Mr. Webber and family of Sherman county moved to this place last week, and have rented the Billing's cottage. He expects to remain here until next spring, and may locate permanently.  
Capt. Coe dedicated the Iron by building a merry party for a trip down the Columbia Thursday evening. It was composed principally of the young ladies attending the teachers' examination.  
J. W. Martin left for his Tillamook home Thursday morning, also says it is pretty tough to come back after a year's absence and be greeted by way of greeting. He will be back in November.  
The excursion Saturday, was a very pleasant one, some of our old friends being in the party. Professor Frazier had the biggest fishing pole, but we did not see him in possession of any specimens.  
There was small scrapping match between employees of the telephone company at Hood & Wallace's stable last Sunday. A quart of gin and half gallon of whiskey ran against one another. No serious damage was done.  
Dick Jones was in from Lost Lake Wednesday. He tells us the fishing is good, their willingness to bite being only equalled by that of the mosquitoes. The fish will average ten inches to a foot in length, and the other birds named about the same.  
Mrs. Van Johnson, that was, is now a member of the Salvation Army in Portland. Her sister Mrs. Dean and her husband, are also high privates in the same army. It is safe to say that Satan has a couple of heavier weights in these than he ever tackled before.  
George Sleeman came in from Trout Lake Sunday. He tells us the camp meeting had just got under way with about 50 in attendance, but that a large crowd is expected. The fishing is excellent, and quite a number are taking the lively trout in out of the wet.  
P. A. Seyler and others here petitioned the county court for a public road, from near Van Johnson's to connect with the road above Divers'. It granted the road will be bridged on Snyder's place. We understand the Divers who own the road will pass through, with claim \$500 damage.  
There is nothing like being the owner of a paying gold mine. Our old friend, Joe Wilson, writes us that he expects to visit Clifton about the first of September, and he adds, that their trail is grinding out the yellow metal, worth six cents on the dollar, and going at it hot with perspiration, sulphur, dynamite and explosive people.  
Miss Clara Blythe gave a quilting bee Wednesday afternoon, and there were present a goodly number of her acquaintances. Those present were: Misses Elizabeth Leach, Bridget Warren, Edith Eastman, Leona Wickham, Nellie Wickham, Bernice Foley, Hester Howe, Edna Parrish, Stella Parrish, Grace Campbell, Bessie Lloyd and Clara Blythe.  
The alarming symptoms of his little daughter Mary, caused Jesse Watson to telegraph to Portland for Dr. McKenzie to consult with Dr. Breslin, last Saturday. He came upon an engine, and the run was made in an hour and 25 minutes, probably the fastest time ever made over the road. The little patient is now out of danger, and recovering slowly.  
Rev. C. W. Wells has returned from the conference at Philomath. He was not assigned to duty for the coming year, but will go to Denver and thence east to visit friends for a year and get a much needed rest. Mrs. Wells will accompany him. Rev. Robert Coffman, has been selected to take charge of the church here and will probably arrive next week.

**What Are You Worth?**  
County assessor Koontz was here during the week and had a lot of pertinent questions which he insisted on having answered, and the answers sworn to at that. Assessment is being made this year at full value, but it is safe to protect yourself against the d-i-l fools whom mother lot of fools created into a board of equalization. This wise body of adjusters meet at Salem, and deliberately commit felony by robbing honest taxpayers. How these eyes-winking owls, can fix the value of town lots in a town they know nothing about is beyond comprehension; and why the late word of these salaried liars is to be given the preference over the oath of the individual taxpayer who knows the value of his property, is something that cannot be explained. It is a piece of asininity that no one but a webfoot would put up with.

**A Case in Court.**  
Tuesday, T. E. Wickens filed complaint against J. W. Morton and E. C. Miller charging them with trespass on his land. The defendants were arrested by Constable Olinger, Wednesday morning and the case came on for hearing before Justice Henry at 10 o'clock that day, the state being represented by Mr. F. Menefee of The Dalles, and defendants by J. H. Cradabaugh. The evidence disclosed the fact that the title to the land where the alleged trespass occurred was brought into dispute and Justice Henry certified the case up to the district court, where it will be tried next November.

**Some Resolutions.**  
Just before adjourning the Institute, the following resolutions were passed:  
Resolved, That a committee of five, including the superintendents of Wasco and Sherman counties, be appointed a committee to work up and report a plan for a county normal institute.  
Resolved, That we owe it to the cause of education to organize a county normal institute to last from three to four weeks.  
Resolved, That the teachers of Wasco county, in institute assembled, do hereby tender a vote of thanks to the citizens and committee of reception at Cascade Locks for good will shown to the teachers' excursion; to the United Brethren for the use of their church building, and to the school board for the use of the school building; to Mr. and Mrs. E. L. Smith and the ladies assisting in the reception, and to the citizens of Hood River in general for hospitality and courtesies extended; and to the press of Wasco county for giving space and publicity to our meeting.

**John Gavin, Aaron Frazier, Minnie Mitchell, Committee.**  
The following were appointed on the committee on institute work: John Gavin, Aaron Frazier and Charlotte Roberts.

**Almost a Drowning.**  
Last Saturday one of the Olinger boys while swimming in the pond below the depot, got out far enough that he became afraid he could not get back to shore; a conclusion that he was assisted in reaching by the cheerful statement from boys on the shore, that he was going to drown. At the same time his legs became entangled in floating weeds, and being now thoroughly frightened he began to call for help. Fortunately a dead willow branch was sticking up through the water and he held on to this until Mr. Lacey one of the section men swam out and brought him to land. The boy is just learning to swim and out guessed his abilities in that line.

**A Jolly Party.**  
A party consisting of Hon. M. A. Moody, and Messrs. Joselyn, of The Dalles, Green of Portland, and Judd of Boston, accompanied by Mrs. Newman, Misses Annie and Bessie Lang, and Miss Newman, came down from The Dalles on the Regulator Saturday, bringing a four horse team with them and went out to Cloud Cap the same day. Above the Elk beds the heavy wind had blown down a dead tree four feet in diameter and this effectively blocked the road. They managed by unhitching the horses to get the wagon over the tree and reached the Inn in good season. Coming back they broke the king-bolt in their wagon at this same tree, and the party came in in two hacks procured from the settlers. They saw a bear and two cubs, and left by the train Monday evening delighted with their trip.

**New Time Card.**  
Sunday last the new time card went into effect, and trains leave here as follows: No. 1 fast mail westbound 4:42 a. m., No. 2 fast mail eastbound 9:45 p. m. The way-freight trains Nos. 27 and 28 will also carry passengers. They are due here as follows: No. 27, westbound at 10 a. m. No. 28, eastbound at 3:40 p. m. No other freight trains are allowed to carry passengers. The abandoning of the day passenger trains cuts out conductors Glendening and Fowler. The latter has gone to Chicago, on a two month's vacation.

**The Blaze kindled.**  
We predicted when the Phelps creek water company obtained judgment against the Oregon Lumber Co., that it was only the beginning of a series of costly law suits. Already a dispute has arisen between parties getting water from the creek, and a blaze has been kindled, that will take the earnings of all the water in the creek several years to conquer. Up to date, no ones rights to the water have been adjudicated upon, the only question decided in the suit against the Oregon Lumber Co., being that it had no rights to the waters of the creek. We make another prediction now, and that is that the parties who stood together to fight the Lumber Co., will be fighting, each the other in the courts inside of two years, and probably in much less time. We regret the fact because we believe that a judicious management of the water would have supplied all with water, until new ditches would have made the demand on Phelps creek much lighter, and all litigation could have been avoided. As it is the trouble has commenced and the end of it is far away.
