 The Dalles Sun is mistaken in saying Hood river valley needs a flouring mill. Harbison Bros. have a mill on Neel creek and manufacture a first-class grade of flour.  
 The tournament given by the firemen of The Dalles last Monday was a perfect success in every respect, being largely attended from both Oregon and Washington cities.

 Dr. F. C. Brosius, having been appointed assistant surgeon, to rank as first lieutenant, Third regiment, O.N.G., received his commission from Governor Pennoyer Sept. 1st. The commission dates from Aug. 31st. The appointment is a good one, as the Dr. is well qualified for the position.  
 If you have property to sell, list it with us. We have concluded to handle all the Hood river property we can and are prepared to do so on the very smallest living commissions. We are so situated as to easily reach all possible purchasers. Give us a list of the property you desire to sell and we will do the rest. Call and see us at the GLACIER office.  
 Quite a number of Hood River people have tried various preparations and processes for preserving fruit and vegetables without cooking, some to the damage of their fruit and others to the damage of their stomachs. It would be interesting to collect this information and compare experiences to ascertain what if any of these preparations are really reliable and whether for table use or exhibition purposes only.  
 Little Mammie Moody, daughter of W. H. Moody of The Dalles, who with her mother has been stopping at Mr. Myers' place at White Salmon, was badly scalded Monday. Mrs. Meyers had a pan of boiling water in her hands and the child ran against her, upsetting it over both of them. Mr. Moody chartered a locomotive and came down accompanied by Dr. Rinehart. The child was taken home and is reported as resting easy and her injuries not so serious as apprehended.

**Letter List.**

**A Remarkable Dog.**  
 A remarkable dog lives in St. Petersburg. As the story comes from that city this dog belongs to M. Duroy who was awarded a gold medal by the Paris Academy of Science for his discoveries in the science of hypnosis as applied to animals. One of the tests consisted in placing several articles, as a pencil, cigar-case, handkerchief, cuff-button, &c., on the floor. Then the dog having been thrown into a hypnotic trance, M. Duroy requested one of the audience, which consisted of several physicians of renown and some newspaper men, to think about something and what the dog was to do with it, then to write it out on a piece of paper and show it to the rest of the audience, excepting, of course himself. This was done, and the dog having been brought in, what was the astonishment of the whole assemblage to see the animal go up to the cigar-case, pick it up, and bring it to the one who had been indicated in the wish. Another test consisted in laying several cubes with figures on them in a certain order in a closed box. At the same time several pieces of paper were put upon the floor bearing like numbers on each. The dog was then called in and required to place the pieces of paper in the same order as the cubes were laid in the closed and sealed box. This he did to the astonishment of all assembled. The strangeness of the whole procedure is increased when it is remembered that M. Duroy knows no more about what is being done or wished than does the dog, and is therefore entirely unable in any way to prompt the animal.  
 T. C. Dallas has just received a fine stock of cook stoves, ranges and kitchen furniture. Call and see them.  
**Cheap Homes, Secure one Now.**

I settled on government land six years ago, at the falls of Hood river, and live there now; am well pleased with the location, have spent much time and money building roads and bridges leading to these lands, and to improve the country. These lands have plenty of wood and water, and are among the best for fruit and vegetables, as well as for general agriculture. If you want a home of this description, do not fail to see me at the falls.

 Will sell for 20 cents on the dollar, the finest sheep ranch on the Pacific coast. Will range naturally fenced, sufficient for 50,000 sheep. Can arrange for cutting 250 tons of hay if desired, convenient to market, no snow. Also 30 acres of land 1 1/2 miles from the town of Hood River at \$25 per acre; level and easily subdivided. For particulars apply at this office or to W. P. Watson, Hood River Or.  
**To the Farmers.**  
 We will do all kinds of grinding on Saturdays this season except flour making. We have learned that good flour can only be made out of our dry wheat by dampening the grain after it has passed through the smutter and allowing it to sweat a few days. Leave your wheat with us and give us a chance to do good work. You will then use our flour in preference to any other.  
 HARBISON BROS.,  
 Proprietors Hood River flouring mills.  
**The Aztec Calendar.**  
 CHICAGO, AUG. 29.—At the anthropological congress at the world's fair to-day, Mrs. Zelia Nuttall read a paper giving for the first time an interpretation of the ancient Aztec calendar. Scholars declare it the most important discovery of the kind in this century, as it furnishes the key to much of the life and arts of at least six nations of the early inhabitants of Mexico, and promises to lead to a translation of the hieroglyphics on the ruins of early Mexico and Central America. The accuracy of this calendar, which is pronounced in advance of any other system now in use, give evidence of the high civilization and mathematical attainment of the ancient inhabitants of America. It is entirely different from any system known in ancient Europe, Asia or Africa. It is estimated that at least 4000 years of astronomical observation was necessary to perfect this calendar. It furnishes a key also to the religion, architecture and domestic life of that people.
