It was wondered why Markham walked to town Saturday morning, but an investigation disclosed the fact that, having returned from the bear hunt on the previous evening, he had turned his horses out, forgetting to unharness, and during their night's ramble in the pasture they lost the harness, and Claude thought he could walk in quicker than to hunt it.

One morning last week we passed a blackberry patch and saw two ladies among the treacherous bushes of thorns picking berries with men's pants on, says the Traver Advocate, whereupon the Woodland Mail rises to explain that it is time for Yolo county to shut up shop when Tulare can produce fruit like that.—Elko Free Press.  
Eighty stone cutters are at work at the locks. The pump decreases the water in the canal about three feet in twenty-four hours. It will take about a week to pump the water all out. While lifting a log at his place last Monday, H. C. Bateham had the misfortune to strain his back so that he may be indisposed for several days. Budding and other nursery operations were put a sudden stop to and unless a new back is procured soon there will probably be a demand for hired help there before long.  
Shepherd's Landing, nearly opposite the Cascade Locks, on the Washington side, has been laid out as a town site and given the name of Stevenson. The records were removed there from the Lower Cascades Monday, which move, according to the Skamania Pioneer, was not entirely satisfactory to every one in that neighborhood. The land is owned by a syndicate, who intend to boom the new town and make it a great "commercial center."  
Frank Hill, the express agent, received a letter from Mrs. Taffe yesterday, informing him that the Indians had found the gold watch belonging to her son Will, who was drowned in the Columbia river a few weeks ago, and had brought it to her. It was found on an island, but how it came there will always remain a mystery. This watch will be prized by Mrs. Taffe, as it was a present from her to him, and will be a memento of her boy who met his death by drowning.—Times-Mountaineer.  
George Murray, who was found on the streets in this city some days ago, was adjudged insane by a lunatic inquiring held by Justice Davis in the absence of Judge Blakeley. He claims to have come from Walla Walla, where he lived for some time, aged about 45 years, and was born in Ireland. When asked regarding friends or relatives he refused to impart any information. The nature of his insanity partakes more of idiosyncrasy than any particular mania. He talks incoherently on all subjects and imagines that some person is trying to injure him. Dr. Logan was the examining surgeon.—Mountaineer.  
Mr. M. N. Foley and daughters, Misses Mattie and Bernice and son Melville, accompanied by Miss Alvie and Bertha Markley and Mr. M. Willis of Hood River, Oregon, passed through Goldendale Tuesday en route for the Yakima hop yards. The party was interviewed by a Courier reporter at their camp on the Little Klickitat Tuesday evening. Mr. Foley reports times very dull in the Hood river valley, but says that the business of the country is not suffering any hardships on account of the general financial stringency, as the berry and fruit crop has netted the settlers in that locality \$35,000 or \$40,000 and placed the business on a good footing. The party had a good outfit for camping and appeared to be enjoying the trip.—Goldendale Courier.

For particulars apply at this office or to W. P. Watson, Hood River Or.  
To the Farmers.  
We will do all kinds of grinding on Saturdays this season except flour making. We have learned that good flour can only be made out of our dry wheat by dampening the grain after it has passed through the smutter and allowing it to sweat a few days. Leave your wheat with us and give us a chance to do good work. You will then use our flour in preference to any other.
