply at the residence of A. R. Byrckett, Hood River.

"World's Fair Travelers Will Have It."

The public demand through service when traveling. It is old-fashioned to change cars. On the through solid vestibule trains of the Chicago, Union Pacific and Northwestern Line, from or to Chicago, Omaha and intermediate points, there is no change. This is the finest and fastest road.

W. C. Stranahan has opened his stand on Oak street, and will keep a stock of fine candies, fruits and cigars; and during the summer will serve ice cream and lemonade. Besides this he will carry a fine line of fishing tackle.

NOTICE FOR PUBLICATION.

(Timber Land, Act June 3, 1878.) United States Land Office, Vancouver, Wash., May 2, 1893. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada, and Washington Territory, Sam Samson of Chenoweth, county of Skamania, state of Wash., has this day filed in this office his sworn statement No. 127, for the purchase of the NW 1/4 of section No. 10 in township No. 3 north, range No. 9 east, W. M. and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Vancouver, Wash., on Tuesday the 18th day of July, 1893.

He names as witnesses: Allen Haworth, John M. Coulter, Frank Brower, John P. Gilchrist of this office at Vancouver, Wash. Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 18th day of July, 1893. JOHN D. GREGG, Register.

FOR SALE.

A gold ring set with two rubies and two opals, in a small case, between Tucker's mill and the depot. Finder will be rewarded by returning the same to this office.

"MIDNIGHT."

Will make the spring season of 1893, at convenient places throughout the valley and White Salmon Washington. Time and place subject to future appointments.

Description and Pedigree.

"Midnight" is a coalblack Hambletonian, 5 years old; 18 hands; weight 1000 pounds; bred by Shaw's Hambletonian dam, a Copper-bottom mare, "Midnight" is a good dispositioned horse, a topsy driver and quite a trotter for a horse of his size. "Midnight's" service fee will be \$10 for single service, due at time of service, or \$15 for the season. Persons breeding by single service and mare failing to catch, can breed by the season by the additional payment of \$5. Season to close July 15, 1893.

CARE OF YOUNG COLTS.

This is the time of year when much loss occurs to the farmers in the loss of young foals. A Canadian horse-breeder of much experience says:

Carefully watch your colt for the first ten days, and see that its bowels act properly, as the first ten days are the most critical in a foal's existence. If you can get them over the first ten days they usually require very little attention if the mare is fed judiciously. The mare should be fed some two or three weeks before she is due to foal and some time after foal, such as boiled oats, bran, and linseed that has been boiled for twelve hours or longer, so as to loosen the system and provide a generous flow of milk. If from some cause the mare should not have sufficient milk the best substitute is cow's milk, one-fourth water and a tablespoonful of honey to a pint of milk.

Costiveness, diarrhoea, and inflammation are the principal ailments a young foal is subject to. The two first careful treatment will overcome; the last is, in most foals.

The following are well tried and the best remedies that have come under my notice: Constiveness—Rectal injections of lukewarm water every half hour, or syrup of rhubarb with a few drops linseed oil; dose, tablespoonful. Nothing acts more powerfully than injections, and the advantage is they do no harm.

Diarrhoea should not be stopped suddenly; tablespoonful brandy with teaspoonful of tincture of gentian and two tablespoonfuls lime water in a cupful; linseed tea every three hours.

Inflammation—Apply blanket, thickly folded and wrung out in very hot water, to belly; rub the legs well; give teaspoonful iodoform in two ounces of water. Repeat dose in two hours if necessary.

YOUNG GENERAL.
