The Kay apples mentioned in writing up the fair last week were grown by F. R. Absten. The way the article was written, would convey the idea that they were grown by Mr. Locke. They attracted more attention than any other fruit in the exhibit.

Captain Blowers has let a contract to A. H. Jewett for furnishing, planting and taking care of for one year 4000 fruit trees on the place he recently purchased from Mr. Backus. This will make an orchard of twenty acres. About three-fourths of the trees are prunes.

Hood river took charge of the drive of telephone poles that have been laid up for the past two months, and brought them in less than two hours last week. It not only brought them in, but very considerably handed them on the beach with a little assistance from C. L. Morse.

Hanna & Wolfard wish to announce to their friends and patrons that they have added a complete line of dry goods boots and shoes, and invite you to call and see what we have. We desire a portion of your patronage, and will try at all times to merit the same by courteous treatment, and honest dealing.

We see no reason why the Hood River band should not be kept up. We have a plan which we will disclose, if it works, next week, by which pleasant quarters could be furnished for the boys to practice in, and we believe if this was done the band could be kept up. There is plenty of good material for it.

The morning freight train from the east was delayed three hours Monday, about a mile and a half east of here, by a slide. Engineer Joe Wilson, Fireman Christians and Conductor Greenwood jumped and all were somewhat bruised and scratched, but not seriously. The engineer shut the steam off before he left his post and no damage was done to the train.

The Band water wheel met with hard treatment during the recent high water in Hood river. The bottom of the wheel is less than a foot above the bottom of the river, and when the water began to move, it was a foot to three feet in diameter, and commenced. About half the paddles were knocked off, but otherwise the wheel was not seriously damaged.

Sergeant Powell, who is at present stationed with his regiment at Vancouver, stopped at Annesville Wednesday on his way home from the world's fair to visit his old comrade, Mr. Harney, who has located a quarter section of land near the Underwoods, and have a hunt. The sergeant holds the medal as the second best marksman with a rifle in the world.

Mr. Foley, two daughters and son, two of J. C. Marley's daughters, and Mr. Willis, after six weeks spent in and about the Yakima hop fields, arrived here last Thursday. They report having had a very pleasant trip, and Yakima being a phenomenally lively town, on account of the Indians and other hop pickers, spending the money earned in harvesting the big crop.

BORN.

In Hood River, Monday, October 9th, to Mr. and Mrs. W. H. Bishop, a son.

The Dalles Fair.

The weather clerk as usual dished up the mistiest weather at his command for The Dalles fair. The heavy rains that had prevailed for a week broke away Monday, but only to get a better hold so that they could let go that much harder. The attendance from Hood River was very light, for several reasons; one of which was that to be in The Dalles one day, the visitor from here must remain over two nights and another, more potent, it were better perhaps, not to mention.

Bad Man From Hood River.
J. N. Hughes, who has for some time presided over the culinary department of the Mt. Hood hotel of this place, was arrested last Saturday, charged with highway robbery. In company with a man named Vincent, he is said to have held up a man named Blazier, in Portland, robbing him of his watch and money. Blazier after the robbery let his hands fall to his side too quick to suit Vincent, who turned back and placing his pistol at Blazier's breast fired two shots, both of which passed through his clothing and his left arm, but fortunately missed him. It is probable Hughes will serve the state for five years, and Vincent perhaps double that length of time.

Is It a Gravenstein?

EDITOR GLACIER:
I saw a variety of apple in the late exhibition held at Hood River, shown by M. V. Rand, and named Melon apple, an acquisition and importation of Germany. I notice the Oregonian makes special mention of the same. You probably took note how closely it resembled the Gravenstein; the Oregonian's report also notes the close resemblance. The fact is if M. V. Rand got his cions from a German who brought them from Germany, he showed up a beautiful sample of Gravensteins. The Melon apple is a very old apple and is described by Downing as originating in East Bloomfield, N. Y., being a stay bearer and winter apple; whereas, the Gravenstein is an acquisition from Germany. For detailed description consult Downing and note the difference. Respectfully,
P. F. BRADFORD, Jr.

Leave your wheat with us and give us a chance to do good work. You will then use our flour in preference to any other.
